

KINDLY FEELINGS MARK MESSAGES FROM PREMIERS

Poincare's Reply to Ramsay
MacDonald Paves Way
to Co-operation.

SUCCESS ASSURED

Associated Press Despatch.
London, Feb. 4.—The correspondence which passed recently between Ramsay MacDonald, the British premier, and M. Poincare, the French premier, following a letter from Mr. MacDonald to M. Poincare advancing the hope that France might adopt a conciliatory spirit toward Great Britain and that the two countries might resume full cordial relations was made public here yesterday. Mr. MacDonald's letter was dated January 25. It was typewritten and was handed to M. Poincare in the Chamber of Deputies while debate on the French government fiscal measures was beginning. Notwithstanding the confusion growing out of the debate M. Poincare wrote his reply by hand at the ministerial bench in the chamber and sent it within an hour to the foreign office in Paris, whence it was sent to London by the ordinary post. Mr. MacDonald's letter follows:

"My dear Mr. Poincare:
"Our two countries have gone through such trying times side by side and made such sacrifices together that, coming into office, I address you a personal note, not only to inform you of the change, but to send you my greetings and good wishes.

Many Unsettled Points.
"I grieve to find so many unsettled points are causing us trouble and concern, and I assure you it will be my daily endeavor to help settle them to our mutual benefit. You have your public opinion and I have mine; you have your national interests to conserve and protect, and I am sure by the exercise of your good will these conflicts can be settled and policies devised in pursuit of which France and Great Britain can remain in hearty co-operation. We can be frank without being hostile and can defend our countries' interests without being at enmity. Thus, the entente will be much more than a nominal thing and France and Great Britain can advance together to establish peace and security in Europe.

"Pray accept these assurances and my sentiments of personal respect and believe me to be,

"Your obedient servant,
"RAMSAY MACDONALD."

M. Poincare's reply was dated January and said:

"My dear Mr. Prime Minister:
"I am much touched by your letter, which you have been good enough to write to inform me of, and upon your high functions and to send me your personal good wishes. I hope with all my heart for the welfare of your country which will be crowned with success.

"The bonds which unite it to my own have been knit together as you recall, in time of common trial and sacrifice. You may be sure that the memory of these times is ever present to my mind as to yours. I also regret that several questions of importance to our countries have not yet been settled. Like you, I will do my utmost to solve them by friendly agreement, and to our mutual advantage.

Success is Assured.
"If we have to take into account public opinion in our respective countries; if we both have to safeguard our national interests, I am confident that in applying each in his own sphere the vigorous action and goodwill of which you speak to the settlement of problems arising between us, we shall solve them in such a manner as to maintain between Great Britain and France a policy of co-operation essential to our two countries, and to the tranquility of the world.

"My own frankness shall be no less than yours and if, in defence of French interests, I show the same fervor as you in defence of British interests, you may be sure that nothing will ever change the cordiality of my deep rooted feelings.

"It is impossible that, animated as both are by such sentiments, we should fail to make the entente effective and fruitful of results which it can and ought to bear in order that Europe as a whole should find once more peace, security and freedom to work.

"I beg you to accept my assurances, etc.

"POINCARÉ."

MOTORIST SAYS ROADS ARE IN BAD CONDITION

Returns From Hamilton and
Finds Driving Almost
Impossible.

Returning to this city yesterday afternoon from Hamilton by motor a local man reported the roads to be in such a bad condition that driving was almost impossible. He stated that the worst section of the road is between Thameford and London, where the ruts are so deep that traffic is almost confined to a one-way road.

From Hamilton to Brantford they are fair, but after leaving Brantford for London by way of Paris, one immediately gets into difficulty, and from there on one must drive any faster than 15 miles per hour.

The motorist gave his information, thinking that it might serve as a warning to any who are inclined to drive a considerable distance by motor at this time of the year.
