A PUBLIC BOON.

“HEAP’S PATENT”
DRY EARTH or ASHES CLOSETS
and INODOROUS BEDROOM COMMODES.

A Special Silver Medal—Toronto, 1885, making 16 First Prize Medals Awarded.
OVER 16,000 NOW IN USE.

Are the Best in the World and THE ONLY PERFECT
Dry Earth Closets made in Canada.

As supplied to the British Admiralty and War Departments. Adopted
by the Dominion and Provincial Governments

From Professor Goldwin Smith.

“DEAR SIR,—I have pleasure in testifying that the Earth Closets (three) supplied by your Co’s to houses occupied by members of my household, are found to work extremely well, and to be very conducive to health and comfort.”

“Very Rev. Dean Boomer is pleased to testify to the value and usefulness of the Bedside Commode supplied to him by Mr. Heap. It has fulfilled all the promises made for it in the printed circular, and he strongly recommends it for the use of invalids.”

From the Small-Pox Hospital, Montreal.

“Twenty-five of these Commodes (No. 13, self-acting) are now in use in the Mount Royal Hospital, Montreal, and the medical men and the lady nurses in charge have expressed themselves well pleased and satisfied with them. I am so glad that you were successful in getting us “Heap’s Patent” Closets. They are certainly far ahead of Moule’s, and prove an excellent system when properly managed.” JOHN J. GARDNER, M.D.,
Nov. 23, '85. Mount Royal Hospital.

English Testimony.

“Rawdon College, near Leeds, May 21, '85.
DEAR SIR,—You will probably remember that two years ago you supplied us with Earth Closets in connection with a partial re-modelling of our entire sanitary arrangements. The result of the change then made has been altogether satisfactory, and we have resolved to complete the conversion of our system from Water to Dry Earth Closets. I shall be glad to have the order completed at your earliest convenience.
I am, yours faithfully, T. GEO. ROOKE.”

Inodorously Portable Bedroom Commode.—
A, the Urine Separator; B, Urine Receptacle; C, Excrement Pail.

I may say that your Dry Earth or Ashes Closet in my opinion, is superior to all other kinds of Closet, and will, I feel sure, supersede all others in time, and at once, where health, cleanliness, and frugality predominate. I shall at all times recommend them to be adopted, where possible.
Yours faithfully, THOMAS LUDLAM.
