### FREE TRIAL UNTIL CURED

My offer to all who lack Strength and Vigor, who have Rheumatism, Lumbago, Sciatica, Lamé Back, etc., is:—Use my Invention until Cured, then pay me. I ask not one Penny in advance or on deposit.

A man in good, vigorous health is full of electricity. The eye and brain sparkle with it, and his nerves and muscles are strong and elastic as steel. He is successful in business or his occupation, and his wit and general good nature makes him sought after by all. Could electricity be seen he would appear as in the illustration—emanating "something" you instantly feel as you approach him. This "something" is simply his natural electricity. We call such men "magnetic." Are you one? If not, don't you want to become one? During 40 years practice in Electricity I have aided more than a hundred thousand to become so. Men have come to me broken down from overwork, worry, or abuse of nature's laws, having exhausted all medical and drug treatments and apparently past aid, suffering tortures from Nervousness, Exhaustion, Varicocele, Rheumatism, Lumbago, Sciatica, Lamé Back, Wrecked Stomach, etc., and even these I have helped to regain their health and strength—made them men like the above. I can do the same for any man who will use my invention, and who is not too far gone for help.

### I Cure you before you pay me One Penny

My treatment is very simple. I use Electricity as given by my famous Dr. Sanden Electric Herculex Body-Battery (latest patent, Mar. 7, 1905). Worn only during time you sleep, it fills your body full of the soothing, strengthening current, and in the morning you awake full of life and vigor, prepared to face the world however you find it. Two months' use generally cures the worst cases. Use the Herculex for that length of time, and if you are well, pay me. If not, return it—price when cured from \$5 up. Liberal discount if you pay cash for it.

As the originator and founder of the Electric Body-Battery system of treatment, my 40 years' success is the envy of many, and my Herculex is, of course, imitated (what good thing is not?), but my great knowledge to advise and direct my patients is mine alone and cannot be imitated. It is given free to all who use my invention until the cure is complete. My Herculex is guaranteed to give a current instantly felt, or I forfeit \$5,000, and to last for at least one year.

Call or send for My Electric Herculex to-day, or if you want to look into the matter further, I have two of the best little books ever written on electricity and its medical uses, which I send free, sealed, upon request.

#### ELEPHANT PULLS HER FRIEND'S TOOTH.

To the uninitiated it may have looked like a tug-of-war between two elephants, when each end of a taut rope was in the mouth of the elephants, but, in fact, it was a plan devised by Peter Barlow, the elephant trainer, to extract an aching molar from the lower jaw of one of his elephants.

Tom, the clever elephant that does a cake-walk, shaves an elephant, beats the snare drum and is leader of the elephant band at Luna Park, had been suffering from an aggravated form of ulcerated tooth for several days. In order to reduce the swelling and relieve the pain, Tom had been wearing, in off hours, a poultice on the side of his face weighing twenty-five pounds. The poultice did not suffice, and therefore the

only thing left to do was to pull the tooth.

But who could accomplish this, and where could a pair of forceps be obtained large enough for the operation, were the problems that puzzled the animal man. Barlow solved them by making one of the working elephants do the trick.

Tom sat on his haunches and opened his mouth, when Barlow used a drill to

bore a hole through the side of the offending tooth, which was in the lower jaw. After this a piece of piano wire was passed through the hole and tied in a loop; a stout piece of rope was tied to the wire, and the loose end given to Judy.

Judy took the rope between her teeth and at the word of command pulled with all her strength, and Tom leaned back to aid her, fully understanding what was being done. The tension was so great that Tom was pulled to a standing position, but the tooth came out, and he settled back with a sigh of relief.

Judy is one of the working elephants that were used in the construction of Luna Park. She has pulled with her teeth two tons with ease. Judy can lift a bale of hay and carry it as easily as a boy can lift an apple.—*New York World.*
