Dr. Grant's Lectures.

The lectures by Dr. Roland D. Grant, on Saturday and Monday evenings, in College Hall, were well attended and very interesting and instructive. The first was humorous and philosophical and his whole address replete with wit, as well as with sound moral advice to the young life assembled. The lecture on the Yellowstone park, on Monday evening, with over 150 colored views, was of great value, and Dr. Grant, who has crossed the continent forty-two times, visiting the park many times and making a study of all the conditions and beauties of this wonderful spot, presented his subject with delightful enthusiasm and his descriptions were words pictures of the beauty and grandeur of this extensive region, containing more than fifty active geysers, many of them throwing a powerful stream of hot water and steam 150 and 200 feet high. These lectures were given under the auspices of the Benevolent Society of the Baptist church, and the receipts go towards the building fund for the new church. History of Kings County.

The History of Kings County, by Dr. Arthur Westworth H. Eaton, is now on sale in Kentville and Wolfville. The book comprises over nine hundred large pages, and is a dignified and handsome volume. Over four hundred pages of it are devoted to the general history of the county, in the French period and to the present time. In these pages are discussed the coming of New England planters to Horton and Corwallis, and the varied life of the New England people and their descendants ever since. In the chapters on Aylesford and Parraborough much will be found concerning the Loyalist families who settled in these townships. The industries of Kings county, its architecture, its progress in education and religion, the establishment of Acadia College, the personalities of its clergymen, all these are considered in the work. What will be to many people the most important part of the volume, however, are the brief biographies of deceased persons and the large number of family sketches the book contains. Appended to these sketches, which aim to give notice of all the important families of the county, considerable mention will be found of many living persons of note. Advance subscribers to the book have been taken at five dollars and thirty-two cents (expressage) and for thirty days the sale will be continued at this price, but owing to the large increase in size of the book over the original estimate, after this date the price will be increased. For sale at the bookstores of C. C. Morton, Kentville, and J. F. Herbin, Wolfville.

The Best Medicine For Little Ones.

The best medicine in the world for little ones is the medicine that will promptly cure all their little ills and at the same time can be given to the very youngest baby with absolute safety. Such a medicine is Baby's Own Tablets. They never fail to cure the ills of childhood and the mother has the guarantee of a government analyst that they do not contain one particle of injurious drug. Concerning them Mrs. John Robertson, Streetsville, Ont., writes: 'I have used Baby's Own Tablets for constipation with the very best results. They are indeed a valuable medicine for little ones.' The Tablets are sold by all medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Heed This.

The London Lancet recently called attention to the large number of nervous break-downs among telephone operators, and draws the conclusion that the work must be trying beyond what the public usually realizes. The writer urges that the life of the operator be made as easy as possible by the public learning to be less severe upon mistakes. Over every telephone, especially those belonging to any irascible individual, should be the motto, "Don't scold the telephone girl." Those cross, jerky, abrupt, inconsiderate telephone subscribers who treat the young lady operators, either by commanding voice or in cross, snarly tones, as if they were their menials or inferiors, should read the above from the London Lancet and try and improve their manners so as to make them fit to talk to these ever-obliging, hard-worked telephone girls.—Truro Daily News. In the Watchman of October 20th is the following paragraph respecting Rev. W. J. Rutledge, the energetic pastor of the Berwick Baptist church: Rev. W. J. Rutledge, who graduated from the Newton Theological Institution in 1909, and was called to the Berwick church, N. S., is meeting with spiritual success. In his first year's ministry fifty united with the church, the larger number by baptism. Mr. Rutledge is a strong evangelistic preacher, and is drawing large congregations. Mrs. Rutledge is doing a splendid work as president of the Ladies' Aid Society and teacher of a large young women's Bible class. Extensive repairs were made on the meeting house last fall at a cost of two thousand dollars, which was very readily met by the large-heartedness of the people, and besides this and the running expenses of the church one thousand dollars was raised for missions. The pastor and his wife are much beloved by the church and community. At a meeting of the board of regents at Mount Allison University on November 3rd, a telegram was read from Dr. W. W. Andrews, dean of the science faculty, who is now in Regina, announcing his resignation, to accept the presidency of Saskatchewan College, Regina. The board appointed a committee to choose a successor to Dr. David Allison, president of the university, who wishes to retire on account of advancing years. The first Parliament of the Union of South Africa was formally opened on Nov. 4th by the Duke of Connaught, acting as the special envoy of King George. The opening of the Parliament was made a gala event at Cape Town. The elections in the United States on Tuesday last seem to have resulted largely in favor of the Democratic candidates. This party seems likely to control the next House of Representatives at Washington. The election of members of County Councils throughout Nova Scotia take place on Tuesday next.

Eczema's Tortures

All treatments failed for three long years. I have been afflicted with DR. CHASE'S OINTMENT. Mrs. Lank, 18 Walker St., Halifax, N. S., writes: "After three years of miserable and sleepless nights with terrible eczema, and after trying over a dozen remedies without obtaining anything but slight temporary relief, I have been perfectly and entirely cured by Dr. Chase's Ointment. After the third or fourth application of this grand ointment I obtained relief, and a few days were sufficient to make a thorough cure. It is six months since I was free of this wretched skin disease, and as there has been no return of the trouble I consider the cure a permanent one." Each cure is not brought about by imitation and substitutes for Dr. Chase's Ointment. It is therefore necessary for you to be certain that the portrait and signature of A. W. Chase, M. D., the famous Receipt Book author, are on the box you buy. 60 cts. a box, at all dealers or Edmansson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipes.
