

## Boog Spavin

Cure the lameness and remove the bunch without scarring the bone—have the part looking just as it did before the blemish came.

**Fleming's Spavin Cure (Liquid)** is a special remedy for soft and semi-solid blemishes—Boog Spavin, Thoroughpins, Splints, Curbs, Capped Hocks, etc. It is neither a liniment nor a simple blister, but a remedy which any other—doesn't irritate and can't be limited. Easy to use, only a little required, and your money back if it ever fails.

**Fleming's Vest-Pocket Veterinary Adviser** describes and illustrates all kinds of blemishes, and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

**FLEMING BROS., Chemists,**  
78 Church Street, Toronto, Ontario

FREE

#### ORIGIN OF THE BUCKBOARD.

There are few persons who know how the name of "buckboard" came to be applied to a vehicle, says the American Vehicle. It was back in the '20s, when the transportation of goods, wares and merchandise was almost entirely by wagon. A Dr. Buck, who for many years afterward was the military storekeeper at Washington, was then in charge of military stores en route to army posts in the Southwest. In East Tennessee much difficulty was experienced by reason of the rough roads, and there were frequent mishaps, mostly from wagons overturning. Dr. Buck overhauled the outfit, and, abandoning the wagon bodies, long boards were set directly on the axles, or hung below; and the stores were loaded in such a manner that there were no further delays from breakdowns, and the stores safely reached their destinations. In special emergency, too, the load could be shifted or taken off in a hurry. The idea was probably not new, but Dr. Buck's example was followed, especially when roads were rough, and soon much hauling was done by the use of wheels, axles and boards only. Now we have the buckboard, both in carriage and automobile forms, conforming closely to the original idea, though few suspect the source of it.

10c. The latest success.

## Black Watch

The big black plug chewing tobacco.

#### GOSSIP.

Messrs. John Dryden & Son, Brooklyn, Ont., write in regard to the Clydesdale stallion offered in their advertisement, that he is a splendid animal, and should be an impressive sire in any neighborhood. He weighs 1,800 lbs., is good at the ground, has fine legs and pasterns, and is a great mover. He has a good body, good head, and is very quiet to handle. His breeding is of the very best, being out of a grand mare, and sired by one of the best stock horses in this district. He is a half-brother to the first-prize Canadian-bred stallion, same age, at the recent Horse Show held in Toronto. He has been bred to a few mares, and is a splendid worker, and very sure. Shall be glad to send a copy of his breeding to anyone interested.

Mr. Geo. Rice, Tillsonburg, Ont., writes: Calamity Jane 3rd, daughter of Calamity Jane, sold by me to Mr. W. A. Matteson, Utica, N. Y., has just given in official test, 106.2 lbs. milk in 24 hours; 27.96 lbs. butter in 7 days, and her 30-day record will be completed in two days, and indicates nearly 3,000 lbs. milk and 90 lbs. fat, or 112 lbs. butter, 80 per cent. fat. Dichter's Calamity, sired by a son of Calamity Jane's Pauline at five years old, has given 631.2 lbs. milk in 7 days, and 2,579.9 lbs. in 30 days, 32.4 lbs. butter in 7 days, 128.9 lbs. butter in 30 days. This is going some, and shows Calamity Jane as great as a breeder as she has been as a producer of milk. A daughter, Calamity Jane 4th, a granddaughter Calamity Jane 2nd's Posch (sire Sir Pietertje Posch), and 28 of the get of Prince Posch Calamity. The old cow's son, by Sir Pietertje Posch, whose dam, Alta Posch, 27.1 lb., has still the world record for a two-year-old, are catalogued for my sale on the 11th and 12th March.

#### A GREAT RECORD MARE.

The well-known trainer, Harry Stinson, who educates and trains the youngsters at Miss K. L. Wilk's Cruickston Farm, Galt, Ont., expresses the belief that the gray mare Vanity, 2.194, by Haldane, dam by Daniel Lambert, will, if she lives and remains productive to the average of equines, prove to be the greatest producer of early speed known. Vanity has had but two foals trained, one being Oro Lambert, 2.174 as a two-year-old, and the other Vanity Oro, 2.244 as a two-year-old. These are her two first foals. Mr. Stinson says he drove Oro Lambert in 2.144 as a two-year-old, and last season, as a three-year-old, he trotted in 2.09 in a race. Vanity Oro also trotted in 2.154 as a two-year-old, so it is probable that no other mare has produced a better pair of two-year-olds than Vanity produced in this pair. Twins, that died, were the next produce of Vanity, but last season she produced a filly by Mograzia, son of Moko, that has already been broken to harness, and is now taking work, preparatory to being sent out to capture the yearling record now held by Adbell. This looks like a tremendous task to set for a yearling, but Mr. Stinson, who is no novice in the art of fitting colts to go after records, says she is the best prospect for a yearling trotter he has ever seen, and he expresses the belief that if all goes well with her, she will be able to perform the feat desired before she goes into winter quarters next fall. It is the special desire of Miss Wilks to have every one of Vanity's foals take a standard record at two years, and all her foals will be handled with that idea in view, excepting, of course, her yearling that is being trained to do the trick a year earlier. Vanity Oro will be Stinson's candidate for the futurities this year, and he believes she has as good a chance of winning some of them as any three-year-old in sight. Oro Lambert will be mated with a few good mares in the spring, and will then be trained lightly the balance of the season. In 1910 he will be prepared to take a fast record, and Stinson does not hesitate to say that he expects him to trot below 2.05. Vanity is now due to foal to Kentucky Todd, 2.087, and her foal by that horse should at least be as good as any she has produced. *Horse World.*
