Paper Scarcity Affects Publication

SPECIAL NOTICE

Repeated increases in the price of paper and the difficulty of getting certain kinds, are affecting many publications, and this monthly among them. Our printers had difficulty in getting the cover stock for this issue.

Increased cost of production, involving printing rates as well as paper, make unavoidable a reduction in the size of this review. To give the best possible value, we have arranged to use a somewhat smaller sized type.

The unprecedented conditions make it imperative that we consider changing the subscription rate. We are reluctant to do so. Our action may depend on how **YOU** respond to the following request:

Will **YOU** please check the date beside your name **NOW**, and if you are in arrears, remit to us at the \$1.25 per year rate for the arrears, and the dollar a year rate for the coming year?

The **IN ADVANCE** rate will not be increased beyond **ONE DOLLAR A YEAR** if we can avoid it; but after November, 1916, the **IN ARREARS** rate will be \$2.00 per year.
