MONCTON, N.B., Jan. 13. for McDermott not seeing the extra freight standing on the main line as he approached Belle Dune Station, and crashed into it. A number of horses were killed when their car in which they were being carried, toppled over.

George Walsh at the Nickel Thursday

IN GREAT PRODUCTION "SLAVE OF DESIRE."
A great literary classic, from the pen of Honore de Balzac, will be seen at the Nickel Theatre on Thursday. It is "Slave of Desire," from Balzac's "The Magic Skin," a compelling, dramatic novel inculcating the theme that one pays for what one obtains.

The picture was produced by Gilbert E. Gable and is presented by Goldwyn-Cosmopolitan. Like other Goldwyn attractions shown here recently, "Slave of Desire" has a fine cast. George Walsh, one of the most popular leading men in the movies, plays the part of Raphael Valentin, young Parisian poet and dreamer about whom the story centers.

The appealing Bessie Love has one of the best emotional roles of her career as Pauline, his sweetheart, while Carmel Myers, as the alluring Countess Pedora, has all the men of Paris literally at her feet. Some other players in the film are Wally Van, William Orlamond, Nicholas de Ruiz, Eulalie Jensen, Edward Connelly, and William von Hardenburg. "Slave of Desire," was directed by George D. Baker and was the one hundredth picture which he has made.

A Chewing Gum Episode

An amusing story is told by Mr. Samuel Goldwyn concerning an incident that occurred in the course of the production of the film play, Joan the Woman.

A scene was being filmed representing the French court in the reign of Charles VII. It had been "shot," according to custom, four times.

None of these occasions revealed anything wrong, and it was only when the producer saw the "rushes"—the technical term describing a first view of the previous day's shots—that he suddenly exclaimed:

"For Heaven's sake, look at that! The ladies of the fourteenth century are chewing gum."

Everybody whooped with merriment over this historical discrepancy. Everybody, that is, save the producer, who had used up a thousand feet of film, and paid out some hundreds of dollars in wages for a scene which, of course, had to be entirely re-made.

Fire at the Casino last night, four persons burned. It must be seen to be believed. Your chance of doing so will be to-morrow, Thursday, at 8.15, p.m.—Jan.14.11

PARIS, Jan. 13. The hearing of Vicente Ibanez on the charge of defaming King Alfonso of Spain through the publication of the Spanish author's recent pamphlet was postponed for a few days when the case came up in court here this morning. The postponement was at the request of the writer's Attorney, Marius Montet, the Socialist Deputy who was one of ex-Premier Caillaux's battery of lawyers during Caillaux's trial by the High Court. Deputy Montet told the investigating Magistrate that Ibanez was slightly ill and could not come to Paris from Mentone for four or five days, but would appear as soon as he was able to travel.

QUEBEC WILL DISPUTE ANY EXPORT OF HYDRO ELECTRIC POWER.
QUEBEC, Jan. 13. That the Province of Quebec will fight to the limit any effort on the part of the Federal Government to export Hydro Electric Power, and that any contracts entered into at this end will be made at the risk of the contracting parties, was the emphatic pronouncement this evening of Premier the Hon. L. A. Taschereau in the Quebec Legislature Assembly, when he responded to the address of Arthur Sarva. In the course of the debate on the Speech from the Throne, Mr. Taschereau suggested that United States interests establish their plants in Quebec and thus avoid any complications that might eventually ensue. The Premier also raised the question of pulp wood embargo and called for opinions on this subject. He pointed out that since the pulp wood areas comprised 86 p.c. Crown lands and the remaining 15 p.c.

private property, and that since there was already an inhibition against exporting pulp wood from Crown land, the dangers of export were not so glaring.

QUEBEC AND B. C. HAVE MOST FAVOURABLE EMPLOYMENT SITUATION.
OTTAWA, Jan. 13. A review of employment conditions throughout Canada during the past year shows that the most favourable situation as compared with 1923 existed in Quebec and British Columbia. The expansion in construction according to returns received by the Dominion Bureau of Statistics was most pronounced. Large seasonal gains were also registered in lumber mills, canneries and some other manufactures, but on the whole manufacturing was dull during the last twelve months.
