One Million Concrete Blocks For One Farm!

This shows what farmers think of "Ideal" Concrete Blocks and Machines. On the magnificent estate of an Ohio millionaire, one million concrete blocks are being made for building sixteen residences, twelve barns, four 50 foot silos, power houses, chicken houses, etc. — and four miles of concrete fence.

"IDEAL" FACE DOWN CONCRETE BLOCK MACHINES

have displaced TWENTY MILLION BRICKS on this one job alone—because they make the blocks right on the spot—save freight and hauling—save time and hard work—and make more durable buildings that are absolutely fireproof.

An "Ideal" Machine will pay for itself on your farm—and you can make a profit out of it by turning out concrete blocks for the neighbors.

All out-doors invites your Kodak

Every day there are pictures right at home that are worth the taking—pictures of the family that will always be cherished, pictures of stock and crops and buildings that will always be of interest and value.

And when you are away from home there are pictures that are not only of interest, but of value, too: pictures that mean dollars and cents to you. Every progressive farmer to-day is a student of the methods of those who are making the biggest successes in agriculture. A Kodak makes the most effective note-book.

Our Catalogue explains how simple picture-taking is by the Kodak method and how inexpensive. It's free at the Kodak dealers, or by mail.
