HEAD DISORDERS.

A NY derangement of the great digestive organs, when there arising from over study, undue anxiety, or want of care in diet, is certain to produce sympathetic infits tion of the brain. This is generally shown by Vertigo Head Ache, dimness of sight, and other alarming indications. It too often happens that such symptoms are referred to disease of the brain, whereas the real seat of mischief is in the Stomach or liver. See these to rights and the brain will become clear. Now to effect this Gerdis's CAMOMILE PILL is the best known remedy: Stuce and Frank Direct Mens and Business Mens should keep these acts in mind.
