COBALT INVESTMENT

GRASP THE IMMEDIATE IMPORTANCE OF THIS, THEN ACT AT ONCE.

Of course, no one can blume you, if you have been thinking that INVESTMENT IN STOCKS of Cobalt mining properties, actually producing, is the whole or the only phase of the matter. You didn't know that there is a NEWER, SAFER AND BETTER PAYING plan. That's where we can put you right!

Look at it this way: Practically only parts of TWO townships of the vast mining lands in Cobalt and New Ontario have been explored for the remarkable results you hear of every day. And you know the stock markets are wild over the price of shares in the already discovered mines and prospects.

What is bound to happen, then—if an Incorporated Company of experienced mining engineers, developers and prospectors combine their money and methods for

Co-Operative and Systematic Prospecting, Developing and Investing in the AS YET unexamined and untested dis ricts of the same vast area, about and beyond?

Asn't it true that still RICHER properties lie undiscovered in the great mining lands? We invite YOU to come

METHOD OF WORKING.

The Company sends out parties of propectors under expert supervision and direction. Experience has shown that this is the best plan. With a co operative Company that has the money and outfit and the system specially organized for Prospecting, Developing and Investing, the best results are inevitable. Every shareholder is part of the organization—and all unite to one great end, with assured success and profit.

TO SHAREHOLDERS.

Besides systematic prospecting, the Company inspects property already discovered, procures options on them, un-dertakes to develop and market; works, sells, buys, holds or turns over claims, mines, stocks, as advisable-all for the shareholders of the Company. Everything will be done on the Shareholders' account. YOU thus join a co-operative institution run by business men and mining experts in what the records prove to be the safest, surest, and best paying enterprise in mining.

SHARES FOR SALE:

The Directors propose that not more than 300,000 shares of the par value of \$1.00 each shall be sold at 50 cents

are.
Shares are not further assessable, and there is no personal liability.
Co-operation is the key-note. Whether you buy many or few shares, you buy on an equal footing with the tors—RIGHT ON THE GROUND FLOOR. All unite to one end. And shareholders will be informed

regularly as to all progress.

A SAFE, HONEST, AGGRESSIVE enterprise that assures unusually large profits from mining.

Our Prospectus will satisfy and convince you. Write for it AT ONCE. Address:

Buck's "Leader" Furnace is built to give cheap heat, lots of it, and to last a lifetime.

Its firepot is in sections—it will never wear out. Its proportions of firepot and radiating surface are exact, every heat unit in the fuel being extracted and used. Its radiator is of solid steel and every joint in it is

absolutely air and gas-tight. It can burn wood as successfully as coal, the feed-door being very large.

It requires no expert to run it and will stand rough usage. Its massive construction and scientific principles make it the most durable, powerful and economical heater ever built. An absolute guarantee goes with every
