MAKING THE FOREST FIREPROOF!

Rangers Appeal to Public to Keep Vigilant Look-out For Small Conflagrations.

Several forest fires have already occurred in various parts of Canada this year. In practically every case the cause was traced to human hands—a tossed-away cigarette, a neglected campfire, or similar act that at the moment appeared trifling. Settlers, anxious to burn their 'slash' in the hottest weather without obeying Government regulations are a prolific cause of forest fire every year.

The rangers of this province are asking the co-operation of every man, woman and child this year so as to keep the forest losses down to a minimum as a matter of decent patriotism. Special efforts are being made to provide fire fighting equipment but the main task is to prevent fires from starting. This is a comparatively simple matter if every

camper puts out his campfire, every smoker extinguishes his cigarette and match before tossing away, every settler guards his clearing fire. When a bush fire is seen, instant word should be sent to the nearest fire ranger, railroad agent or municipal officer.
