

RAILWAYMEN INVEST
IN NEW YORK STOCKS

Brotherhood of Engineers Purchases Big Interest in the Empire Trust Company.

New York, Jan. 23.—The Brotherhood of Locomotive Engineers has purchased a substantial interest in the Empire Trust Company, according to an announcement made yesterday by Leroy W. Baldwin, president of the trust company.

Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers and Wm. B. Prenter, secretary and treasurer and for 40 years financial advisor of the brotherhood, will represent the union on the directorate of the trust company. Other directors are Charles M. Schwab, T. Coleman Dupont, August Heickel and Minor C. Keith.

In making the announcement Mr. Baldwin said: "The brotherhood was desirous of affiliating with a strong banking institution in the financial district so that it could more advantageously handle its large investment."

VETERAN TELLS
HOW HE ESCAPED

Declares Tanlac Freed Him From Stomach Trouble, Swelling and Weakness Left by Pneumonia

George L. Lewis, Boullie street, London, Ont., well-known carpenter and veteran of the South African and World wars, has added his name to the long list of Ontario people praising Tanlac for the benefits they have derived from taking the medicine.

"Last winter," said Mr. Lewis, "I was down with pneumonia, and after that I couldn't get my strength back and was unable to work. I had no appetite, and if I did dare to eat it only caused me more suffering with my stomach. I had neuritis in my legs, and my feet would swell up till I thought they would burst. My kidneys were out of order, and it was impossible for me to get a good night's sleep."

"But I have taken on new hope and courage since I started taking Tanlac. I can just feel the medicine building me up. My appetite has come back full strength. I feel like a top, and you can bet I'll stick to Tanlac."

Tanlac is sold by all good druggists. Over 35 million bottles sold.—Advt.

Actress Tells Secret

Tells How to Darken Gray Hair With a Home-Made Mixture.

Joicy Williams, the well-known American actress, recently made the following statement as to how and how to darken it with a home-made mixture:

"Anyone can prepare a simple mixture at home that will gradually darken gray, streaked or faded hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Orle's Compound, and 1/4 ounce of glycerine."

"These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."—Advt.

INDIGESTION!!!
STOMACH UPSET
ATE TOO MUCH

Instantly! Stop Gas, Sourness, Heartburn, Stomach Misery

Chew a few pleasant, harmless tablets of "Pape's Diaprepin" and your distressed stomach will feel fine at once.

Correct your digestion and ease your stomach with a few cents. Don't let your stomach keep you miserable! Druggists recommend it.—Advt.

EXTENSION OF FAIR
REMAINS UNSETTLED

Chamber of Commerce Will Discuss Matter at Meeting Tomorrow.

COVES MENTIONED

Many Declare Cost of Changing Site Has Been Over-estimated.

Notwithstanding the recent Highland Park session of the fair board, the chamber of commerce and members of the city council, the Western extension plan is not yet in sight of settlement, as is evidenced by a questionnaire sent out by the chamber of commerce to its members outlining questions of the fair board for discussion at a dinner meeting in the Tecumseh House tomorrow night.

In recent years, there has been much talk of relocating the grounds of the Western Fair on a new site, and the general opinion of the citizens has been in favor of this move. Directors of the exhibition have year after year pointed out the inadequacy of the grounds and buildings, yet hampered by financial difficulties nothing very imposing has been accomplished in the way of new buildings.

Now, apparently, advocates of a new site are coming forth again, and among other sites, the Coves has been mentioned. This site was advocated some two years ago by various city officials, and others interested, but the matter was allowed to drop.

Some of the pertinent questions that will be placed on the boards tomorrow night at the Chamber of Commerce are:

"Can the city sell Queen's Park?"

"If Queen's Park were sold, could the city finance the fair buildings and grounds on a new site?"

"Would not the east end residents object to its sale?"

"Who runs the Western Fair?"

"Have city people, or agriculturalists larger representation on the board?"

"What about the future of the fair?"

Opinions differ somewhat on the advisability of relocating the grounds, because of the estimated cost of moving. Talk around the city hall this morning, however, was to the effect that "removal costs" were somewhat over-estimated when the matter came up some time ago. Opinion was unanimous that while only a part of Queen's Park could be legally sold, the sale of that part would more than offset the purchase of extensive grounds on a more suitable location, and leave something over that might be used towards the erection of buildings, or beautifying the new grounds.

50c
AT YOUR DRUG STORE
You can get a package of Thermogene in the familiar orange-colored box for 50c at your favorite drug store. Better buy it to-day.

SEVERAL MENTIONED
FOR WARDEN'S CHAIR

C. C. Henry and Bert Holman Appear To Be Favorites in Race.

Cyrus C. Henry of Metcalfe and Bert Holman of Newbury are the two best bets in the race for the warden's chair, which will be settled at the inaugural meeting of the 1923 Middlesex County Council this afternoon.

J. E. Harrison, reeve of Parkhill, may be in at the finish, and may even nose Henry and Holman out, a number of prominent county electors are inclined to believe.

For several weeks Allan McPherson, reeve of Glenora, was mentioned as being a strong contestant, but it is doubtful now, it is stated, if he will allow his name to stand. William Ross of East Williams has also been mentioned as being a contender for the highest municipal office in the county.

Virulent disease has attacked prize poultry which has been shown at the numerous winter fairs, destroying large numbers of the birds. All that Ontario Agricultural College officials have been able to learn is that pneumonia is the direct cause of death in every case. The epidemic is still unchecked, and little can be done to stamp it out.

The first attack came at the Royal Stock and Poultry Show in Toronto. Quite a number of the birds were stricken suddenly at this exhibit. The next blows fell at Ottawa and Guelph.

At the Ottawa show one breeder lost a flock of 40 Silver Wyandottes. Forty birds owned by L. Hay, of London, died, and several district men lost most of their best poultry.

Finally the epidemic spread so rapidly that Superintendent Saunders of the Guelph exhibit, ordered the bodies of some of the victims sent to the Ontario Agricultural College for post-mortem examinations. These were conducted by Professor William Graham, poultry expert. His investigation resulted in the announcement that the deaths were directly caused by pneumonia. The windpicks of the birds were found to be clogged with a mucous substance.

"I judged one set of birds and after walking away I decided to take another look. During the short time I was away from them, one had died," declared William McNeill, most prominent of America's poultry judges and a resident of Waterloo street north.

"The birds seemed to be attacked suddenly," he added. "They just stretch their necks and drop dead before anything can be done for them. The investigations will continue, it is promised, in order to get at the root of the trouble and check the epidemic."

The funeral (which will be private) will be held from the family residence on Thursday afternoon next, and interment will be made in Woodland Cemetery.

Edward Gerrard, a resident of the Gore road, R. R. 2, London Township, died in Victoria Hospital at 2 o'clock this morning from burns received in a kerosene explosion in the kitchen of his home on Sunday last.

He was brought to the hospital in a very serious condition, with his arms, legs and neck badly burned, but it was hoped he would improve. He took a turn for the worse early this morning and passed away shortly afterwards.

STATES MODERN GIRL
SERIOUS INDIVIDUAL

Miss E. S. Whidden Arrives for Conference With Leaders in the Work.

NEEDS GUIDANCE
Noted Social Worker States Religion Must Contain Interest to Hold Girls.

"On the surface, the girl of today may appear indifferent, but underneath she is really serious and interested in religious things, provided religious things are presented to her in an interesting way. The typical girl of today is not the frivolous person she is frequently represented to be."

After several years' close association with girls, Miss Eunice S. Whidden, recently appointed director of girls' work of the Religious Education Council of the Baptist Church of Ontario and Quebec, has come to the conclusion quoted above. She expressed her views to The Advertiser immediately after her arrival in the city this afternoon for a conference with girls' work leaders and C. G. I. T. groups of the Baptist Church, in Talbot Street Church, this afternoon and evening.

Miss Whidden, who is a niece of Dr. Howard P. Whidden, new chancellor of McMaster University, had taken the course in social service in Toronto University, and intended entering social service work, preferably juvenile court, when the imperative call came to her to fill the post in the Baptist church.

"I lived in Brandon in the college for five years while my uncle was there. All the time I was closely associated with the girls," she stated, "and had plenty of opportunity for studying girls."

But that wasn't the beginning of her special interest in girls. She knew numbers of them of very different type, home environment and opportunity when, previous to going west, she lived in Montreal and taught there in the old Brewery Mission, in a distinctly slummy district.

Girls are girls, she has learned, wherever they are found, and her heart goes out to them in warm sympathy and loving interest.

And girls she has known all over the country, east and west, since it was her lot to be born in California, to start growing up on Nova Scotia, to remove from there to Montreal, to spend five years in the Canadian prairie west, and now to be settled in Toronto, Ontario.

Miss Whidden addresses girls' work leaders at 5 today in Talbot Street Church. Representatives from girls' groups of the various Baptist churches will attend a banquet in her honor at 6 o'clock, and following this, all girls of the city will be privileged to hear her speak at an open meeting.

Is Practical Person.
"She's a very practical young person. A religion that will appeal to her must work out in every day life, and not just be a fine dress to wear on Sundays."

URGES PARTICIPATION
IN WATERWAYS PROBE

Deputation From Ontario Waits on Premier King, Asking Consideration.

Special to The Advertiser.
Ottawa, Ont., Jan. 23.—Emphasizing the extensive benefits which would accrue to the Dominion through the deepening of the St. Lawrence ship channel so as to permit vessels of larger tonnage to penetrate from tidewater direct to the head of the Great Lakes, a deputation of some 50 persons from Ontario and other interested points waited upon Premier King and members of his government today, and urged participation by the Canadian government in a conference with American authorities on the subject.

The delegates who were introduced by William German of Welland, did not press the government to directly commit itself to the great undertaking, but President Harding had suggested a conference, and the suggestion should be accepted.

In a lengthy memorial, it was pointed out that of the 245,433,000 bushels of Canadian wheat exported last year 159,873,000 bushels or 65 per cent had gone via American ports and only 35 per cent by Canadian ports. By the construction of the proposed channel the volume of traffic via Montreal and Quebec would be increased so as to tax existing facilities to the utmost. The exports of Canadian chilled beef would also be heavily increased. Direct return for expenditure could be secured through the use of 1,464,000 horsepower of electrical energy at the Long Sault alone.

SUES WINDSOR FIRM TO RECOVER \$15,000
Canadian Press Despatch.
Toronto, Jan. 23.—The trustee of the property of the Canadian Cereal and Flour Mills Company has entered action at Osgoode Hall against the Neal Baking Company, Limited, of Windsor to recover \$15,000 alleged due for goods sold and delivered. An accounting is also asked.

JAILED FOR FALSE ALARM.
Canadian Press Despatch.
Montreal, Jan. 23.—Because he satisfied a desire to see the fire brigade race through the streets by turning in a false alarm, a 15-year-old boy was this morning sentenced by Judge Choquet to eight days in the Detention Home. "Boys like this must be taught a lesson," he declared.
