How to Absorb an Unlovely Complexion

(Phyllis Moore, in Town Talk).

The face which is admired for its beauty must have a satin-smooth skin, pink and white and youthful looking. The only thing I know of that can make such a complexion out of an aged, faded or discolored one-al mean a natural, not a painted, complexion—is ordinary mercolized wax. This remarkable substance little each day, the clear, healthy, girlish skin beheath gradually peeping out until within a week or so it is wholly in evidence. Of course such blemishes as freckles, moth patches, liver spots, blotches and pimples are discarded with the old skin. If you will procure an ounce of mercolized wax at the drug store, use like cold cream every night, washing this off mornings. You'll find it a veritable wonder-worker.

Another valuable natural treatment is a wash lotion to remove wrinkles which can be easily prepared. Dissolve 1 oz. powdered saxolite in ½-pt. witch hazel. Bathe the face in this and you'll find, it "works like magic." (Phyllis Moore, in Town Talk).

WOMEN AS **WORLD BUILDERS**

Floyd Dell has contributed a voltitled "Women as World Builders," study of the various points of view ly to suit their changing ideals, and that, while men appear to be hostile to the woman movement, it is only because they desire that women shall achieve their freedom, and not have it tossed to them like a flower. Also that men are tired of the seemingly subservient woman, who effects her will by stealth. So long as men believed themselves masters, they were satisfied; but when they found they were dupes they wanted a change. According to Mr. Dell's opinion, man is the power behind the woman move

with filustrations by Charles M. Russell, is an inspiring narrative of a cowboy's fight with himself. Ford cowboy's fight with himself. Ford Campbell has been the possessor of a neat legacy, a rider of the cattle ranges, a drinker and a gambler. A spark of manhood, however, still glowed within him. He wanted to get away from poker and whisky and the tumult it brewed. Something within him hungered for clean, wind-swept reaches and the sane laughter of men. There was one man who had faith in him, and bracing himself upon the confidence of this friend he struggled to make good. It was an uphill climb to be sure, but having struck the uphill trail he set his feet firmly, squared his shoulders bravely and put up such a fight as is only fought on the mental battle ground of the man with a craving for liquor, whose soul has awakened and demands a reckoning. The hill was a steep one but he finally reached the top and there found a prize worthy of the climb. Mr. Bower writes with a racy pen and with an intimate knowledge of ranch life, which holds the unflagging attention of the reader. The Copp, Clark Company are the publishers.
