## MUST ATTEND TO BUSINESS.

Mayor Stewart Has a Remedy for Gabby Aldermen.

Council Will Likely Defeat Ward System By-law.

Hydro Electric Engineers Make More Promises About Power.

Mayor Stewart frankly admitted to day that the City Council meeting last night was "the limit." It was the first time in the city's history that the Council has not been able to finish ordinary business in one night. The Mayor in tends hereafter to see that the gabby aldermen talk strictly to the questio under discussion and not waste valuable time regaling each other with ancient history and playing to the gallery. He will probably have a little heart to heart talk with his colleagues on that subject to-night before the Council gets down to business. As it was after 11 o'clock when the motion to adjourn was made last night it was necessary to call a special meeting to-night.

It looks almost certain that the by-law or a vote on a return to the ward system will have to stand over until Jan-uary, notwithstanding the wishes of the people. It will be a tie vote on Ald Lees amendment, to wait until the mun-tical slections, which were not its will Lee's amendment, to wait until the municipal elections, which means that it will be defeated. It requires a majority however to sanction the by-law being submitted now and this will be impossible. Here is how the division is figured: For submitting it now, (11), Anderson, Dickson, Bailey, Evans, Gardiner, Lewis, Kirkpatrick, Nicholson, Clark, H. G. Wrigat, Mayor Stewart. Against (11), Sweeney, Ailen, Peebles, Farrar, Peregrine, McLaren, Lees, Kennedy, A. J. Wright, Jutten, Baird.

The Mayor says if the proposal to submit the by-law is defeated the question of submitting the by-law for pumps at once will probably re re-considered.

Chief Engineer Sothman, of the Hydro-Chief Engineer Sothman, of the Hydro-Electric Power Commission, and an as-sistant, were in the city this morning, and had a conference with the City Solicitor and Secretary Brennan about the Hamilton figures. Mayor Stewart also had a talk with the engineers, and he said they assured him that the Com-mission would be in a position to deliver power to Hamilton three months before the electric pumps at the Beach were in-stalled. Hon. Adam Beck and one of the engineers are expected here shortly to go into the figures again with the aldermen.

City Engineer Barrow said this morning that about half of the southern filtering basin had been cleaned out. The weeds in this basin, he says, have always been worse than in the other one. Should the water supply from the north basin be found inadequate with the other one closed, Mr. Barrow says he will cover the mouth of the conduit with canvas and open it again. It is expected it will take another week to clean out the south basin, a week to scoop out the middle road, and three weeks to do the other basin. It costs over \$100 a week to do the work. A sand bar and a to do the work. A sand bar and a knoll in the north basin near the conduit will be scooped out.

The Board of Health at a special meeting last night decided that the case of smallpox discovered at 83 Merrick street should be quarantined in the house. The buildings formerly used in the wset end for isolation purposes are hardly habitable, and since last occupied all the utensils have disappeared. Dr. Woodhall was appointed to care for the cases, and the house will be guarded day and night by special officers. The Board decided to bear all the expense. A couple who rebear all the expense. A couple who reeided at the house before the case was
diagnosed, and later went to 76 Birch
avenue, are now under quarantine at tha
address. Dr. Roberts says he is sax'sfied beyond a doubt that the disease
was contracted in Toronto. Dr. Sheard,
Medical Health Officer there is incited. Medical Health Officer there, is inclin

As announced yesterday the Dominion Railway Commission will adjust the squabble between the Street Railway and Grand Trunk over the switch at Barton and Ferguson avenue. Superintendent Gillen, of the G. T. R., had another talk with the Cataract officials, but without result. It appears that the G. T. R. got the order from the board to go ahead with the work on September 3, while the injunction was issued two days later. Mr. Gillen believes the order overrides the injunctions when the state of the second control of the seco lieves the order overrides the injunc-tion, and if his solicitor is of the same opinion the work will be gone on with. The Street Railway Company is said to be after the board to recall the order.

Ald. Farrar's sudden right about fac Ald. Farrar's sudden right about face on the Southam Home question last night caused some talk to-day. He was one of the most strenuous objectors to it going on the hospital grounds. "Put these patients down there if you want to hustle them off to another climate quick," he said after seconding Ald. Anderson's amendment to refer it back. A minute later he withdrew his name from the amendment and voted against it.

The Cataract Power Company is mak The Cataract Power Company is making every provision for a complete invasion in Brantford. The power will come here simultaneously with the radial line from Hamilton, which will be completed in the course of six weeks, says a Brantford despatch. The company will be able to meet all competitors. All of the local distribution will take place through the Western Counties Power Company, now operating there and gener. through the Western Counties Power Company, now operating there and generating power by the aid of the canal.

When R. L. Atkins, the electrical en When R. L. Atkins, the electrical expert, made his report on electrolysis for the city. City Engineer Barrow sent General Manager Hawkins, of the Cataract Company, a letter about the Street Railway bonding. Mr. Hawkins has replied that the company will certainly look after all bonds that are defective.

Springer & Co. were granted a permit to-day for two frame houses on Chest nut avenue between Barton and Cannon streets, to cost \$1,675.

Hardupp—"Hello, Wigwag, I suppose you can't lend me \$10, can you?" Wigwag—"Harduppe, you are one of the most accurate supposers I know." Sillicus—Blessings usually come in disguise. Cynicus—Yes; and the disguise

## TEA TABLE GOSSIP

—A cape that was picked up in the cemetery on Sunday was left at the of-fice there, where its owner may secure it.

—There is no John Badeau living at 75 Robert street, the address given by a man of that name who was fined for being drunk and disorderly a few days

ago.

—Chisholm & Logie, acting for James
Dillon, has issued a writ against Ellen
Cahill and Edward J. Dillon, executors
of the estate of Patrick Dillon, to set
aside certain deeds of property, as being

——Manager Driscoll, of Bennett's thea-tre, has offered a prize of \$25 for the best cirticism of Carroll Johnson's act at the theatre this week. The contest is open to the public. All criticisms should be sent to Mr. Driscoll at the theatre. theatre.

Toronto Socialists have challenged Rev. Dr. Hazlewood to debate the attitude of the church towards capital and labor. The challenge grew out of a newspaper report which credited Rev. Dr. Hazlewood with having criticized street-corner speakers who charged the organized church with being on the side of the ruling class and against the working class.

—Probs made a mistake this morning; said fair and warm; you will make no mistake if you secure your hats, underwear, ties, gloves, etc., at waugh's, post office opposite; special values in white shirts. They bought out the stock of one of the leading manufacturers, one dollar and one twenty-five.

—The incorporators of the National Oxide Paint and Color Company, of this city, are George and Alfred Stroud, Geo. F. Webb, Mrs. Helena Amelia O'Sullivan and Thomas J. O'Sullivan, all of Hamilton. The company is authorized to manufacture and sell paint pigments, paint colors, oils, paints, varnishes and japans. The share capital is \$50,000, in \$100

## LATE SPORTING NEWS

Miss Gertrude Burke, of Kingston, who has been visiting Mrs. T. M. Pourer, returned home this morning.

returned home this morning.

There was a meeting of the Hamilton Y. M. G. A. football club last night to elect officers, select grounds, etc., and other important business, so that the team could get into chape for the Junior O. R. F. U. season. The following officers were elected:

Hon. President—R. T. Steele.

Hon. Vice-President—Paul J. Myler.

President—B. O. Hooper.

Vice-President—T. F. Best.

Treasurer—Mert Neil.

Secretary—Ralph Bowron.

Manager—Guy Long.

Coach—Wallie Barron.

Trainer—Jack Foley.

The Executive Committee is: McKay.

Burton, Smith, Sinclair, Hedley and Harper.

per. It was decided that they send team to

per.
It was decided that they send team to ploy an exhibition game at Waterdown next Saturday. Arrangements will be made at Thursday's night practice.
All last year's players and anybody who would like to get into the game this year are requested to be at the Y. M. C. A. as soon after 6 o'clock as possible. Thursday night. A team will then be picked to go to Waterdown. A good work out is expected and it is hoped that there will be enough turn out that they will be able to have two teams line up. After the practice there will be a chalk talk by Wallie Barron, which will be interesting as the game they are going to play this year is different to other years. Arrangements are being made if possible, to have Galt players have an exhibition game here a week from this Saturday. All the players will have to get into good shape as Galt has a strong team this year and they would like to go through the season without a defeat.

## STRUCK A LORRY.

## Horse Balked on the Track, But Driver Escaped.

A bad accident took place at noon to day, when a G. T. R. freight train ran into and demolished a single horse lorry belonging to Hendrie & Co., at the Lottridge street crossing of the main line, near the Petrie works. The driver saw near the Petrie works. The driver saw a freight train approaching while he was crossing the tracks, and the horse became balky when he attempted to hurry it over.

The engine struck the rig, killed the horse and smashed the wagon to fragments.

The driver jumped and so escaped injury. The engine kept the tracks and the train was not delayed long.

## WILL BE BROUGHT HOME.

Oswald Gordon, son of W. J. F. Gordon, of this city, who has been purser on the steamer Rosedale, fell into the hold of the boat at Port Arthur a week ago and sustained severe injuries about the head. He is in the hospital at Fort William now, but will be brought home in a few days, as his injuries are not dangerous.

Or see anybody better dressed than we'll do it for you. We'll fit any man who comes. You're on the right track. You dan pay profitably \$25 for a suit of clothes this fall. You ought to pay \$15. People judge you first by your clothes. If you're in one of our suits you look like success. That's a big step towards it. Fall styles now ready.—Frailek & Co., 13 and 15 James street north.

"Why is a Hen?"

There is an old and foolish conundrum, "Why is a hen?" and to this there is no logically satisfactory answer. This conundrum might, however, have been asked recently to some purpose in a London courtroom.

A hen flew into a bicycle. It upset the rider, and smashed the machine. Was the owner of the hen liable for damages? One lawyer contended that he was, for the hen was trespassing on the bidden was trespassing on the bidden.

The Army Worm.

FORESACTS.-Fresh to strong easterly winds; rain. Wednesday, fresh to strong winds, mostly westerly; partly

The following is issued by the Department of Marine and Fisheries:

Temperature. 8 a. m. Min. Weather. Cloudy Cloudy

A depression, which quickly former during the night in the Mississippi valley, promises to cause rain from Ontario to the Maritime Provinces. In the western promises to cause rain from Oncarding Promises to cause rain 1000 Oncarding the Maritime Provinces. In the western provinces pressure changes have also been extremely rapid, and a high pressure, which is now spreading into Alberta from the northward, is likely to be attended by frost in many localities. Local rains and thunder storms occurred during the night in Alberta and Saskatchewan. Western New York: Light variable winds; showers to-night and probably Wednesday. Washington, Sept. 10.—Lakes Erie and Ontario: Fresh, variable winds to-night, becoming west Wednesday, rain. Western New York: Showers to-night and probably Wednesday. Eastern States and Northern New York: Rain to-night and probably Wednesday; light to fresh east winds.

### Indian as a Friend.

Indian as a Friend.

"The popular saying that the only good Indian is a dead Indian is a great injustice," said W. W. Philips, of Seattle, Wash. Mr. Philips is one of seven men appointed by the State of Washington to compile a history of the American Indian. For the last two years he has been living in close association with the red man in different parts of the west. He has lived with them in their tepees, and taken part in their war dances, their peace celebrations and other festivities, in order that he might study their customs, their thought, their religion and the like.

"We frequently hear the Indian spoken of as being sullen," continued Mr.

"We frequently hear the Indian spoken of as being sullen," continued Mr. Philips. "Never was there a greater error. Once you know an Indian and gain his confidence there is no more deslightful companion on earth, and there is not a more loyal or more considerate friend. If he is prejudiced against the whites, and it is natural to presume that he is, he has his reasons, and those reasons are good ones.

sons are good ones.
"The Indian is essentially romantic.
He was born in the forest, and his home
is there. He sees and knows nature better than the white man. Pope knew the
Indian when he wrote: "Lo, the poor
Indian, whose untutored mind sees God
in clouds and hears Him in the wind." Indian, whose untutored mind sees God in clouds and hears Him in the wind.' We cannot understand him because we do not know him, but he is genuine, he is good. He has lofty ideals, and he lives up to them. I have participated in their war dances and their religious meetings. I have been to their wedding festivals and I have smoked with them in their tepees; and I cannot say with too much emphasis that wherever I succeeded in making a friend of an Indian I found him a loyal friend."—From the Washington Post.

Strength of Ccocodile's Jaws. Sir Samuel Baker in his book on wild beasts says that the power of the jaws of the crocodile is terrific.

of the crocodile is terrific.

Once he had the metal of a large hook the thickness of ordinary telegraph wire completely bent together, the barbed point being pressed tightly against the shank and rendered useless. This compression was caused by the snap of the crocodile's jaws when seizing a live duck which he had used as bait, the hook being fastened beneath the wing. On another occasion he found a fish weighing seventy pounds bitten

wing. On another occasion he found a graph of right weighing seventy pounds bitten clean through as if divided by a knife. This again was the work of the snapping jaws of a crocodile. A Frenchman, Paul Bert, once made experiments on the strength of a crocodile's jaws by means of a dynamometer. He found that a crocodile weighing 120 pounds exerted a force of 308 pounds in closing his jaws. The lion has an enorement of the me in a danger once pushed the buttend of his gun into a llop's mouth and the pressure of the me in a danger.

ed recently to some purpose in a London courtroom.

A hen flew into a bicycle. It upset the rider and smashed the machine. Was the owner of the hen liable for damages? One lawyer contended that he was, for the hen was trespassing on the highway. The other lawyer said: "No," for there was no proof that the hen might have been expected to act in a violent and destructive manner. The judge agreed to tiais, and gave judgment for the defendant.

But should not a bicyclist feel reasonably secure on a highway from unprovoked assaults of domestic fowls. A wild fowl is capable, like Habbakuk, of anything. Suppose a cock should peck a

The Army Worm.

He's a notable pest.

He ruins the crops.

In 1743 he appeared by millions.
That was in struggling New England.
Dr. Bouton, of Vermont, saw ten bushels in a heap.

The last very serious onslaught was made in 1896.

He feeds on the succulent stalks of wheat, corn, oats and the like.

Fortunately he has a host of natural enemles.

"No," for there was no proof that the hen might have been expected to act in a violent and destructive manner. The judge agreed to this, and gave judgment for the defendant.

But should not a bicyclist feel reasonably secure on a highway from unprovoked assaults of domestic fowls. A wild fowl is capable, like Habbakuk, of anything. Suppose a cock should peek a hole in the tire of a standing devil wag-on?—From the Boston Herald.

Portunately he has a host or natural enemies.

His mamma is a light brown moth, who lays her eggs in meadow grasses.

In his six weeks from egg to mothfly he does his great damage to the precious crops.

He's a juicy morsel for the meadow lark, the bobolink, the blackbird, robin redbreast and many others. The black beetle also devours him wholesale,

Notices of Births, Marriages and Deaths which are inserted in the Daily Times also appear in the Semi-Weekly Times. 50c. first insertion; 25c. for each subsequent insertion.

Novel Effect in Landscape Gardening. "I shall introduce this year," said a landscape gardener, "two novelties on the grounds of a Newport millionaire-a floral clock and a revolving flower bed.

a floral clock and a revolving flower bed.

"The clock is to be a circle twenty feet in diameter. The face will be of grass. The hands will be of white carnations. The numbers will be red roses, pansies, heliotrope and so on. This clock will work electrically, and, of course, the mechanism will be concealed. Will it keep good time? Oh, the best, I made an experimenta? one fast week that only varies eighteen seconds a day.

"The revolving beds will be a feature of a sunken garden. There will be four of them, each 12 feet square, and they will revolve electrically at a revolution a minute.

"These novelties will be the first motion pieces ever introduced into American landscape gardening."—Philadelphia Bulletia.
