

Mission: SYDNEY

Market: AUSTRALIA

Services for which there are good market prospects:

1. Sewage treatment.
2. Sludge handling and disposal.
3. Wastewater treatment.
4. Drinking water treatment and distribution.
5. Paper recycling.
6. Plastics recycling.
7. Municipal waste separation, disposal & destruction.

In support of Canadian exports in this sector the mission is currently engaged in activities which include:

Activity: Identifying Canadian companies with technology/services in all fields of environmental sector.

Expected Results: Linkage of 5 companies in Canada with suitable counterparts in Australia.

For the next fiscal year, the mission will carry out the following approved fairs and missions:

Activity: GLOBE 92; five company representatives (and possibly 1-2 relevant public officials) on an incoming mission.

Expected Results: Greater awareness of Canadian capabilities and cement inter-company relations.
