## Championship Sports.

WEDNESDAY'S MEET.

On Saturday night was held a meeting of Wednesday's Championship Sports event, which are being conducted under the auspices of the A.A.A. Up to the present there are 50 entrants for the various events, which shows how keenly contested the programme will be, and how anxious our athletes are to have the coveted honour of securing championship honours for 1921 and the splendid medals which have been donated by lovers of good clean sport.

It was the consensus of opinion that instead of sending Bell only to Halifax to compete in the road race, that the short distance winner, the half miler, and the winner of the mile composing a Newfoundland team should be sent as well, provided, of course, that sufficient funds are secured. It is confidently assumed that Skirving can cop the Halifax title. At the North British Society's Highland Games there last week it took them 4.58 to do the mile, and on a cinder track too, whereas the local youngster did it four seconds better on turf. Their 100 Yards' Time was 10 2-5 seconds, while Tommy Butler and Callahan can do quite easily on St. George's. The former is out to beat George Knight's record in the quarter mile on Wednesday. Given the beautiful cinder path of the Wanderers' Grounds at Halifax, it is felt that such records can be shattered if we are doing as well and in some events better running on springy turf. It is estimated that \$1000.00 will bring a team of four or five men for the week of October first, and it would be one of the best advertisements for Newfoundland if our boys could bring home the bacon. How about it, general public?

ADDITIONAL ENTRIES FOR THE A.A.A. SPORTS.

Duke Winter, Hurdles, 220 yards; Eric Jerrett, Hurdles, 100 yards; H. M. Moore, 220 yards, Walking match; Andrew Clouston, 220 yards and quarter mile; Tom Manning, Ball Throw; J. Cricket Ball Throw—The correct distance for this throw is 344ft. 6 in., not 343ft. 10in. as already published. A local record.

1 Mile Walk—James Steel holds the record for this distance, having covered the course in 8 minutes at the Highland Games in 1913.

In order that the contestants will have no complaint about starting, the Committee in charge of the A.A.A. Sports have asked C. O'N. Conroy, Esq., who is the last word as a starter, to once more act in this position and he has kindly consented to do so.

Record Not Broken.

Editor Evening Telegram.

Dear Sir—I beg leave to make a correction in the published list of the records held by local athletes as published in Telegram a few days ago, when your correspondent credited the local record for throwing the Cricket Ball to Mr. Jack Canning.

The holder of this record is Mr. Michael Finn, who at the B.I.S. sports in 1906 threw the ball 38ft. Mr. A. Doyle was second, and other contestants were Ken Truochard, R. T. McGrath, Bert and Waring Hayward. Mr. Finn's record has not been equalled in Newfoundland, and in justice to him, in view of his intention to compete in Wednesday's sports, I ask you to make this correction to-day.

Yours truly, W. J. O'N.

Their Majesties the King and Queen are spending a portion of the shooting season at Bolton Abbey, Yorkshire.

In all probability the Prince of Wales will be present at the handing over of the airship R-36 to the American Government in a few weeks' time. The airship is now undergoing her trials. A few defects were discovered, which are being adjusted.

The Prime Minister and Mrs. Lloyd George will attend the wedding of Sir William Sutherland, M.P., and Miss

Miss Marie Tempest is a widow by the death, at the age of 52, of Mr. Cosmo Charles Gordon-Lennox, one of the best-bred Englishmen who ever took seriously to acting. His paternal family owed its beginning to Charles II. He was a grandson of the fifth Duke of Richmond, while his mother belonged to the ancient Lancashire family of Towneley, of Towneley.

Citizens of Strasbourg are to erect a monument to the memory of Clovis, the famous cook who invented the delicious pate de foie gras with perigord

truffles therein. Pate de foie gras mostly comes from Strasbourg, where an important industry has been built up. Before the war Strasbourg annually exported more than 20,000,000 francs worth of pate de foie gras.

The Royal Yacht Squadron, which is the ruling power at Cowes Regatta, dates its origin back to the year of Waterloo, when the Yacht Club (as it was known) was instituted. The Marquis of Anglesey, who, as Lord Uxbridge, lost a leg at Waterloo, was one of its original members.

The suggestion that the King wrote his speech at the opening of the Belfast Parliament is obviously inaccurate.

The King, being a constitutional monarch, never prepares his own speeches, except perhaps for trivial social occasions. In accordance with immemorial custom, His Majesty's public utterances are drafted by his Ministers. It is an open secret that this particular speech was drafted in the first instance by Mr. A. J. Balfour on behalf of the Cabinet. The draft was subsequently revised by Mr. Lloyd George and other Ministers. Finally the speech was prepared for delivery by Sir Edward Grogan, one of the Prime Minister's secretaries, who does much of the drafting for the Cabinet.
