WORLD PEACE NOT YET HERE

Cannot Be Achieved For a Long Time to Come, Says Hertling. WARNS GERMANS Further Sacrifices on Part of Germany Essential to Victory. PEACE WITH RUSSIA Czernin's Peace Proposals Scoffed at by German Press

By Courier Leased Wire Copenhagen, Monday, March 18.—Germany should not indulge in delusions that world peace has been accomplished yet, Count von Hertling, the Imperial Chancellor, declared in concluding his speech in the Reichstag to-day on the peace treaty with Russia. He added: "There is not the slightest inclination yet perceptible among the Entente states to terminate this terrible war. We, however, shall not lose faith. We are prepared and everything is ready. Further heavy sacrifices may come, but I am confident in our just cause, our incomparable army, its heroic leaders and the steadfast nation. Responsibility for further bloodshed will rest on the heads of those desiring its continuance." Baron von Dem Bussch-Haddenhausen, under secretary for foreign affairs, explained that Germany had adopted a sharper and firmer method in the second phase of the Russian negotiations because it realized that Trotsky, the Bolshevik foreign minister, desired not peace, but to instigate Germany to rebellion and counted on a revolution in Germany and Austria-Hungary to help him veil the fact of Russian defeat. "Our negotiators," he under secretary said, gained the impression that the Russians expected far more severe terms after they had forced us to a fresh appeal to arms and their protest that they were forced to accept our terms without sufficient time for negotiations was a mere attempt to save their own face. Everything had been discussed fully in December and the only new demand after the ultimatum was that regarding Mars, Ardahan and Batoum. (The peace treaty provides that the Caucasus shall be ceded to Turkey.) NEW POLICY. Zurich, March 19.—Contrasting the vicissitudes of Field Marshal von Hindenburg and General von Ludendorff, with the speech made in the Reichstag late in February by Chancellor von Hertling, the Arbeiter Zeitung, the Socialist organ of Vienna, asks whether the latest Berlin conference led to the adoption of a new policy. The paper argues that neither France nor Great Britain will accept a weak peace and says the peace which Count Czernin, the Austro-Hungarian foreign secretary, promised and doubtlessly honestly desires, is now scoffed at everywhere as a weak peace offer. Nothing more, the paper adds, is heard of Count Czernin's offer to President Wilson to enter into negotiations. It continues: "Count Czernin has become quite dumb and modest, while the greatest decisions are being taken in Berlin, London and Paris."

By Courier Leased Wire Ottawa, Ont., March 20.—The cost of living commissioner of the minister of labor has issued his report for the month of January on the cost of bread produced in the larger cities of Canada. An examination covering twenty three cities and groups of cities shows thirteen cities with slight increases in cost of bread, six with decreases and four with the same figures as last month, while average for the Dominion is the slight increase of one-fiftieth of a cent per pound. Thus the cost of producing bread in January as compared with the previous month was practically stationary. The figures for Montreal are about the same, while Ottawa, shows one-seventh of a cent per pound increase. Toronto, representative of the western Ontario cities, one-tenth of a cent per pound increase, Winnipeg the same as December, Calgary a very slight increase, Vancouver and other British Columbia points show one third cent per pound lower cost. Referring to the flour cost, the board shows slight averages the same as December, ten with increases of from seven cents to 20 cents per barrel and five slight decreases. The (Continued on Page 6).

By Courier Leased Wire Moscow, Tuesday, March 19.—(By The Associated Press).—Russia's relations with the Entente are unchanged, M. Tchitcherin, the Bolshevik foreign minister, declared in an interview with the Associated Press correspondent to-day. More friendly relations were being established with the United States, he added, and he commented on President Wilson's message to Russia as showing that America would not take aggressive action against her. A Petrograd message received to-day states the report that on Monday night three of the people's commissioners, names not given, entrusted with the organization of the Red revolutionary navy, were mysteriously murdered. Other reports from Petrograd state that the Council of People's Commissioners has ordered the arrest of M. Bibenko, the commissioner of marine, for opposition to the ratification of the peace treaty (Petrograd despatches filed March 19 reported that M. Bibenko had been missing for several days).

MOSCOW IN PERIL. London, March 20.—Various reports from Russia also indicate the greatest anxiety over what appears to be an enveloping movement, the Austro-German forces are carrying out against Moscow. There is talk of moving the government, according to these advices, to Sarjof, on the Sarjof (probably 450 miles southeast of Moscow), or to Nizhni Novgorod, (265 miles northeast of Moscow). A Reuter despatch from Petrograd, dated March 19, reports the patriarch of the Russian church to have sent a message to the Orthodox population, declaring that the church cannot regard as binding a peace which its members, the country and places it under the domination of a conquering foreign power. In this connection the Communists is quoted as declaring that the Russian proletariat cannot make further concessions, but must be ready to rise at any moment, irrespective of its state of preparedness. OCCUPATION OF FORMER RUSS CAPITAL BY INVADERS IS ONLY MATTER OF HOURS

No Sign of Organized Resistance is Displayed in Petrograd as German Forces Advance Along Baltic Coast and Northeast from Pskov and Dvinsk—Enemy Control of Gulf of Finland Near Completion. The fall of Petrograd is imminent. German troops, probably advancing along the Baltic coast from Narva and northeast from Pskov and Dvinsk, are nearing the Russian metropolis, according to despatches received in London. The population is said to be awaiting the coming of the invaders passively and there are no indications that the Bolshevik authorities will attempt to oppose the Germans before giving up the city. Evacuation of Petrograd by the Bolshevik Government departments was ordered last week and all are now in Moscow, which the Lenine Government has declared the Russian capital. When an order to move to Moscow was given, it was said that Petrograd probably would be declared a free port.

FOE WILL CONTROL GULF. German possession of Petrograd would give the enemy complete control of the Gulf of Finland and all the important ports on its coasts, except in Finland yet in the hands of the Finnish rebels, who are being attacked by the Germans and Finnish Government forces. This would cut Moscow off from the Baltic Sea. On the south the Germans have been reported within 350 miles of Moscow and they virtually control the Black Sea.

Although they can advance in the East against disorganized Russia, the Germans have not yet displayed any intention to carry out their heralded offensive in the west. Except the most intense artillery bombardments on some sectors there has been no great activity on the lengthy western front, trench raids having decreased in number.

MATTER OF HOURS. London, March 20.—Occupation of Petrograd by the Germans is only a matter of hours, according to despatches from Petrograd to several of the morning newspapers. The Russian capital is said to be assuming a waiting attitude and is not displaying the slightest sign of organized resistance.

The Germans are reported in a Reuter despatch from Petrograd to have reached the vicinity of Dno station, about 150 miles south of Petrograd. The Austro-German advance in southern Russia continues. The enemy has occupied Soumy, five hours march from Kharkov, the despatch says.

U. S. SECRETARY FOR WAR HAD NARROW ESCAPE

Shell Burst Not Forty Yards in Front of Baker's Party. NO ONE WAS INJURED. French Raid Nipped Extensive German Attack in the Bud. WEST FRONT ACTIVITY. With the American Army in France, Tuesday, March 19.—(By The Associated Press).—While Secretary of War Baker and his party were returning to-day from the American front line trenches, a German 75 millimetre shell burst along the roadside within forty yards of the automobile. The occupants of the car were not injured. A large number of German trench mortars were demolished and many machine guns were brought back by the French. While the prisoners taken in the raid were going to the rear, the German artillery fired a large number of shells which claimed twelve victims among the captives. London, Tuesday, March 19.—German artillery is still very active in the Ypres sector, southeast of Armentieres, according to the official statement from the War Office to-night. The text reads: "A party of the enemy attempted to approach our lines this morning northeast of Armentieres, but was driven off with loss. The activity of the enemy artillery against both the forward and back areas in the Ypres sector continues. There was some hostile artillery activity also southwest of Cambrai, in the neighborhood of Vermeles and against a number of localities between the La Bassée Canal and Armentieres." Aerial Fighting. London, Tuesday, March 19.—In intense aerial fighting on the British front in France and Belgium, twenty-eight German airplanes were accounted for by British aviators, says the official statement on aviation operations to-night. Twelve British machines are reported missing. The statement reads: "Nine tons of bombs were dropped Monday on enemy rest billets and ammunition dumps near the Busigny railway station and two airbases, one of which was occupied by large bombing machines. Aerial fighting was exceedingly intense, encounters occurring between large formations. Twelve of our machines are missing. Six hundred bombs were dropped during the night on two airbases used by enemy night flying machines and on ammunition dumps and billets. All our machines returned."

SNOW AND RAIN ON ITALIAN FRONT

Weather Still Hampers Italian Operations in the Mountains. Headquarters of the Italian Army, Monday, March 18.—(By The Associated Press).—The snow along the mountain fronts has been reduced considerably by mild weather recently, but the amount remaining is sufficient to retard extensive operations. Military activity is confined chiefly to patrol actions and aerial encounters. The Piave front also is affected by spring freshets having made the stream too wide and deep for crossing by considerable bodies of troops. The head of the American military mission to Italy is making a tour of the mountain and Piave fronts, visiting each army corps and examining the organization and equipment of the troops. Exodus From Venice. Venice, Italy, March 20.—The exodus from Venice has been resumed in consequence of recent air raids. Outgoing trains are crowded and gondolas are busily transporting household goods to points outside the danger zone. Residential and business quarters present a deserted appearance. The palaces along the Grand Canal are closed from end to end, as much damage has been done in this section in the recent raids. The front of the palace in which Robert Browning lived and died has been scarred badly and all the stained glass windows have been shattered.
