London, Sept. 20 .- The Times says the statement of the American press that the state department at Washington and the British ambassador have received instructions to reopen negotia-tions for a general treaty of arbitration is at least premature. It is not improbable that the negotiations which have never been broken off may be resumed next month, when Sir Julian Pauncefote returns to his post; but t is difficult to see how a treaty of any practicable value can be concluded so long as the Senate maintains hostile and obstructive attitude it displayed when it last discussed the question. As soon as the troops began to retire from the village the enemy reappeared in force. The retirement, however, was effected with great precision, the native troops behaving splendidly. Two Sikhs were killed and six wounded.

It is now known that the enemy's loss during the fight on Thursday last between the Momunds and the second brigade of Gen. Sir Bindon Blood, in the valley north of Anayat, was very heavy. The tribes engaged did not press the brigade during the retirement, but fresh tribesmen appeared.

Lieut. Watson was thrice wounded, while gallantly leading a handful of Buffs, who routed Gen.
