was well attended, and very ably con-, that Christ died for sinners; and that and since subscribed amount to nearly £30,000. They also have published valuable class-books, and greatly improved their school depot. The public examinations of the children of their schools are very highly spoken of, and they have lately also had an examination of their teachers in training. This is quite novel, but what is true and what is false. Thus, doubtless the example will be extensively followed. These things prove that they quire the habit of constantly giving up are moving onward, and it is somewhat at their own notions and inclinations, when a railroad pace.

And now to proceed to what is proposed: the Wesleyan Society are entering the field; they contemplate raising £200,000., and the formation of a training establishment exclusively for their own denomination. They have yet their work to begin, but we must expect soon to have them amongst us. The Congregationalists, or Independents, as they are called, are following the example of the Wesleyans, and have agreed to raise £250,000. believe they have already got more than half that sum, and it is reported that they also have it in contemplation to form training establishments. In that case, we shall have four central training establishments-reckoning all those of the National Society as one-directing their attention to the education of teachers, besides the diocesan and other country establishments, of many of which very gratifying accounts are published .- Mr. Reynolds, at the Meeting of the Teachers of the Home and Colonial Infant School Society.

ROME, WHERE SHE HAS THE POWER. Hearing that Leghorn was a free port, we thought that it might be free to receive the gospel; and accordingly without reserve, gave tracts to each of the eight men who carried up our baggage, and to some by-standers. Scarcely had an hour elapsed, when an officer was at the inn, making inquiry if we were the persons who had been distributing these books. Our box of books and tracts, and our bag of Hebrew books, were immediately sealed up and carried off, and the two elder members of the Deputation summoned to appear before the Commissary of Police without delay. After a long examination, it was decided that the books and tracts be sent to the censor at Florence, and that until his report be made, we [Six days later.] We had now taken out

our passage for Malta, and were preparing to sail next day, when we were all summoned to appear next day before the Police to receive the sentence passed upon us and our books. The censor had examined and condemned our books. The two elder brethren were therefore commanded to leave Tuscany without delay; the two younger, being supposed to act under their direction, were not commanded, but only requested to do the same. Many of our tracts were restored to us, but all the copies of Dr. Keith's work on Prophecy were detained; because it contained interpretations opposed to those of the Church of Rome. And thus we were dismissed. We afterwards learned that a sentence of perpetual banishment from Tuscany had been pronounced against us all—a sentence we could easily bear, but one that proves Popery to be still the silencer of the witnesses, and the deadly enemy of the

The Jews were considerably interested in our case; and perhaps it was permitted in or-der to show them that Popery is equally the enemy of Protestantism and of Israel. The return of the Jews and the fall of Popery are two events that seem intimately connected in prophecy. It was therefore well ordered that in seeking the lost sheep of the house of Israel, we should meet with treatment at the hand of their oppressors, fitted to awaken in us the cry, "How long, O Lord!" (Ps. LXXXIX, 46; Rev. vi, 10.)-Narrative of a Mission of Inquiry to the Jews from the Church of Scotland in 1839. The Rev. Drs. Black and Keith, and the Rev. Messrs. M. Cheine and Bonar were the honoured offenders.

THE BIBLE SAYS SO.

We cannot begin too soon to commumicate principles to the young, which will govern their minds for life. Lasting impressions are made on them at a much earlier age than many persons suppose. It is remarkable, that the most important and sublime truths are, at the same time, the simplest. For instance, a very young child may be taught that there is a God, that we are made to do his will; that we' are all sinners; that there is a judgment; our East Indian possessions.

ducted. I believe the funds at that time | those who love God shall be for ever happy in heaven.

Children should early be taught that the Bible is the great authority; and that when it speaks on any point, the question is settled for ever. They should be taught to go directly to the Scriptures, to find what is good and what is bad, with the blessing of God, they will acthey find a plain declaration of Scripture. I therefore think it a good sign, to hear a child often use the expression, the Bible says so .- Western Episcopalian.

SABBATH-PROFANATION.

To the Editor of the Berean. Sin,-In your excellent paper you have occasionally noticed the different ways which exist of infringing the sanctity of the Lord's Day, and pointed out the inconsistency of professing Christians devoting any portion of that day, either to the pursuit of pleasure, or in attending to their usual daily avocations. Now, Mr. Editor, I do hope that among Protestants of all denominations and opinions, there is no class which would allow such a thing to take place, as the sale of property at the church door, immediately after Divine Service on the Sabbath-day; nor, in fact, should I have imagined that this practice would be tolerated among any denomination of professing Christians, had I not perceived, in looking over the last Canada Gazette, an advertisement notifying such a sale, to take place at Montreal, under the sanction of the Commissioner of Bankrupts "at the door of the parish church, on Sunday, 8th December next, immediately after divine service in the afternoon." The parish church is understood to be that belongng to the Church of Rome.

It is generally understood that Sunday is a "dies non" in law, and it might perhaps be tion, but in the presence also of his Majesty asked whether a sale effected on that day can be considered as legal, but with this I have no and I write this letter officially by order of the wish to interfere—it is with the glaring fact of King of Bokhara, to whom I give a translation. a congregation of Christians (for such I sup- and therefore confine myself only to the most pose they must be taken to be,) being invited, necessary topics, without comment and withimmediately on their departure from their out observation. house of worship, to become immersed in "On the 29th thoughts of a worldly bargain, instead of by the medium of the above-named Nayeb, returning to their homes in a proper decent and in the presence of Mullah Kasem, the manner. Can it be possible that the priests King's Mahram (private chamberlain), that he allow such a proceeding ?—if so, can they be had put to death, in the month of Saratan, true servants to Him, who drove from the tembuilding in buying and selling merchandize, deathand have they any remembrance of that commandment which says "thou shalt do no manner of work on the Sabbath day?

Your obedient Servant, OBSERVER.

[There can be no doubt that, if the R. cathoic priesthood chose to prevent the profanation referred to by our Correspondent, they have influence enough to do so; and as long as they tolerate the continuance of the practice, on them chiefly lies the responsibility. But it is only of a piece with other instances of making the Lord's commandment of none effect, while human traditions are zealously enforced .- EDITOR.]

We beg leave to acknowledge the following payments to the Berean since our last publication :-

From Major Beete, 12 months; Rev. P. J. Maning, 12 months; Messrs. Turnbull, 12 months; Amos Hall, jr., 6 months; Joseph Hulbert, 6 months; John Wilson, 6 months; George Stewart, 6 months.

To Cornespondents.—Alpha, crowded out this time.—Rev. E. W. S.: it will do our heart good to write, if we can but find the time.

THE POST OFFICE has been removed to the

English Mail-To be closed on Wednesday, the 28th inst: Paid letters until 7 p. m.; Unpaid till 9 p.m.

Political and Local Intelligence,

The Steamship Unicorn arrived late on Tuesday evening, bringing English dates to the 4th inst. From Willmer & Smith's European Times and other journals, we give our usual summary of the news. The accounts of the crops are very encouraging both as to condition and extent; the consequence has been a considerable reduction in the price of wheat and flour. The Cotton market continues stationary, with a good demand. Business is brisk in the manufacturing districts and money still plentiful. Nothing of any importance has occurred in the Parliamentary proceedings since the last mail, and the Houses were expected to adjourn. Her Majesty continued at Windsor Castle in good health, and her accouchement was daily anticipated.

SABBATH OBSERVANCE.—Sir A. Agnew is again to bring before the notice of the Directors of the Edinburgh and Glasgow Railway company, the subject of travelling on Sundays. For this purpose he is soliciting the proxies of distant shareholders.

Public Baths.—The city of Dundee in Scotland is introducing these desirable improvements for the poor; towards which Lord Kinnaird has given £100.

IRELAND .- Lord Heytesbury, the new Lord Lieutenant, had arrived and been well received. The country was very quiet. Kildare, Carlow and Queen's County assizes occupied only a day each! The Repeal association continued to hold their meetings, but the proceedings were entirely without interest. The rent for the week was £1,000. Dr. Murbidden his clergy to read from the altar the form of prayer lately published, for Mr. O'Connell, which had excited some surprise paratus to the apartments granted for their use ray the R. C. Archbishop in Dublin had foramong the repealers.

INDIA. The overland mail brings dates

France.-The difficulties between this country and Morocco are not yet adjusted, and there has been another attack made by the Moors on the French, in which the former were defeated. The French General, Marshal Bugeaud, has no hope of terminating the differences except by force of arms. The English Consul-General Mr. Hay, has lately gone to Morocco, to endeavour to effect an amicable settlement of the question, and his success or failure is anxiously looked for. His Majesty Louis Philippe, it is said, will visit England in September.

The proceedings of the French at Taihiti seem to have caused a good deal of feeling in England, and the English Consul at the slands has returned in the Vindicative. He is stated to have been imprisoned by the French and to have obtained his liberty, only upon condition of leaving the islands.

SPAIN still remains in an unhappy and disturbed state. It was reported that martial law was again to be proclaimed throughout the country. The Government were proposing to send an expedition against Morocco.

The King of Prussia narrowly escaped assassination at the hands of a man named Tscheck, a burgomaster, who fired at him with a pistol. Providentially the King escaped unhurt.

An attempt was also made to kill the King of Greece by a sergeant of gendarmerie, but did not succeed. The man proved insane.

THE JUSTITS .- At the instance of the Rusian Ambassador, a royal order has been issued in Persia, requiring the Jesuit missionaries immediately to withdraw from that country.

DR. WOLFF.-The result of this gentleman's mission to Bokhara is stated in the Malta Times on the authority of a letter from Colonel Sheil: Colonel Stoddart and Captain Conolly were publicly executed in July,

" TO CAPTAIN GROVER.

" I write this letter in the house of Nayeb Samet Khan, the chief of the artillery and arsenal of his Majesty the King of Bokhara, a sincere and excellent friend of the British nathe Ameer's Mahram (private chamberlain;)

"On the 29th April, the King stated to me, ple all those who were engaged in that sacred tain Conolly. The first had been put to

"I. On account of his having treated Royalty with disrespect on different occasions. "2. That he had turned Mussulman, and returned to the Christian faith.

"3. That he had promised to get letters from England in four months, by which he would be acknowledged as Ambassador from England, and fourteen months had elapsed without any answer being received, though the King had erected japer khans (post-houses) on his account.

" And with regard to Conolly, that he had been put to death for having induced the Khans of Khiva and Kokan to wage war against the King of Bokhara, &c.

" His Majesty has given me permission to leave Bokhara on 9th May (Friday next). "From Meshed I will write everything

more fully. "Joseph Wolff." (Signed)

THE ARMY. Halifax papers mention that the 52nd Regiment, now forming part of that garrison, is under orders to proceed forthwith to Canada, to replace the 74th Regiment from

It is painful to learn that Corporal Wm. Moore, of the 1st Royals, (lately here) committed suicide at St. George's island, the present station of his regiment.

building known as the Freemasons' Hall, be-ing in the end nearest to Prescott Gate and that Vice Admiral Sir Charles Adam, will not formerly occupied by Messrs. T. Cary & Co. leave the North American and West India
Naval Command till next year, and that Sir Charles, Lady Adam, and family will spend the ensuing winter at these Islands.—Bermuda Royal Gazette.

RAILROAD TO STANSTEAD.—A public meeting is called at Froste village, Shefford, for the 29th inst., to consider the propriety and feasibility of constructing a railroad from the Province Line to Montreal; thus connecting the Scat of Government more closely with Boston, by means of a branch railroad which it is also proposed to make from Stanstead, to unite with the existing one to Concord. Such an undertaking is very important, not only to Montreal, but much more to the Townships. Every improvement which opens an avenue into this new and fertile country will add to its sources of wealth, and, by increasing the facilities for immigration, help towards the speedy settlement of the soil with an industrious and thriving population. It is to be hoped that the plan will be found practicable and be speedily carried into operation.

We understand that a party of the labourers employed at one of the quarries for supplying stone for the locks of the Beauharnois Canal, turned out last Sunday evening and destroyed a screw pump belonging to Mr. Mackay the Contractor, which he had caused to be made at great expense. The only reason for the outrage we are informed, was that four men with the new pump, did as much as twenty with the common one.—Herald.

We regret to learn that James Calvert, the Engineer who was hurt at the explosion of the hoiler at Mr. Bethune's factory, died yesterday morning at ten o'clock. He was a native of Scarborough, about 30 years of age, and leaves a widow with four children, in great distress.—1b.

MECHANICS' INSTITUTE.-We are glad to notice, by the report submitted at the Semiby His Excellency the Governor General in the Parliament Buildings, afforded an oppor- of the first class, has been erected on the Isfrom Bombay to the 19th June and from China | tunity for making improvements in the readto the 1st May. The recall of Lord El-ling room and other departments, which was and was shown for the first time on the 9th lenborough was known and appears to have not neglected by the Committee of Managegiven satisfaction. Every thing was quiet in ment, and has been repaid by an increase in night from sunset to sunrise, from the 15th our East Indian possessions.

April to the 15th December in each year,

The Committee recommend a public exhipition for the purpose of exciting an interest in favour of the object itself and of giving an opportunity to mechanics to show their proficiency in the various branches of their pursuits.

Counterfeit Mexican dollars and American half-dollars are in circulation, and must be guarded against. They may easily be de-tected by the sound or the touch, as generally they have a greasy feeling. Those who offer them in payment knowing them to be bad should be punished, in order to prevent the recurrence of a practice which seems to be getting too commor here.
