

Why not try WYETH'S MALT EXTRACT?

Doctors highly recommend it to those

Who are run down;
Who have lost appetite;
Who have difficulty after eating;
Who suffer from nervous exhaustion;
And to Nursing Mothers,
as it increases quantity and
improves quality of milk.

Kitchen Range, because the fire can
be so quickly shut down when not
needed. It burns very little fuel, and
when kept in over night the fire and
oven are just as good the next day.
And what's more, a patent flue keeps
the oven always EVENLY HEATED
THROUGHOUT. Just think what
that means!

MISCELLANEOUS.

The Chinese have an academy of man-
ners that prescribes etiquette for the
whole empire.

The population of London, taking the
city at its greatest extent amounted in
1891 to 4,766,661.

The most intricate piece of clockwork
in the world is the great astronomical
clock at Strasburg.

The body must be well nourished now
to prevent sickness. If your appetite is
poor take Hood's Sarsaparilla.

The earliest library was that of Nebu-
chadnezzar. Every book was a brick,
engraved with cuneiform characters.

The most perfect echo in the world is
said to be that at Shipley, in Sussex, South
England. It will repeat twenty-one
syllables.

The largest clock in the universe is to
be placed in the tower of the city hall in
Philadelphia. That city owns also the
most costly city hall in the United States.

Among modern nations, the greatest
eaters are the English, the Germans, the
French and the Americans. The Ameri-
cans are, on the average, the greatest eat-
ers in the world.

In Europe about 55,000,000 acres of
barren land have already been made fruit-
ful by irrigation; in India 25,000,000;
in Egypt about 6,000,000, and in the
United States about 4,000,000 acres.

In France it is forbidden, under severe
penalties, for any one to give infants
under one year any form of solid food
unless such be ordered by written pre-
scription, signed by a legally qualified
medical men.

Tching-Tchang, formerly Secretary of
Legation in Paris, has been appointed
Minister to France. Hitherto one Minis-
ter has represented China both in Paris
and London. Separate Legations have
now been established.

One of the interesting things to be seen
at Atlanta, Georgia, outside of the Exhi-
bition, is a house said to be constructed
entirely of paper from foundation to
chimney. Georgians say this is the only
house of the kind in the country.

Convicts in the Michigan state prison
are allowed to keep birds, and as a result
of this there are fully 600 feathered song-
sters in the prison, all owned and cared
for by the prisoners. Their carolings in
the morning are one of the odd features of
life at this institution.

The colored women of Tuskegee, Ala.,
led by Mrs. Booker T. Washington, are
making vigorous efforts to have the con-
cession to a saloon in the negro building
at the Atlanta Exposition withdrawn.
They declare that the presence of a saloon
in that building is an insult and disgrace,
and they want "this disreputable traffic
discontinued."

A BAD WRECK

—of the constitution may follow in the
track of a disordered system, due to im-
pure blood or inactive liver. Don't run
the risk! The proprietors of Dr. Pierce's
Golden Medical Discovery take all the
chances. They make a straightforward
offer to return your money if their remedy
fails to benefit or cure in all disorders and
affections due to impure blood or inactive
liver. The germs of disease circulate
through the blood; the liver is the filter
which permits the germs to enter or not.
The liver active, and the blood pure, and
you escape disease.

When you're run down, debilitated,
weak, and your weight below a healthy
standard, you regain health strength, and
wholesome flesh, by using the "Discov-
ery." It builds up the body faster than
nauseating Cod liver oil or emulsions.

Dr. Pierce's Pellets cure constipation,
piles, biliousness, indigestion, or dyspep-
sia, and headaches.

It is now proposed that the roofs of
schoolhouses in New York City should be
utilized as playgrounds, and in the plans
of a new school 10,000 feet of space is
allotted thus on the roof for this purpose,
at an added expenditure of \$4,000.

A nine-year-old negro girl is preaching
three sermons daily to large audiences in
South Carolina. She is said to have all
the style in voice, intonation, delivery and
gesture of an experienced pulpit speaker.
Black and white people mingle at her
meetings, and four or five ministers are
frequently in attendance.

The *Scientific American* says that
most medical men consider that a cold
bath every morning is apt to do more
harm than good to any but persons of a
very vigorous constitution. The sensible
thing to do is to see that the temperature
of the water in cold weather is not lower
than that of the air. A daily bath is a
most healthful practice, but it should not
be so cold as to give a shock to the system.

A new apparatus has been constructed
to prevent collisions at sea. The inven-
tion consists in so constructing and sta-
tioning a set of electro-magnetic coils, on
board a vessel, that they will influence
a chemically prepared needle a good
distance away on board of another vessel,
to that extent as to release a spring that
sets a bell to ringing as a warning of
danger. A test has been made that
covered the distance at sea of six miles.

A process has been patented in Ger-
many for making a substitute for the
natural skin for use on wounds. The
muscular coating of the intestines of ani-
mals is divested of mucous membrane,
and then treated in a pepsin solution until
the muscular fibers are half digested.
After a second treatment with tannin and
gallic acid, a tissue is produced which can
take the place of the natural skin, and
which, when laid on the wound, is entire-
ly absorbed during the healing process.

HOOD'S IS WONDERFUL.

No less than wonderful are the cures
accomplished by Hood's Sarsaparilla, even
after other preparations and physicians'
prescriptions have failed. The reason, how-
ever is simple. When the blood is enriched
and purified, disease disappears and good
health returns, and Hood's Sarsaparilla
is the one true blood-purifier.

Hood's Pills are prompt and effi-
cient and do not purge, pain or gripe.

Thousands of people have congratulated
Mr. George Muller on reaching his nin-
tieth birthday on the 27th ult. Many of
the letters he received contained cheques
from former inmates of his Orphan
Houses. These have been prosperous since
they went out into the world, and the
offerings which they sent to their aged
benefactor were intended to be some re-
cognition of the help they had received in
early life. Mr. Muller has stated that
the total amount of money "received by
prayer and faith" for the various objects
of the institution, since March 5th, 1834,
up to May 26th, 1895, has been £1,373.
348 6s 2½d. By this sum 120,763 per-
sons have been taught in the schools sup-
ported by the funds of the institution.
