

THE Canadian MINING REVIEW

Established 1882

Vol. XVII.—No. 2.

MONTREAL—OTTAWA—HALIFAX.

FEBRUARY, 1898.

WHY are some mines using hand drills when a power machine will save them the labor of 6 to 10 men.

WHY do other people use steam for running drills when a large saving can be made by using compressed air.

WHY are old type and un-economical compressors in use when a saving of 15 p.c. or more can be obtained by modern plant

WHY not write for information and data to any of the branch offices of

CANADIAN RAND DRILL CO. MONTREAL.
