LIVING IN STONE AGE

Terrible Experiences of First European Explorer Related for the First Time.

London, Sept. 16.-Reuter's representative forwarded from Arnheim on system is being extended, or, rather, ex-tensions are being considered by the Friday details of an important interview with Dr. H. A. Lorentz, the Dutch explorer, who is the first white have been received, and will shortly be man to have penetrated the mysteri- dealt with. ous Central Snow Range of New Guinea, one of the peaks of which is the objective of the important British Pocock. expedition now working in the coun- lighting in good shape as soon as pos-

This portion of New Guinea is probably the largest unexplored part of the earth's surface, as little known as the Polar Circle, and the immense snowcapped range, with its knife-edged peaks, attains a height of nearly 18,-

The approach to the Snow Mountains was through well-nigh impene- No. 1 Committee Anxious to trable forest, over precipitous cliffs, in foodless region of intense cold. But having conquered all these ob

stacles, and reached the base of the mountains, Dr. Lorentz built a big advance camp, and then with Capt, van Nouhuvs and 25 coolies started up the mountains. Narrating an adventure which proved to be terrible, but of the greatest interest, the explorer said: "After eleven days of cutting our way through some of the densest for- taken exception to the meeting on Tuesest I have ever seen, and in getting day, Sept. 6, as being irregular, and conover cliffs which resembled nothing so sequently he had, with the consent of much as sides of houses, we reached Mayor Beattie, removed the clause from an altitude of 9,500 feet, pretty well the report. He did not wish the matter exhausted.

"We now attempted the second secion of our climb, and for two days ascended the mountains. Suddenly we came across a secluded valley some 5,600 feet deep running east and was recommended that the assessment west, which, to our amazement, we rolls be printed, at a cost of not more found to be thickly populated. Since than \$800. leaving the river there had not been a sign of human life, but now, to our patients to the Alexandra Sanatorium surprise, we found native villages will be prepared, Ald. Richter and Mayor along the whole length of the valley.

Eccentricities of New Race. "Our first encounter with these unknown natives occurred early one norning. We were walking in single file through the twilight shades of the great forest when we heard mysterious calls, which we at once attributed to human beings. Suddenly a small band of savages, all armed with day. bows and arrows and stone axes, ran out from the jungle, and, to our surprise, approached us with hands outstretched, offering us sweet potatoes

s a sign of friendship.
"On our arrival in their village the LABOR PUTS THROUGH s a sign of friendship. people performed a curious ceremony by which they made us blood brothers. They sacrificed a pig, and smeared each of us on the forehead with the creature's blood. This proved Conclusion of Congress at Port somewhat awkward attention in the case of our Mohammedan soldiers, but, at my earnest request, they finally agreed to submit, provided that we allowed them immediately afterwards to undergo ceremonial washing.

from the ground, access being obtained by a notched pole. These little huts we found to be divided into vention will be reached tonight. two, one-half being used for domestic animals-mostly pigs, who presumably also climbed the rough ladder—and most cases were passed with very litthe other half by the people them-

"We noticed that some of the women had the middle finger of the left hand cut off. We had no means of discovering the meaning of this, although it was clear that the mutila- tional peace conference of labor ortion was made during youth and not in their quite early days, all the children have their hands intact.

"Many of the men, too, had the upper portion of one of their ears re-

Terrors of the Mountains. "They were very anxious for us to remain with them, and tried to dissuade us from going further up the mountains, saving that we should surely be attacked by the people who lived there, but we had to tear our-

selves away from these curious people, and proceed on our way. "Two days further up the mountains, at an altitude of 10,000 feet, we came across four people, one woman and three men, but they were very

frightened and ran away. "After experiences which I find it extremely difficult to narrate we reached a point at an altitude of 15,-We had attained our goal, and had named the peak after Queen Wilhelmina, but it was on the return journey that our series of disasters began. We had not gone very far down the peak before I slipped, and, falling headlong for 100 feet, smashed a rib and sustained serious injuries to

my legs, hands, and head. "That night was a terrible one, and in my periods of consciousness I suffered extreme pain. With no covering at all we were exposed for hours on a bare ledge. On the following day seemed to nauseate me. some of the Dyaks came up from the next camp and carried me thither in blankets, a journey of five hours of Grape-Nuts food and coaxed me to

which I am not likely to forget. "And that night one of our Dyaks was frozen to death, and we had literally to beat the other coolies in order to prevent them from going into a never-ending sleep. I was not able to move. For thirteen days we stayed in this camp, until we were reduced to one ounce of rice daily per man, Octobr. with absolutely nothing else. At the end of that time we all looked like and appetite too much for any man's living skeletons, and, in addition to pocketbook. In fact, I am thoroughly other miseries, the feet of the coolies made over and owe it all to Grape-

were in a frightful condition. ere in a frightful condition.

"As to remain longer would have Grape-Nuts," but I stand today a meant certain starvation, we decided men on the road have nicknamed me to make an attempt to reach camp 'GrapeNuts,' but I stand today a lower down, but we were so exhausted healthy, rosy-cheeked man-a pretty that we could not travel for more good example of what the right kind than a couple of hours per day. At of food will do.
this stage another of our coolies died "You can publish this if you want of exhaustion.

"Three days further down the mountains I found one of the soldiers who had formed one of the advance relief party. He had lost his way, and for fifteen days had lain where we found him without food. He was alive, but that was all, and we were reluctantly compelled to leave him where we found him, as none of us were able to carry him. He was afterwards dis-
