

I.F.A.T. '90 (Information Booth)

Munich, F.R.G. – May 22-26, 1990

Waste Disposal Equipment and Technology

I.F.A.T., held every three years, offers a wide range of products and services for waste disposal, an activity of growing importance for environmental protection. I.F.A.T. features sewers and drains (pumps, lifting tackle, agitators) sewage treatment (measurement and control technology, drive units, solid waste treatment, salvage, reprocessing, recycling, scrubbing of waste gases, decontamination of old sites, public cleansing) winter road services, services and technical literature.

Interpack '90 (National Stand)

Düsseldorf, F.R.G. – June 7-13, 1990

Packaging Machinery and Equipment

Interpack takes place every three years and features packaging machinery and equipment, packaging material and accessories, confectionery machinery and equipment. In 1987, visitor attendance reached over 176 500 and 1 902 numbered exhibitors. In 1987, seven Canadian companies successfully participated, reporting on-site sales of \$1.4 million and 12-month projected sales estimated at \$20.9 million. In 1990, ten Canadian companies are expected to participate.
