

Miscellaneous.

The Rev. Thomas Spurgeon, a son of the great English Baptist clergyman, is preaching to crowded audiences in Australia.

A boiler in Strong's foundry, Hammond lane, Dublin, exploded on Saturday, the adjoining house was destroyed, and 15 persons killed and 12 wounded.

ATLANTA, Ga., May 3.—Mrs. Kate Southern, who fatally stabbed Miss Cowart in a hall room in Pickens County in a fit of jealousy, has been sentenced to be hanged on June 21st.

A. B. Robeson, of New York, can hold a hen convention in his yard any day. He keeps 6000 ducks, 4000 turkeys and 1200 hens, and they consume sixty bushels of corn, two barrels of potatoes, and other food daily.

The Cossack hopes to go in swimming in the Thames about the 15th of August. "Clarion Journal." And in September the British grenadier will be ordering "air" all in St. Petersburg.

BERLIN, April 30.—It is understood the ceremony of the betrothal of the Duke of Connaught, third son of Queen Victoria, to Princess Louise, third daughter of Prince Frederick Charles of Prussia, will occur at Darmstadt on the 9th of May.

A London policeman, aged twenty-two, lately reported seven fires within thirty hours. Such amazing activity excited suspicion that he had originated the calamities himself for the informant's reward, and this being proved to the satisfaction of the jury, he has gone to penal servitude for fifteen years.

Another mystery has been cleared up.—Isaac Blake was returning from New Brunswick to Maine some fifty years ago with \$1,500 in his possession, obtained by sale of cattle. He stopped at a tavern in Glenburn one night, and thereforth all trace of him was lost. Some days ago a man aged seventy died in Atkinson, confessing that he had killed Mr. Blake for his money.

The Montreal "Times" reports the sudden death of the Rev. Mr. Taylor, Presbyterian Minister, of Bass River, Kent Co. Mr. Taylor was entering the door of his church on Sunday last when he dropped dead. Mr. Taylor came from Scotland some five or six years ago, to Ontario, where he married at Spencerville. He had been stationed at Bass River about seven months.

English farmers are rejoicing in the prospect of the first good season they have had for four or five years. Accounts from all parts of Great Britain agree in saying that the land was never in better order, and that the spring crops were never put in with a better chance of success. Grain is cheap, but the farmers do not care much of it, while stock is very dear, notwithstanding that there is an enormous lot of roots left over.

The Yosemite Valley is a dreary place in winter, and almost inaccessible by reason of the great depth of snow that drifts into it. Mr. and Mrs. Snow keep a hotel there, and live in it the year round. The two men of Great Britain who first entered the valley this year reached the hotel with much difficulty, and the landlord, with his wife and dog, were overjoyed by the sight of a strange face after six months of isolation.

Russia has a wonderful Swedish gun for use in its fleet. It is worked after the manner of a pianoforte playing, moves to and fro in a section of a circle and sweeps all the ground that it covers in a most marvellous manner. It is something like sweeping a lawn with water from the jet of a garden hose moved right and left by the operator, and can be carried up into the masts for firing on the enemy's deck and its side fortifications. In close quarters it would sweep the enemy's deck of combatants.

According to the St. John "Globe" the office of Lieut. Governor of New Brunswick has to go begging. Mr. Tilley will not accept another nomination, Mr. Albert J. Smith and Hon. Mr. Burpee prefer their present positions; it is believed that Mr. Anglin does not care the price; and, indeed, says the "Globe," among our prominent men in the general line of politics we doubt if any one could get the office would be willing to take it. In such an emergency the best way is to advertise for persons willing to accept the positions, stating amount of salary, &c.

A house in San Francisco was partially burned, and after the fire had been extinguished a woman and her two children were found dead in their room. There was sad evidence of her hard, hopeless struggle to save herself and her little ones. Their room was in the centre of the house, and lighted from the roof, so that no windows gave a chance of egress. The only door opened into a hall in which the fire burned fiercest. The children were lying in a corner, covered with wet blankets. The mother had tried to protect them in that way while she thought to dig through the wall. She had torn off a large quantity of plaster and lath, but had fallen from suffocation.

PARIS, May 1.—The ceremony of opening the International Exhibition of 1878, took place to-day with great success. The ceremony of opening began at 2.30 in the afternoon, at which time the sun was shining brilliantly. The crowd was immense and enthusiastic in spite of the alterations of rain throughout the week. Cries everywhere were heard of "Viva la République" and "Viva la France." Among those present were the Prince of Wales, Don Francisco d'Assis, father of the King of Spain, Duc D'Asota, brother of the King of Italy, and ex-King of Spain, Prince Frederic, Crown Prince of Denmark, Prince of Orange, heir apparent to the throne of Netherlands, and Prince Henry of Holland.

Telegraphic News.

EUROPE.

LONDON, May 3.—The situation is regarded as decidedly improved during the last 24 hours, owing to Russia showing a conciliatory disposition.

It is stated the Russian general Tshernyeff is appointed commander of an Indian expeditionary force of fifty thousand men, intended to advance on Cabul and Afghanistan.

It is rumored at St. Petersburg that Gortschakoff has resigned the Secretaryship of Foreign Affairs, but it needs confirmation.

The Bank of England return is regarded as unfavorable, the proportion of reserves to liabilities having descended to an extraordinarily low figure. The "Financialist" says that there should be an active foreign drain of gold, the Bank's minimum rate of discount might be expected to leap to 5 per cent. in a week. The rate is now 3.

MANCHESTER, May 3.—Of seven battalions of the Guards, three, namely, 1st of the Grenadiers, 1st of the Coldstream, and 1st of the Scots, are recruited to their full strength. Their baggage and arm chests are all packed and ready for instant removal. The ranks of the other four battalions are being filled up to 1000 strong.

CALCUTTA, May 2.—Mr. Cooper, British political agent at Bham Atot Bhamo, in the Kingdom of Burma, and two assistants have been murdered by the sepoy guard. The assassins were arrested. There is no reason to suppose that the assassination was the result of a native political plot.

VIENNA, May 2.—The "Zeitung" says that Russian troops near the Transylvanian frontier it will become necessary for Austria to take precautions. The question of the ceded fortresses, but as yet without result, Safvet Pasha declaring that the Russians have not carried out the San Stefano treaty.

LONDON, May 2.—A Berlin telegram from Constantinople says the Russians of late have frequently violated the Balafr lines of demarcation.

The "Standard's" correspondent at Constantinople reports that the Russians are purchasing Batum, intending to attack it not surrounded. Refugees in a deplorable condition continue to arrive in Constantinople. The international committee for Washington to confer with the Turkish mission is regarded as decidedly conciliatory.

The report is widely current that the Russians have ordered eighty trains for homebound bond troops.

A special from Alexandria says about 30 trains from Constantinople are expected at Suez by May 17th.

A Berlin correspondent telegraphs that official intelligence has been received that Mr. Quidde's report of the "Times" reported to have been murdered near Volo, fighting in the insurgent ranks and was not murdered.

The bulk of the German navy is assembling at Wilhelmshaven to avoid being shut up in the event of England blockading the Sound.

The Paris "Patriot" says it is rumored persistently in Constantinople that the Russians have concluded an offensive alliance with England.

LONDON, May 5.—The British Government has ordered one million pounds' worth of lint and other appliances for the wounded.

Hohart Pasha dined with the Queen at Windsor Castle yesterday.

LONDON, May 6.—An enormous fire is raging in the vicinity of the American steam-mills and nine or ten houses are already destroyed. The flames have not been subdued owing to want of water.

WASHINGTON, May 5.—The Government has received no official information concerning the reports of the prospective Fenian invasion of Canada.

BOZAR, May 6.—A Russian naval officer and his wife, of Boston, who had been in Russia some time, arrived in New York on Saturday. They are accredited by the Russian Government with a mission to purchase fast steamers. They left for Washington to confer with the Russian Minister, accompanied by an American ship-builder, who has recently been to Russia. Ten other Russian naval officers will follow these. Some fifty ships are to be purchased, the crews to be drawn from those on the Cimbric and other vessels, and to be filled by enlistments in this country. The agents have a complete list of all the available American steamers. The Cimbric will probably leave Maine in a few days by orders of those agents. She is likely to stay at Elsworth for several days, as an engineer is having the footsteer overhauled.

NEW YORK, May 3.—A terrific mill explosion and fire, including five flouring mills and one planing mill, occurred in Minneapolis, Minnesota, yesterday, by which at least seventeen persons, including their lives, and it is feared a greater number have perished. The loss of property is enormous. A rough calculation places it at a million and a-half dollars, of which a million will fall upon the milling interest. The loss throughout the city by the breaking of glass, etc., is \$10,000. Five flour mills and a planing mill were destroyed, besides adjoining property, including 17 out of 197 runs of stones in the city.

NEW YORK, May 4.—There have been unusual heavy transactions in copper during the past week, supposed to fill carriage contracts for Europe.

There are rumors of purchase of steamships by Russian agents here; also, that a dozen or two English detectives are digging the footsteps of the Russians and the Irishmen or in other cities; also, that the Fenians are holding secret meetings and have got into a wrangle whether to use dynamite to blow up Quebec and Montreal with, which is said to be Ross's sanguinary plan, or to wage open warfare on everything British by land or sea, which is said to be the plan of one Burke. The Boston police have discovered that the murder of the boatman Ferrin, whose body was found a few days ago with a quantity of chain and a carpet bag full of iron attached to it, was committed on board the schooner Mary B. Harris, of Machias, Me., while anchored near the Erie Basin. Capt. Crawley left her there in charge of two sailors and did not return until four days after Ferrin disappeared. He then sailed for an Eastern port, where he is soon expected to arrive. One of the men, who left the schooner, was traced by

the Brooklyn police and arrested last night. It is reported that he confessed the crime this afternoon. The man is kept in close confinement, as the neighbors of the murdered man threatened to lynch him if released.

A Washington despatch says the English Minister, Sir Edward Thornton, is fully aware of all the movements of the Fenians, and that James Cassidy, of Boston, is now near Niagara Bridge arranging for a movement in case of war with Russia. Sir E. Thornton is represented in another despatch as saying that he "does not believe there will be any war, but still thinks it well to be fully prepared."

NOVA SCOTIA.

TRURO, May 4.—An explosion of twenty pounds of dynamite powder took place this morning in a barn owned by Mr. John Ross, near the parade, occupied by some colored people as an out-house. A barrel of ashes was also kept in the barn. A seven-year old girl had been sent out to empty ashes, which she put in the wrong barrel. The explosion knocked her out of the barn causing great fear to fall on which was followed by a lot of agricultural implements. The child was extricated from the ruins somewhat severely burned and otherwise injured, but miraculously escaped with her life.

CANADA.

OTTAWA, April 26.—The House continued in Committee of Supply.

On the items for public works in Nova Scotia, Sir John Macdonald said the items were nearly all new votes and represented a sort of political barometer for the next election.

Mr. MacKenzie replied that in such a case, if it required the amounts named to secure the member's seats in Nova Scotia, he notified them the Austrian army in Transylvania is being seriously considered.

The following Nova Scotia items passed after a protracted debate: Annapolis Park, \$1,500; Morden, Kings Co., \$1,000; Bessing Point, Guysborough Co., \$3,000; Cow Bay, C. B., \$1,000; Bayfield, Antigonish, \$3,000; Scott's Bay, Kings Co., \$3,000; Canada Creek, Kings Co., \$3,000; Pudding Pan, Queens Co., \$6,000; West Arichat, Richmond Co., \$6,000; Somersetville, Queens Co., \$5,000; Hampton, Annapolis, \$3,000; Dalry's Cove, Annapolis, \$4,000; General repairs \$15,000.

Besides these, re-votes were taken for the following: Antigonish, \$5,000; McNair's Cove, \$5,000; White Point, \$3,500; Jordan Bay, \$2,000; Meteghan Cove, \$3,000; Belliveau, \$3,000; Total, \$83,500. Items for dredging, \$110,000, passed. The Premier said he intended to purchase or obtain another dredge to overtake the work of improving the harbor in the Maritime Provinces coasts. These dredges would not be used with discrimination against Northumberland, as two deep sea dredges would be used this year at St. John, N. B., and Miramichi River.

OBITUARY.—On Wednesday morning last, at his residence, Plympton, Salsine Savary, Esqr., father of Judge Savary, of this town. The deceased was a native of this County, and has lived all his life on the homestead of his father, at Plympton.—"Digby Courier."

W. & A. RAILWAY.—The Windsor and Annapolis Railway Company has recently made another great improvement in its road by the completion of the earth fillings at Earl Creek, near Hantsport. The trains now run on terra firma from the W. & A. to Miss Maggie Copeland, daughter of the late Thomas Copeland, both of Annapolis.

MESSENGER.—CHALTON.—On the 24th ult., by the Rev. W. J. Blakey, Mr. Lemuel Messenger, of Paradise, to Miss Susan Charlton, of South Williamston.

PHINEY.—PHINEY.—On the 25th ult., by the Rev. W. G. Parker, Mr. Wm. H. Phiney, of Paradise, to Miss Helen Phiney, of Lawrence town.

DEATHS.—At Elmstead, April 1st, John Kennedy, aged 78 years. Formerly of Annapolis, N. S.

DEATH.—At the Cross Roads, Albany, on April 12th, of Heart Disease, Mr. Richard Durland, aged 77 years.

Another Abduction Case—A Small Boy Missing.

A young man named Herbert Crockett, was arraigned at the Portland Police Station yesterday morning on a charge of abducting one or two boys. Crockett, it is said, has created a camp on the Manawagonish Road; and has been endeavoring to induce little boys to go and live with him. It is asserted that Crockett after getting one of the boys in his company, had the boy with him offered him for sale. He told one little boy if he would go with him he would pay his way to Calais. A young lad named Alfred Lordy has been missing since Saturday night. It is thought he has been secreted by Crockett. When last seen it is said the boy was at the camp. A number of small boys were examined, after which a reasonable doubt as to the truth of the case was postponed for a week. On Crockett learning that he would have to remain in jail for a week he burst into tears, but on his going into the lock-up they were soon dried.—"St. John News."

How the English Obelisk is to be Erected.

On the 28th ultimo preparations were made for taking down the upper portions of two massive granite pedestals which stand on each side of the spot on which the obelisk is to be erected. The excavation has been carried on satisfactorily for the space to be occupied by a floor of concrete of great solidity and strength, destined to support the weight of the obelisk and its massive granite pedestal. The expense of making this foundation will be born by Mr. Dixon, the contractor. The other expenses will be born by the Metropolitan Board of Works, including £1,500, the cost of two sphinxes, which are to be placed on the lower granite pedestals at each side. The plan adopted by the Romans as well as the French, at the commencement of this century, for raising the obelisk upon its pedestal, was simply that of hauling the end into the air by ropes. This, however, required a large number of capstans and ropes, and Mr. Dixon proposes to accomplish his work by means more suited to an age of mechanical ingenuity. He proposes putting round the obelisk an iron jacket, tightly wedged, so as to prevent it from slipping. This jacket would have a pair of runways projecting at the sides. The needle will then be raised by hydraulic presses and supported by a strong scaffolding of timber from time to time, as the elevation increased, until it shall have been lifted to the required height above the pedestal. Two iron girders will then be placed under the runways, the obelisks will then be slung into an upright position, and lowered upon its resting p. face.

WOLF CURING.—A good thing comes from Mount Allison. It appears that there is a young man from Yarmouth, attending school there who is not so devoted to his studies as he should be, and would like an opportunity to get home. He recently telegraphed to his father—"Diphtheria prevailing, bad type, who shall I cherish, my studies or my home?—I shall do as you direct." The young man will remain at school until the close of the term, when he will be allowed to go home if the diphtheria does not rage too badly.—"St. John Globe."

THE MOST VALUABLE GIFT.—RESTORATION OF THE HEALTH. During the past ten years the Great Siamese Remedy has faithfully redeemed every promise and guarantee made to it. Have less cases of Lung Diseases, Dyspepsia, Liver Complaints, affections of the Kidney and Chronic Complaints of every description, including Rheumatism and Skin Diseases. This efficacy has been fully proved by a life-long duration, have been permanently removed and eradicated. Those who volunteered their testimony to the efficacy of the Remedy are not bogus people in unbelief of localities of foreign states, but respectable citizens of this Dominion, easy of access and open to question, upon whose verbal recommendations we are willing to rest the reputation of the Great Siamese Remedy. If you are afflicted do not delay until medicine may be powerless to aid you. No injurious effects can possibly follow the use of the Siamese Remedy, as they are purely of mineral origin, but the use of the invalid is so often sealed under the form of some temporary sedative or stimulant. These Indian Remedies are widely known and still possess the public confidence after the lapse of sufficient time to test the efficacy.

The Siamese Vegetable Sugar Caramel Pills have won for themselves the most favorable reputation of any pill before the public. Their efficacy has been fully proved as a Remedy for Biliousness, Sick Headache, and Inactivities of the stomach. Price of the Remedy in pint bottles \$1; in 25c. a box. W. W. Chesley, Bridgetown, N. S.

DOCTOR GILES: Your Liniment is the best I ever used; it cured my Rheumatism when every other remedy failed to do so. I have spent hundreds of dollars, and one fifty cent bottle of GILES' LINIMENT IODINE OF AMMONIA cured me. JAMES A. CURRY, Carriage Factory, 418, 420 and 422 Freeman St., Cincinnati, Ohio.

For sale by Dr. Joseph Dennison, Bridgetown.

NOTICE: HOW TO RAISE THEM PROFITABLY.—Being the Practical Details, from Selection of Seed and Preparation of Ground to Harvesting and Marketing the Crop, given very plainly by Seventeen Practical Union Growers of long experience, residing in different parts of the United States.
