which doubly protects every vulnerable part of the body, providing, from neck to knees, a light, dry and healthful safeguard against wet or cold.

Another valuable feature of The Tielocken is the avoidance of buttons. Except for the adjustment of the upright collar, the coat is securely held by a belt.

The collar can be worn (1) open as sketch; (2) closed up like The Burberry; (3) stand with fall points; or (4) buttoned right up.

**SELF-VENTILATING "BURBERRYS"** give satisfying protection without need of heat-condensing linings.

Oiled-silk condenses heat as quickly as rubber—both are equally air-proof.

The body needs air as much as the lungs. To ignore this simple fact brings immediate discomfort and creates bodily fatigue.

Then the cumbersome weight of an oiled-silk interlined coat! Well, the less said about it the better!
