SIR JOHN THOMPSON'S DEATH.

The last enemy has claimed the brilliant Sir John Thompson, Prime Minister Conservatives unite in tribute to the memory of the dead statesman.

sudden, awfully tragic demise is told in the cable despatches published elsewhere. The announcement came as a terrible shock to the people of Canada. It was not generally known that Sir John suffered from any malady. He was a strong robust looking man in the prime of life, and looked good for another twenty-five years. But death respects not youth or old age, and its shafts are hurled in the least expected directions. That the Premier should be cut down when he had reached the very zenith of position and honor is especially sad to his family and friends. Fresh from the presence of his Sovereign whose own hands had bestowed on the distinguished Canadian the highest honor he could have coveted, Sir John was called into the presence of the King of Kings with scarcely a moments' warning. How inscrutable are things well.

Sir John Thompson's career was a remarkable one in many respects. He started at the foot of the ladder and at the age of fitty had reached a height secured by only one other Canadian. There are few instances in history of such a rapid rise to public prominence and honor; certainly there are none in Canada. When the late Premier passed out of his school life at Halifax, he was glad to earn a dollar by newspaper reporting. He had mastered short hand, studied law, and been admitted to the Nova Scotia bar at twenty-one, and his earlier experience as a lawyer, was like that of all other dependent young men in the profession. He reinforced his slender purse by reporting in the legislature, but Foster leader in the House of Commons, soon clients commenced to fill his office Canada will have the weakest adminisand at thirty years of age he was one of tration since confederation. the leaders of the bar, a profound lawyer, not a popular nisi prius pleader, but one whose knowledge, worth and ability commanded the admiration and respect of his seniors, and gave him a reputation second to none in his native province.

In the meantime the future Premier commenced to dabble in politics. He and Mr. Davies had made throughout was elected an alderman, and afterwards sat on the Halifax school board, in both positions exhibiting good judgment and business qualities. In 1877 he was elected to the House of Assembly; in 1878 he became Attorney General, and in 1882 Hon. Messrs. Mitchell, Tweedie, Emmerson Premier of Nova Scotia. But his stay in the local political field was short, and he | vents a further reference to the matter went down with his government in the to-day. general election of 1882. A few months later he was called to the Supreme Court bench of Nova Scotia, a position he adorned until 1885. The best enconium passed on him in that capacity is from the pen of Judge Wetherbee, an old political opponent who was a fellow member of the bench with the late Premier. In 1885 Sir Alex. Campbell, Minister of Justice in the Dominion Government, growing old, retired, Sir John Macdonald looked about for a successor, and he selected Judge Thompson, who came down from the bench, was elected in Antigonish and took his seat in parliament as the Attorney General of Canada. The new minister then only fortyone, was comparatively unknown outside his own province, but his opportunity soon came. The government had the troublesome Riel question on their hands, the defence of themselves for the misgovernment which led to the North West rebellion. They put up Mr. Thompson to present the main points of their defence, and from the government standpoint at least he did his duty well. Supporter and opponent alike, however, admitted the great ability and eloquence displayed by the new Minister of Justice, his poli tical reputation went up with a bound, and from that moment he was a power in parliament. When Sir John Macdonald died in June, 1891, Mr. Thompson, now Sir John, was regarded as the natural successor to the premiership, but there was such a vigorous opposition from the Ontario supporters of the government that the difficulty was bridged over by the selection of Sir John Abbott. But Sir John Thompson led the government in the Commons, and was the real premier, if not in name. In another year Abbott retired and Sir John succeeded him, hold. the river counties as an enterprising and ing the position down to the day of his successful carriage manufacturer. Sir John announced his intention of clearing out the filth which had accumulated during the long stretch of Conservative authority, and in a measure - a small measure it must be confessed, he succeeded. He was brought up a strict Methodist: his father was a devout man, a Methodist seven, a year after he had married a Roman Catholic lady, the future Premier enounced Protestantism and joined the Catholic church. A man's religion is a sacred thing, not to be cept to point to the betterment of private and public morals, and if Sir John felt

that he did right in changing his faith it was his own business and his alone. "I of Canada, and a nation mourns. himself and family. 'Never mind, said he,' 'stenography and I can scratch a living for them, even though it be a poor one,' and he took the step. Years afterwards, Mr. Thompson speaking to me of his experiences during the critical period of his life said, 'you don't know bow much I love my Methodist friends. Do you know not one of them left me."

In summing up Sir John Thompson's career, even though looking through different political glasses from his, we must conclude that in all fields of action. whether at the bar, on the bench, in parliament, in the delicate field of diplomacy, and on the forum in public debate, the late Premier stood in the lead of eminent Canadians. DEATH OF GEO. R. COOPER. A Popular Young Man Suddenly Called

The city mourns the loss of a sterling and popular young man in the death of G. R. Cooper, who died at his home on King street, Tuesday evening, after an illness of only twelve days. He was first attacked with typhoid fever, pneumonia and other complications followed, and the best medical skill failed to save his life. The deceased was a son of Wm. Cooper, and was well and fovorably known all through unmarried and thirty-four years of age. Mr. Cooper was a clever business man, a genial companion and a warm frend.
