### VICTORIA WEEKLY COLONIST, FRIDAY, JULY 3, 1891.

### Fourth Standard. The circular recalled the facts that, in 1859, the primitive Cantons of Switzerland erected a statute to Schiller, the poet of Tell's story, that the Swiss Confed-eration had decreed the Grutil to be national property, and that the Canton of Uri was about to put up yet another monument to the memory of William Tell. So the traveller will still be charmed on his way through Switzerland to find the hero-whether his name is the mare embodiment of a love of freedom-still honored among the ashes of those brave Swiss whose memory lives in stoke under the walls of lovely Lucerne, mea who fell in defence of authority against a revolution which under-stood not freedom as the best portion of the Swiss people understood it. entrance fee will be charged. The aims of the organization are to oppose socialism, to wean members from socialistic bodies, to maintain a good standard of wages and find good employment for members. Membership in the union does not involve resignation from other trade organizations, unless their tenets are opposed to the letter or spirit of the Pope's encyclical. Cardinal Manning is very hope-ful of good results to flow from the more-ment. He confers daily with representa-tives of Catholic workmea, with a view to obtain their views of the practical question of organization. One of the earliest objects of the union will be to obtain a complete and accurate census of English-speaking Catholics, which will be repeated at short intervals. Nothing of this kind has ever been attempted heretofore. The Colonist. Horrible Stories of Slaughter and Bloodshed from Sierra Leone —Thousands Butchered. ### A BOYAL CHRISTENING.

A ROYAL CHRISTENING. The Queen, accompanied by a number of the members of the Royal Family, attended the christening of the daughter of the Duke and Duchess of Fife, on Monday. The title of the baby, who is the Prince of Wales' first grandshild, will, by the Queen's command, be Lady Alexandra Victoria Duff, the latter being the family name of the Duke of Fife. being the family name of the Duke of Fife. To WARCH THE ANARCHIST. Three of the leading detectives in the Prussian government service have gone to London to keep an eye on the exiled anarch-ists and socialists, in that the exiled anarch-ists is to be merely precationary; and, although the government has received no information that would justify a fear of any intended insult or injury to the Kaiser, it is known to the police that the German col-ony in London includes a number of indivi-duals who are wholly anarchist in their ten-dencies, and, it is believed, capable of abus-ing the hospitality of England in their hatred of existing institutions. The Ger-man anarchists are said to have a secret club in East London, in which most danger-ous doctrines are discussed, and actions against their governments urged, if not de-termined upon; no overt act has, however, yet been proved against these people. The Russian nibilists also have quarters in Lon-don, where conspiracies are hatched and the means provided to carry them out. There is a strong undercurrent of sympathy with the nibilists, which does not exist for the German anarchists ; and the latter would do well, if they value their ease, not to provoke public attention during the im-in-

AN UNENVIABLE REPUTATION. Prince Adolph, of Schaumberg Lippe has been winning an unenviable standing among his fellow officers of the German army since his marriage to the Kaiser's sis-ter. The young Prince has assumed such an air of arrogance and superiority that the other officers of the company have united in a general plan to ignore him socially as in every way respect for his military rank will per-mit.

The St. James Gazette takes a gloomy view of the future of the tin plate industry in England. The Gazette says that the tin plate tockout is the beginning of the decline of a great British industry, and that the skilled working men will seek and find re-munerative employment in America. Never try to make others believe yourself.
