BRITISH PREMIER INDORSES CANADIAN PEACE MOVEMENT LAUNCHED HERE RECENTLY

Ramsay MacDonald.

Rt. Hon. Ramsay MacDonald, premier of Great Britain, has written to David Ross, president of the London District Federation of Church Brotherhoods, declaring that he has been encouraged by the launching of a Cana-dian movement for world peace in this

The British premier's letter was received at a meeting of the executive, where messages were also read from Wm. Ward, and Secretary Edwards, the

shown below by the federation executive, and declare for a nonsectarian union of Christian people, who will put their principles into practice in every walk of life. The golden rule, it sums

Men's Brotherhood Federation, is one among all organized Christian bodies, the kind that appeals to the common

"It stands out clearly on its broad, unsectarian. undenominational basis, with a program that seeks to raise our Christian civilization above the narrowness of class distinctions, racial aninosities and religious denominationalism. That would make our Christianity walk our streets, stand in the market place, making its presence felt in industry, commerce and the public service and political life of our land. The every-day religion that would be known and read of all men, not by its eloquent language or written creeds, but by the common life of its mempers in the ordinary tasks of men. executive meeting of the Men's Broth- importance are being held in the Metho erhood Federation at their last meet- dist churches

NO EXPENDITURE

"The order of business brought many interesting matters before the meeting. Such as the present result of the world peace meeting, which was held by the organization in the Central Collegiate

in America, through their secretary, Dr. Sydney Gulick, reported how the hearts of the members of the club. Rev. federal churches were rejoiced at the news of the meeting and the peace resolutions passed, also stating the encouragement which the brotherhood.

In the secretary, Dr. Sydney Gulick, reported how the passing away of Henry the passing away of of the movement in the Dominion

COULD HARDLY LIFT HER HANDS

Terrible Weakness Caused By Digestive Disorders Quickly Relieved By Dreco-Peterboro Lady Now Has Splendid Appetite, Sleeps Soundly and Strength Is Returning Every Day.

"For years I had suffered from stomach trouble and Indigestion," says Mrs. Eliza Killingbeck, of 200 Edinburgh Street, Peterboro, Ont. "I had a very poor appetite and would bloat terribly after eating. I had frequent dizzy spells and felt very weak and run-down. My nerves were all on edge and I couldn't sleep at nights. Sometimes I was so weak I could hardly lift my hands to my mouth. My kidneys, too, were bad and I suffered no end of misery from them. I was also chronically constipated "I took all kinds of medicines and dear knows how much

money I spent trying to get relief, but nothing did me any good Finally my son advised me to try Dreco and after taking four bottles I can truthfully say that I feel 100 per cent. better. While I still have to watch my diet, everything I do eat agrees with me and my nerves are steadier than for years. I sleep soundly, have no more dizzy spells or bloating and my kidneys are in good condition. My constination is also relieved and I feel that my experience with Dreco justifies

me in recommending it very highly."

Dreco is the most reliable corrective and tonic for digestive disorders made. It stops suffering by stopping the cause of it, which in most cases is nothing but weak, lazy, digestive organs. Dreco strengthens and regulates these organs till they do their work properly. It contains no mercury, potash or habit-forming drugs, being a purely herbal preparation with absolutely nothing injurious in it.

Dreco is being specially introduced in London by Standard Drug, Limited, and is sold at all their stores in London, St. Thomas, Woodstock and Stratford. It is also sold as follows:

CHATHAM—Liggett's Drug Store,

Clark's Drug Store.

STRATHROY—F. L. Grieve.

ST. MARY'S—MacLean's Drug Store

SARNIA-Liggett's Drug Store GALT-Cant & Cant, J. H. Prudham. RIDGETOWN—D. H. Stewart.

Claim Irregularities In Spine Cause High Blood Pressure

Affecting no particular age, but more or less common in individuals of al ages, high blood pressure is one of the most frequent and one of the most dan-gerous indications in the physical conditions. It is so vitally important that Dealers and Manufacturers Not Committees Named For Various wherever physical examinations are given for life insurance policies or other purposes, much depends on whether or not the examination shows a normal blood pressure. Chiropractic is the only

way. NORMAL BLOOD PRESSURE.

It must be understood that the blood pressure varies in different individuals and under different conditions. In a general way it may be said that the blood pressure varies with the age of the individual, increasing as the age increases. Therefore, a person 30 years of age should show a blood pressure 50 years of age should show a blood age of 70 the blood pressure should be approximately 170. Anything beyond

KIDNEY INVOLVEMENT.

continually being taken into the body fluids in the form of drink and food, and that these fluids are absorbed in the walls of the stomach and intestines. ultimately finding their way into the This article states that the by-law is proud, H. A. Secord.-North of Spring- held in a continual state of balance tinually void urine which also comes as they do in many forms of kidney disorder, a double burden is thrown upon the skin and if it is unable to carry this burden, the result is an in-

creased blood pressure THE HEART IN HIGH BLOOD

PRESSURE. The heart should normally send out a certain, definite amount of blood in each minute. If it becomes too active and contracts too often the amount of blood is increased in quantity and the pressure is consequently increased in the blood vessels. If, through some disturbance in the nervous mechanism, the heart contracts too forcibly, the same result occurs. Thus an abnormal heart action is very often the cause of high

There is usually a shortness of breath, dizziness when the patient suddenly changes posture, singing or ringing in the ears, difficulty in concentration of mind, and very often symptoms which affect the heart. The heart symptoms the heart action to an intense pain in the heart, or even heart failure. Sometimes, too, there may be a grave tendency to disease of the lungs or congestion in the eyes. Possibly

surd to contend that in the spine would be found the cause of high blood pressure. Upon second thought it is neither absurd nor unreasonable. On the other hand it is the most logical conclusion to be reached. First it must be realized ess.

"Again, why would the Board of avenue and Wharncliffe road.—10.15 to be reached. First it must be realized that every organ in the body is dependmay function properly. One could not contract a muscle in the arm if all nerves leading to that arm were cut. Let these nerves be pressed upon and the function is hindered in proportion to the degree of pressure. So it is with the heart. If the nerves leading to the heart are pressed upon, the heart discloses an abnormal pressure. If the nerves leading to the kidney are pressed upon, this organ is abnormal in its function. So it is with the skin, with

the brain, or any other organ. To reverse our reasoning, any abnormality in the kidney, in the brain, in the skin, in the heart, or in the blood vessels, is proof positive that these organs are not receiving their proper supply of nerve energy and that an interference exists somewhere along the line of communications. This interference can only exist where the nerves leave the spine through small openings between adjacent segments (small bones), of which the spine is composed. When one of these segments is in an abnormal position, the chiropractor is able to detect it and his special training fits him to restore it to the normal so that free transmission of nerve energy through the nerve may prevail.

EXPERIENCE. Experience has proved time and again in thousands upon thousands of case that Chiropractic is able to adjust the cause of these conditions and restore blood pressure to normal. Perhaps you have tried many other systems and all basis than any other health system. It The conservative morning newspapers has advanced with such rapid strides merely discuss how the president will that to-day it is the foremost non-BERLIN, June 2.—Chancellor Marx resign and what the consequences therapeutical method in existence. Government organs, like The Echo de which chiropractors are more universally successful than that of high blood pressure and this is true because the

of such abnormal conditions REGULARITY IN ADJUSTMENTS

The segments of the spine which by their abnormal position cause functional disorder and high blood pressure have, as a rule, occupied that abnormal position for a considerable length of time. will remain without a Government, It cannot be expected that the chiropractor will immediately restore these segments to their normal positions. Repeated adjustments are necessary. But
