

SELL THAT SPARE HORSE

He is simply eating his head off and is a bill of expense.

Nearly every farmer has an extra horse or two—a colt just ready to be broken in—a spare driver—or a working horse. Did you ever figure out what it costs to keep and feed such a horse, also the value of the time you spend attending to it?

If you would sell that horse and invest the proceeds in a Gilson "Goes Like Sixty" Gasoline Engine, which is as powerful as four or six horses, you would not only get a big profit on your money, but make your farm bring you bigger profits, at less labor and cost.

The Gilson "Goes Like Sixty" Engine will do as much work as four or five horses on your farm, yes—and a couple of hired men besides.

The Gilson Engine will grind your grain, fill your silo, pump your water, cut your feed, run your cream separator, and saw your wood—in fact do one hundred or more different jobs, and do them better than you or the hired man could do them.

It is always ready for work, never gives out, and can easily be moved from one place to another. It also relieves you of drudgery, leaving you free to do other work (or to play).

Once started to work the Gilson Engine requires no attention and when it is not working it does not take up a minute of your time, nor cost a cent.

Remember every Gilson Engine is absolutely guaranteed for one year against defective parts or workmanship. The Gilson Engine will last a lifetime.

A small payment will bring the Gilson Engine to your farm—balance can be paid on easy terms. Before you have completed your payments, the engine will have paid for itself four or five times over.

Let me tell you all about it—it will cost you nothing to know—**FILL IN THE FOLLOWING COUPON AND MAIL TO-DAY.**

Address me personally; E. Barelman, Manager, Gilson Mfg. Co., Limited, 2309 York Street, Guelph, Ontario

Please send me without any obligation on my part, your booklet and full information regarding Gilson Gasoline Engines and your special offer on a.....H.P. Engine.

Planet Jr.

No. 25 Planet Jr. Combined Hill and Drill Seeder, Double Wheel Hoe, Cultivator and Plow

A capital implement for large-scale gardening especially. It has a steel frame, and complete seeding and cultivating attachments. The hoes run close to row without danger to leaves or roots. Two acres a day can be worked with this tool.

No. 30 Planet Jr. Single Wheel Hoe, Cultivator, Plow, Rake and Marker

An invaluable tool in the market-garden, truck and strawberry patches. Has new steel wheel which prevents clogging. Its 12 chisel-shaped teeth cut out all weeds, stir and mellow the soil and leave the ground in the finest condition without throwing dirt on plants.

No. 10 Planet Jr. Horse Hoe, Cultivator, and Hiller

Does more and better work than any other horse-hoe ever invented. It is light and easily handled, yet unusually strong. Has new steel wheel which prevents clogging with trash. Quickly adjusted to rows up to 3 1/2 feet apart. Vine-turner attachment is great for many crops at last working.

STEEL TROUGHS AND COOKERS

Wooden troughs and utensils are unsanitary and likely to leak.

Our steel tanks and troughs, guaranteed for 10 years, are self-supporting and made of finest quality galvanized steel.

SQUARE STEEL WATER TROUGH (Fig. 1), will not rust or leak, and is strong, clean and sanitary. Freezing will not damage it. Thoroughly riveted, soldered and braced.

STEEL FEED COOKER (Fig. 2), sits right over the fire and is very easy on fuel. Made in same style as our Maple Evaporator. A necessity on every farm.

STABLE TROUGH (Fig. 3), insures running water for your winter stock. Simple construction. Nothing to get out of order. Sold in lengths easily bolted together.

STEEL HOG TROUGH (Fig. 4), soldered to prevent leakage. Heavy galvanized steel specially imported. Heavy and durable.

Above are a few of our well-known steel tank and trough specialties.

Prove the "BISSELL" by Its Work

Do the gangs on your Harrow crowd together and raise out of the ground? If it is hard? They won't do this on the "Bissell." The "Bissell" is so designed that THE GANGS CAN'T CROWD OR BUMP together, no matter how hard the ground is.

When you see a harrow with a "Bissell" it stays high, jumps to do its work and pulverizes the soil and the weeds.

Now you can take a "Bissell" out into the field and test it before you buy. It is the only harrow that you

will HAVE PROOF that it is a SUCCESS ON HARD LAND—THAT IT PULVERIZES THE BEST—and that it is the lightest draught.

Post yourself fully on Harrows before buying. We put our name on every Harrow so that you will know it is genuine. Ask your local dealer, or write to Dept. W for free Catalogue.
