We understand that it is the intention of the promoters of this railway to call a meeting of those having contracts, or who are in any way connected with the road, to try to come to some arrangement whereby the work may be pushed to completion as speedily as possible. We are not at liberty to state what the propositions are, but we believe that the arrangements will be such as will secure the early completion of the line.

**Next Week.**

Next week we propose devoting three or four columns of our first page to a description of Farmersville and especially to noting the improvements made in the village during the past season. We shall call on owners of all the new buildings erected or rebuilt during the season, sometime during the next few days, and hope that they will kindly assist us in this undertaking by being prepared with such information as to the size of the buildings or contractors names, etc., as will enable us to prepare a correct and interesting article. The following week we propose strolling around amongst our business centres and giving the public the benefit of our observations. We shall probably get out an extra edition of from 800 to 1,000 copies which will be pleased to sell to our business men and others for advertising purposes, at reasonable prices.

West's Cough Syrup, the most reliable remedy for all throat and lung diseases. For safety keep it always in the house. All druggists.

**Our Poultry Fair.**

On Saturday next our annual poultry fair will be held. All the leading buyers have signified their intention of being present, and as we have quite a number of local buyers here, who are purchasing on their own account, it is likely that there will be a keen and lively competition. The Farmersville poultry fair has become an event which is looked for with interest by hundreds of the surrounding country, and this year is expected to be a big day for the

farmers and poultry raisers, who often they will sell their poultry for ready cash, when they will be in a position to buy the commodities they require. Our merchants will be prepared, with all the newest and best goods in the market, to supply their wants. We believe that our merchants are in a position to give as good value for the money as can be obtained in any town in the country. From what we can learn there is a prospect of a large increase in the quantity brought here for sale, as poultry raisers are satisfied that they can do better here than at any other point. Prices are expected to be fully as high, if not higher, than last year. We hope all our readers living within reasonable distance of Farmersville will make a note of the date and be sure to come here with their poultry. We ask all those contemplating killing poultry for this market to carefully study the rules for dressing poultry found on hand bills put out by the buyers. Remember that poultry dressed according to instructions will bring from one to two cents per pound more than that which is poorly dressed, and slovenly taken care of.

We employ no travelling agents, but ask all our subscribers to assist us by getting their friends and neighbors to subscribe. Anyone sending us nine new subscribers will be given a copy for one year free.

**Scott Act Cases.**

W. C. Hayes was up before P. M. Deacon last week and fined \$50.00 and costs for violation of the Scott Act. Dr. Mosier was also fined \$50.00 and costs, or 30 days in jail. He offered some chattels in payment which were placed under execution and will be sold in a few days.

After our forms were made up last night we learned that the case against Fred Pierce, of the Ganbie House, had been dismissed. No particulars have reached us this a. m.

**Plain Hollow Cheese Factory.**

The patrons of this popular factory met at the residence of Mr. J. Knapp one evening last week, to receive a statement of the season's business. Between fifty and sixty patrons were present. Mr. Ambrose Derbyshire, the efficient sec-treas, read the financial statement for the year, from which we make the following extracts:

Total amount of milk received at the factory, 2,133,223 pounds.

Amount of cheese manufactured, 212,001 pounds.

Number of boxes, 3,163.

Amount of money received for cheese, \$19,090.35.

Price per pound, 9 cents.

Net price to patrons, 7 1/2 cents.

Pounds of milk to pound of cheese, 10.

A resolution receiving and adopting the report, as well as thanking the sec-treas, was carried unanimously. As a fitting sequel to the successful showing for the year, we understand that nearly every patron signed the milk contract for another year. Mr. Jos. Knapp, the popular proprietor, is to be congratulated upon the successful termination of the season's business, showing as it does that the patrons have every confidence in his ability to run the business of the factory to the mutual benefit and satisfaction of all the patrons.

The Reporter from next week January 1st, 1888, for only one dollar.

**CORRESPONDENCE.**

**Editor Reporter:** The public may wonder why the members of the W. C. T. U. have not gone to Brockville to day. We got legal advice on the question and found the subpoenas were not binding upon us as they were not legally issued. Then we received a letter from Mr. Pierce, saying he would withdraw them, and apologizing for having issued them. We will give full particulars next week.
