Disappointment an impossibility.

Lead Packets Only,

Black or Mixed.

They had been in the Straits less than a week when Inkspot dreamed African was trying to sink the ship by he was in heaven. His ecstatic visions opening a seam, but he soon realized awakened him, when he was not long let Inkspot go on, being very curious in discovering the cause which had to know what he was doing. In a few produced them. The dimly lighted and delightful smell of spirituous liquor. a little door flew open, and almost im-Turning his eyes from right to left, in mediately Inkspot held a bottle in his there shall be deducted from the hand. Now Maka slipped swiftly and usual odor of luxury, Inkspot per-ceived the man Garta standing on the he was not quick enough. Inkspot had ceived the man Garta standing on the other side of the forecastle, with a the neck of the bottle in his mouth and bottle in one hand and a cork in the the bottom raised high in the air; but other, and, as he looked, Garta raised before Maka could seize him by the the bottle to his mouth, threw back arm, the bottle had come down from his head, and drank

Inkspot greatly disliked this man. He had been one of the fellows who had ill-treated him when the Arato sailed under Cardatas, and he fully agreed with his fellow-blacks that the scoundrel should have been shot. But now mer now ordered the disappointed nehis feelings began to undergo a change. A man with a bottle of spirits might prove to be an angel of mercy, a being of benevolence, and if he would share with a craving fellow-being his rare good fortune, why should not all feelings of disapprobation be set aside! Inkspot could see no reason why they should not be, and, softly slipping from his hammock, he approached Garta.
"Give me. Give me, just little," he

whispered. Garta turned with a half-suppressed oath, and, seeing who the suppliant was, he seized the bottle in his left hand, and with his right struck poor Inskspot a blow in the face. Without a word the negro stepped back, and then Garta put the bottle into a high, narrow opening in the side of the forecastle, and closed a little door upon it, which fastened with a snap. little locker, just large enough to hold one bottle, had been made by one of former crew of the Arato solely for the purpose of concealing spirits, and was very ingeniously contrived; its door was a portion of the side of the forecastle, and a keyhole was concealed behind a removable knot. Garfor the reason that he had been unable to find the key. He knew it had been concealed in the forecastle, but it had South America, freighted with

bottle to anybody, I'll put a knife into three-master or a steamer: you. No matter what they do to me, I'll settle with you."

Inkspot did not understand all this, but he knew it was a threat, and he well understood the language of a blow in the face. After a while he went to contents of the bottle, he had no more heavenly dreams.

The next day Capt. Horn found himself off the convict settlement of Punta Arenas, belonging to the Chilian Govhad approached since he had taken don. There were present: President command of the Arato, but he felt no desire nor need to touch at it. In fact, the vicinity of Punta Arenas seemed Stratford; J. S. Pearce, London; Harley came to him and reported that the man Garta was nowhere to be found. Paget, Canboro; H. White, Hawkes-Capt. Horn immediately ordered a ville; John Pram, Harriston; Thomas Findlay for the week ending April 6 search and inquiry to be made, but no traces of the prisoner could be discovered. Gibson, Fordwich, and J. W. Symingtraces of the prisoner could be discovered, nor could anybody tell anything about him. Burke and Inkspot had ness transacted in reference to the association and been on watch with him from 4 to 8, future work of the association and but they could give no information whatever concerning him. No splash the probability of the British Dairy nor cries for help had been heard, so the probability of the British Dairy Farmers' Association holding its anthat he could not have fallen overboard, and it was generally believed that, when he knew himself to be in that, when he knew himself to be in quietly slipped into the water and had swam for Punta Arenas. Burke suggested that most likely he had former-ly been a resident of the place, and liked it better than being taken off to Shirley considered this very probable, formerly Governor-General of Canfor he said the man had always looked ada, was president last year, and

like a convict to him. At all events, Garta was gone, and had been gone. So, under full sail, the ance of Ontario as an agricultural Arato went on her way. It was a re- country. lief to get rid of the prisoner, and the only harm which could come of his

this should be the case, the situation would be awkward. But days passed on, the schooner sailed out of the

suing her.
To the northeast Capt. Horn set his He would not stop at Rio for the Arato had no papers for that port; he would not lay to off Stanley Harbor, for he had now nobody to send ashore; but he would sail boldly for France, where he would make no pretensions that his auriferous cargo was merely ballast. He was known at Marseilles; he had business relations with bankers in Paris; he was a Californian and an American citizen,

which, by the aid of his financial advisers, would be legitimately cared for and disposed of. on watch, heard a queer sound in the sition is as follows:

little noise as possible, but he was evidently bent upon forcing off one of the boards on the side of the forcastle. At first Maka thought that his fellow.

African was trying to sink the chic by oduced them. The dimly lighted and minutes he knew. With a slight noise, not enough to waken a sound sleeper, its elevated position, and a doleful expression crept over the face of Inkspot. There had been scarcely a teaspoonful of liquor left in the bottle. Inkspot looked at Maka, and Maka looked at him. In an African whisper, the forgro to put the bottle back, to shut up the locker, and go to sleep as quickly as he could; for if Mr. Shirley, who

> wish he had never been born. The next day, when they had an opportunity for an African conversation, he had discovered the little locker by smelling the whisky through the boards, and that, having no key, he had determined to force it open with a hatchet. Maka could not help thinking that Inkspot had a wonderful nose for an empty bottle, and could scarcely restrain from a shudder at the thought of what might have happened had the bottle been full; but he did not report the occurrence. Inkspot was a fellow-African, and he had barely escaped punishment for his former misdeed. It would be better to keep his

was on watch on the deck, found out

mounth shut, and he did. Against the north winds, before the south winds, and on the winds for the east and the west, through fair weather and through foul, the Arato sailed up the South Atlantic. It was a long, long voyage, but the schooner was ta had not opened the locker before, skilfully navigated and sailed well. Sometimes she sighted great merchant steamers plying between Europe and taken him a long time to find it. Now cargoes, and proudly steaming away his secret was disovered, and he was from the little schooner, whose dark enraged. Going over to the hammock, green hull could scarcely be distinwhere Inkspot had again ensconced guished from the color of the waves; himself, he leaned over the negro and and why should not the captain of this humble little vessel sometimes "If you ever say a word of that said to himself, as he passed a big

Grants will be made this year to the dairy department of the following exhibitions and shows: Western port that his ship had been stolen by Fair, London, \$100; Industrial Fair, the men who were sailing her, and Toronto, \$50; and the Provincial Fat that some sort of a vessel might be sent in pursuit of the Arato; and, if president and secretary were appointed to represent the association on the board controlling the fat

stock and dairy show. The next annual convention of the association will be held in Brantford on Jan. 19, 20, and 21, 1897. The secretary will correspond with a inside the vault, with the intention of number of prominent speakers on dairy topics with a view to securing their services for this important

gathering.

A circular letter will be sent by the secretary to the cheese factories in the west asking that the opening for the season's business be delayed as long as possible so as to lessen the output of early fodder cheese and allow the market to right itself before the later makes come on.

A further effort will be made organize a syndicate of factories for

more uniform instruction and inspection. The association is very desirous of having one of those syndicates in operation this present season as an object lesson to show what can be done by systematic effort, and is prepared to make a very liberal offer to factories willing to join a group this season.

A resolution of condolence was passed expressing the sincere regret of the board in the death of the late esteemed honorary secretary of the association, Mr. C. E. Chadwick, of Ingersoll. Mr. Chadwick was the first president of the Canadian Dairymen's Association, organized in 1867, and the active secretary of Western Association till his retirement in 1892, when he was succeeded by the present secretary, J.

The secretary of the waterworks shall have access to the assessment roll of the city for the purpose of making up his list of properties liable for frontage tax, and shall furnish to the what he had been doing, Inkspot would city clerk previous to the making up of the collector's roll a list of proper ties liable therefor, and the amount of the same; but in the event of it be Inkspot assured his countryman that ing impossible or impracticable for this to be done, such list may be handed to the collector of taxes.

"4. The said frontage rates shall b added to the municipal taxes, and shall be payable to the collector of taxes for the city of London, by whom the same shall immediately upon receipt thereof be payable to the secretary of the water commissioners, who shall pay the same over in the same manner as regular rates.

"5. All such rates not paid shall b and form a lien against the lands, against which the same may be charged in the same manner and subject to the same provisions for collection, enforcement of payment and charges, as municipal taxes.

"6. There shall be kept in the office of the secretary of the waterworks department a detailed list, according to streets, of all properties liable to frontage tax for waterworks purposes, under the provisions of the foregoing ously it brings her face to face with clauses.

"7. In the case of corner lots, or where other disputes arise as to the frontage taxable, the same shall be reckoned according to the frontage on property.

Tenders for the supplies for the year were received and accepted as follows:

Bookbinding—Reid Bros. Pipe laying—Harding & Leathorne. Hardware—Cowan Bros. Brass fittings—Irwin & Geldhart. Stop-cock boxes-Steven Manufacturing Company

Lumber-Bowman & Co. The acceptance of tenders for oil and coal was deferred

Manager Carr, of the street railway company, complained that the road-way at the corner of Wellington and Dundas streets has sunk considerably. causing the cars to frequently become derailed. The trouble was caused by the alterations to a water pipe, and it will be remedied by the commissioners. The report of Pumping Engineer was used on the first five days of the week, and the amount of slack and coal used was 46,800 pounds. March 31, 9 feet 3 inches of water

over the dam, but this had passed dropped to 2 feet 6 inches on Monday night. The register at the reservoir raised from 8 feet 3 inches on March 31 to 13 feet on April 6. The secretary was instructed to pay

over \$5,000 to the city treasurer on All the members of the board were present.

CAUSED BY GAS.

Explosion in a Bank at Galt-Four Men Injured.

Galt, Ont., April 8 .- About half-past nine o'clock yesterday morning an explosion occurred in the Merchants' Bank, which resulted in four persons sustaining painful

injuries. Manager Jarvis noticed a smell of gas Monday, and remarked to the janitor, who said that it was coming from the meter, as it always did when closed off for a few days. On entering yesterday morning the smell was stronger and the windows were at once raised to allow it to escape. Some time after this had been done, Mr. Nesbitt, inside the vault, with the intention of lighting the gas, when a sheet of flame rushed through the opening into the faces of Mr. Hyde, the teller; Mr. Crookall, ledger keeper, who was standing in front of the vault, and Manager Jarvis who was passing at the time. Simultaneously a loud report was heard, followed by a shock

which threw them all to the floor. Messrs. Nesbitt and Crookhall were, if anything, the most unfortunate, their faces being badly burned and hair and eyebrows scorched. Manager Jarvis sustained severe burns on the face. Mr. Hyde escaped with slightly burned face, singed hair and a bruised wrist. After recovering from the shock Manager Jarvis noticed that the interior of the vault was all ablaze, and with great presence of mind seized an old coat and subdued the flames. No material

damage was done. A gas jet burns constantly in the vault, and it is supposed that the closing of the door on Saturday put the flame out.

A COMING MARRIAGE. Toronto, April 8.-Cards are out for the wedding of Miss Mary Robinson, grand-daughter of the Hon. John Beverley Robinson, ex-Lieutenant-Governor of Ontario, to Mr. Lally Mc-Carthy, only son of Mr. D'Alton Mc-Carthy. The ceremony will take place

Women Who Make the World Better.
