The report of our society varies little from year to year. The meetings have been held, as usual, on the first Fridays of the month, with the exception of the summer months. Several of our Fridays were very stormy, especially that of March last, and this, in part, accounts for the somewhat smaller attendance at our meetings. It is hoped in this new century the interest will be so increased that the attendance will be much larger. It should be so, for we, forming part of the "Woman's Missionary Society," are sending another missionary to India, and as our field widens, so ought our knowledge of and interest in it be spread. Our hearts, with all others in the civilized world, have been rent with news of the dreadful deeds committed in China, but we thank God that our missionaries have all been permitted to reach home in safety. Our own missionary, Miss Dr. Dow, from whom in the early part of the year we heard read several letters in regard to her work in China, is at present in Canada, only waiting till the way is opened for her to return to her work.
