Drug Rports.

Canada.

There is very little of special importance to note this month. Business has been quiet in most localities. Camphor is easier in price, but no serious decline is looked for; Glycerine is firm; Cream of Tartar also remains firm at previous quotations; Balsam Tolu is higher. Egot remains very low; Gum Arabic promises to be dearer on account of the trouble in the Soudan; Castor Oil is firm in price; Linseed Oil somewhat easier; Cod Liver Oil, Norwegian, still advancing. Essential oils are for the most part advanced in price.

England.

London, May 27th, 1896.

Business is reported as dull on all hands, and only a jobbing demand exists. Cod-liver oil has turned the corner and bids fair to descend almost as rapidly as it ascended in price. The season is over for cod-liver oil in England, and citric and tartaric acids as ingredients of popular summer drinks are in request instead. Both of these are at high prices. Camphor has also come down with a run, manufacturers having reduced prices twice during the month. Salicine shows a substantial advance and atropine is slightly

dearer. Saffron is dearer, but as the new crop is shortly expected, it is probably only a market scare. Great efforts have been made to put up gum acacia, but with only indifferent success. Ipecacuanha, jalap, and opium are unaltered, but the latter is reported firmer at Smyrna.

Bret Harte's new story and Jerome K. Jerome's latest piece of fiction have both been secured by *The Ladies' Home Journal* for immediate publication. Jerome's story is called "Reginald Blake: Financier and Cad," and sketches an incident in fashionable London society. Bret Harte calls his story "The Indiscretion of Elsbeth," and pictures the romance of a young American who falls in love with a German princess, masquerading as a dairy maid.
