Against \$130 000 Assessment

Hamilton Interested in the Decision.

The appeal of the London Street Toronto, Nov. 22.-11 a.m.-Probabili- trinity of judges at the court house, against the \$130,000 assessment of their property.

It was 11:30 a.m. when Judges Finkle, winds; generally fair and decidedly It was 11:30 a.m. when Judges Finkle, cold, with light local snowfalls or of Woodstock, Hughes, of St. Thomas, and Wm. Elliot took their seats on the bench.

Mr. M. D. Fraser asked that all other cases be laid over until tomorrow, as the argument would be a long one, and the street car company's case alone be dealt with.

Mr. Hellmuth addressed the judges on behalf of the car company, stating the case. The assessment, he said, had practically been confirmed, and from that they appealed. There were two kinds of property assessed—personal and real estate. When the matter came before the court of revision they had amended the assessment and taxed rails, poles, wires, bridges, cost of construction, exclusive of pavement, pending the action of the board of judges.

Judge Hughes wished to satisfy himself, and said he understood there was years, and now aggregates \$10,000. some agreement as to values. He asked whether they were to be bound by

Mr. Hellmuth desired to put in a document stating the manner in which the appeal had been dealt with, but Mr. Meredith objected, on the ground that it should come through the court records.

—Master Edward J. W. Griffith, the 11-year-old son of Mrs. J. W. Griffith, 1954 Dundag street was removed to the the figures as found by the court of revision, if their assessment stood. But if they had been assessed for something that they should not be, the assessment should be altered. He contended that if the judges found the cost of construction was not taxable, then the \$80,000—the assessment on the cost of construction, rails, poles, bridges and wires-should be reduced.

Mr. Meredith held that no matter what the finding of the judges might | Thanksgiving Day. be, the assessment could not be altered, as it had been agreed upon before the court of revision. He pointed out that the assessment had been greatly reduced, and even if it were found that the cost of construction was non-taxable, \$80,000 was only a reasonable assessment for rails, poles, wires and

question, that he had opposed the as- was removed to St. Michael's Hospital, that there were only two classes of nally. property-personal and real estate. He contended that the assessment of \$50,-000 on the cars should be struck off, and only the income derived by the shareholders should be taxed. poles and wires, he contended, were not within the meaning of the definition in the act, as "real estate," or land. Judge Hughes asked if they were not similar to an easement, but Mr. Meredith did not think so, and held that the company's tenancy being only for limited period, the property was per-

sonal. Judge Elliot asked if rails, poles and wires were not real estate as much as gas mains. Mr. Hellmuth held that there was a distinction between the two. The gas were subject to removal at any time, or at least at the expiration of the limited tenancy; therefore it was not other than personal property. According to the provisions of the charter, no exclusive right was given to the railway company, as owners of the road. but they merely held the right to oc-

cupy streets while their cars were passing over it. Judge Elliot-If the traffic of the company was impeded, who complained? Mr. Hellmuth-The car company, suppose, who have only the prior right over a certain section of the street.

Other vehicles use it and cannot be restrained. Judge Elliot thought that to have a prior right the company would be occupants of the land, and thereby subject to assessment the same as any other owner. They were practically owners of the section of the road they occupied.

Judge Hughes-How is it with train? If a milk wagon meet a train? Mr. Hellmuth-Then it turns out, or gets smashed. Judge Hughes-I think there is a

good deal of exclusion about that.

Judge Elliot thought this would be pretty much the same with a milk wagon and a street car. Mr. Hellmuth said that according to the agreement, the company kept in repair 16 feet 5 inches of the roadway wherever there was a double track, and 2 feet each side of the single track. He did not see how the city could tax the

company with the cost of repairs and the cost of putting down the pave-ments. Other vehicles used the road continually, and the London Street
Railway were in the true sense of the
word only licensees. Many cases and
authorities were cited. The court adjourned at 1:15 for an hour. Assessment Commissioner Hall and Assessor Hutton, of Hamilton, were in the court in the interest of the Ambitious City, getting pointers.

THE DELAGOA BAY CASE. London, Nov. 22.-A dispatch to the Daily News from Pretoria says it is understood there that the award of the Berne tribunal in the Delagoa Bay case is in favor of the McMurdo claim for a sum under \$10,000,000, and that Portugal has completed arrangements for a settlement.

CYCLONE OF DUST. Melbourne, Australia, Nov. 22 .- A dust cyclone swept over the northwest portion of the colony on Friday evening. It was especially severe in the Wimmera district, where several towns were wrecked, many churches and prominent buildings being ruined. One town alone suffered damage to the amount of £50,000 (\$250,000). Several persons were seriously injured. TURKEY HAD BETTER "WATCH

London, Nov. 22.-The Rome correspondent of the Daily News says: I am able to assert on the best authority that the powers are discussing the advisability of a naval demonstration in the Dardanelles or a blockade of Constantinople, if the sultan does not yield to the demands of the powers with respect to automy for the Island of Crete, especially in the matter of withdrawing the Turkish troops.

GREAT INTEREST AROUSED. London, Nov. 22.-The Berlin correspondent of the Daily Chronicle says: Count Goluchowski's statement with reference to the struggle with America has excited the most widespread interest here. It is believed that before he made public so remarkable an enunciation of policy he had the consent of the other powers, with the exception of England, and spoke as the mouthpiece of those governments. The Vienna correspondent of the Daily Chronicle says: Count Goluchowski's appeal to Europe to unite against trans-oceanic countries is regarded rather as a platonic desire than as a concrete programme. Thus far no practical attempt in that direction

The Peculia ities of the Word.

No Name on Earth So Famous

No name on earth, perhaps, is so well known, more peculiarly constructed or more widely imitated than the word DODD. It possesses a peculiarmust appeal to the synod for vindica- ity that makes it stand out prominently and fastens it in the memory. It contains four letters, but only two letters of the alphabet. Everyone knows that the first kidney remedy ever patented or sold in pill form was named DODD'S. Their discovery startled the

Their foolishness prevents them realizing that attempts made to imitate increase the fame of Dodd's Kidnev Pills.

medical profession the world over, and

revolutionized the treatment of kidney

Why is the name "Dodd's Kidney Pills" imitated? As well ask why are diamonds and gold imitated. Because diamonds are the most precious gems, gold the most precious metal. Dodd's Kidney Pills are imitated because they are the most valuable medicines the world has ever known.

No medicine was ever named kidney pills till years of medical research gave Dodd's Kidney Pills to the world. No medicine ever cured Bright's disease except Dodd's Kidney Pills. No other medicine has cured as many cases of Rheumatism, Diabetes, Heart Disease, Lumbago, Dropsy, Female Weakness and other kidney diseases as Dodd's Kidney Pills have. It is universally known that they have never failed to cure these diseases, hence they are so widely and shamelessly im-
