

Dr. Howe on the Use of Follow's Hydrophobine—Pittsfield, Mass., March 1872. Dear Sir: During the past two years I have given your Compound Syrup of Hypophosphites a fair though somewhat severe trial in my practice, and am able to speak with confidence of its effects. In restoring persons suffering from anæmia, the debility following diphtheria, it has done wonders. I constantly recommend its use in all affections of the throat and lungs. In several cases considered hopeless it has given relief, and the patients are fast recovering; among these are consumptive and old bronchial subjects, whose diseases have resisted the other modes of treatment. For impaired indigestion, and in fact for debility from any cause, I know of nothing equal to it. Its direct effect in strengthening the nervous system renders it suitable for the majority of diseases. W. S. Howe, M.D.
