Standard, N. B. Resolved. That the thanks of the Committee of Management of the Quelice Mechanics Institute be given to those Editors and Publishers who have supplied the rouns of the Institute with their Newspapers, and that the Secretary do ferward a copy of this resolution to the different Editors with a request that it may be published in their several papers.

The following is an extract from a letter written by Mr. Thomas Redmond one of the Courch War-dens in the Parish of Grand Manan to the Rector. Grand Manan, April 23, 1836. REV BIR.

Rev Siz.

I presume you will have heard before this reaches you, of the stroctous stiempt made by some persons, to burn the Church; but by the kind interpesition of Divine Providence the fire was discovered before any material damage was done.

On Sunday evening last, about 8 o'clock the Bellry was discovered to be on fire, by Massrs. Craig and Wonster, who hastening to the place, succeeded by the help of several others in extinguishing the flames, the fire appears to have been communicated to sems Oakum and plainings that remained since the Belfry was calked.

The incendiary entered the church Ahreughout the tower window on the south side, and it is judged the fire could not have been there, overten or fittes minutes, and that ten minutes longer would have insured success to the diabolical deed.

DIED

At St. John, on the let inst. after two years paid Alst. John, on the intrust.
