

Niagara Brand Lime-Sulphur Spray

MANUFACTURED IN CANADA

NIAGARA is the Standard of Value for fruit-tree sprays. It is used by the most successful fruit-growers in every fruit district of the Pacific Northwest and in many of the Eastern States, and has already proven its worth in Ontario.

THERE IS A REASON WHY.

NIAGARA is made under special process (of which we have secured all rights for Canada). The only known process by which is made a permanent and reliable solution of lime and sulphur of sufficient strength to meet all requirements.

Anybody can make a Spray which may do sometimes. The process by which NIAGARA is made insures the best work at all times.

NIAGARA is the best known remedy for Apple Scab, Leaf Curl, and most all forms of fungi, San Jose Scale, Oyster-shell Bark Louse, Blister Mite, Aphid, Bud Moth, and all sucking insects and parasitic life.

Potato and Tomato Blight and Mildew of Grape have been successfully treated. NIAGARA Brand Lime-Sulphur Solution has been proven by the highest authorities, after several years' work, equal to Bordeaux as a fungicide, and far less dangerous to use. It is ready prepared and cheaper.

ARSENATE OF LEAD.

ARSENATE OF LEAD has almost entirely supplanted Paris Green as a poison for Codling Moth and other insects requiring a poison treatment. Such dissatisfaction as may have arisen because of burning or failure can be attributed to an improperly combined arsenate. NIAGARA BRAND ARSENATE OF LEAD is specially prepared with a view to efficiency and safety.

PRICES—Because of manufacturing ourselves, and buying materials in large quantities, we are prepared to offer these Sprays at a much lower price than obtained last season.

PUMPS—We are Canadian Agents for the famous BEAN SPRAY PUMPS—hand and power. Also a full line of hose, nozzles, etc.

SPRAY BOOK—We are preparing a book, which we trust will be of value to fruit-growers, and will be mailed to you upon request.

REMEMBER—WHEREVER FRUIT EXCELS, NIAGARA SPRAY IS USED.

GET AN I.H.C. GASOLINE ENGINE TO WORK FOR YOU

I. H. C. engines and prosperity are going hand-in-hand on thousands of farms. I. H. C. gasoline engines are the farmers' willing workers that do not ask for wages or days off or refuse to work when the weather is bad.

Just give the wheel a turn—and a whole string of your other machines will get busy. You can run half a dozen of them at once, if you like—sawing, grinding, churning, separating cream, pumping water, etc. Your simple, powerful I. H. C. gasoline engine will furnish power for them all.

One great advantage of these engines is their ever readiness. They enable you to do your hardest jobs faster, better and easier than ever you have been able to do them before.

There are hundreds of places where you would like to use a power—sometimes for just a little while, other times for a long, steady run. Many a time you can have the job done with your I. H. C. gasoline engine before you could even get ready with your old-style power. If it's a long, steady run, like a day's job of sawing wood, the engine will keep your saw going steadily hour after hour. The engine will take care of itself—all you have to do is just saw wood.

The expense is only a few cents for gasoline for the whole day's work. There's no waste of time and fuel in starting up. And all expense stops the instant the work stops.

You need an I. H. C. engine to take the short cut on your work. Figure on the matter—see how soon it will pay for itself by getting full service for you out of your other machines. The engines are simple and easy to understand. You will have no trouble in learning to operate one of them.

Go to our local agent and look over the line. It includes an engine for every section and every problem, of all sizes and all costs, for all farm uses—vertical and horizontal (both stationary and portable); engines on skids; sawing, pumping and spraying outfits. It also includes I. H. C. gasoline tractors—first prize gold-medal winners—the best all-round farm tractor by test.

Call on our local agent in your town and talk the matter over with him. He will supply you with catalogues and all information. Or, if you prefer, write nearest branch house for catalogue and full particulars.

CANADIAN BRANCHES: Brandon, Calgary, Edmonton, Hamilton, London, Montreal, Ottawa, Regina, Saskatoon, St. John, Winnipeg.

FROST & WOOD No. 8 MOWER

HAY-MAKERS THEY WORK WELL TOGETHER

An ideal combination for getting in your crop of grass. Our No. 8 Mower with its strong, substantial build, its accurate, clean-cutting power and ease of operation, is a real money-saver and profit-earner for thousands of farmers at every point in the Dominion. It is strong, durable, needs few repairs. It works day in and day out, proving the stalwart honesty and mechanical excellence put into every gear and wheel, knife and shaft, cutter-bar and pitman.

But there's the other tool—can't get along without that—the Tiger Hay-Rake. It's all steel, except tooth-rail and shafts, which makes it proof against hard work, rain and exposure. A Tiger Rake is exceptionally durable. It does such clean work, too. The spring teeth have just enough elasticity, and are curved so as to pick up grass easily and evenly. It's an easy rake to handle for horse and driver. It can be dumped by foot or hand. The fall of the teeth after dumping is eased by a strong spring that prevents much of that disagreeable jar so evident in cheap rakes. We can't tell you here the scores of good points about these hay-makers. Send for our catalog F58 and special "Hay Making Folder." Both books are free, and answer your questions. Ask our local agent to show you our farm implements. He'll gladly do it.
