**EXECUTIVES**

Managing Director

Mr. Richard Koszarek

**HISTORY**

An Air Taxi permit was granted in January 1993. Indamer has been the Beechcraft dealer in India for more than 30 years. The company has been very successful in importing corporate aircraft by selling new ones to State Governments, which are allowed to buy aircraft. When the State Government upgrades to a new aircraft, the used aircraft, being on the Indian register, is able to be sold to a corporate customer.

**FLEET**

Although its aircraft operate on an air taxi permit, they are on permanent lease to individual companies.

1 x Beechjet 400 on lease to TELCO.

1 x Beechjet 400 arriving June 1993, will be on lease to the Oswal Group, Delhi.

The company has its own well-established, and respected maintenance shop.

**EXPANSION**

The company would like to import 3 more Beech aircraft this year (1 x Beech 1900 and 2 x Kingair). It is still finding difficulty with import permits.
