THE APPLE TRADE. F. Hamilton, of Montreal, received the following cable from Hamilton & Pritchard, of Liverpool: The total quantity of apples offered at Liverpool on Saturday amounted to 14,000 barrels, and ruled from 1s to 5s per barrel lower, owing to the inferior quality of many of the consignments offered. Good red fruit is in demand and wanted at full prices. The cable finishes with the warning to stop shipments or rubbish. I can only repeat the advice already given shippers, viz., that it is more than suicide to send inferior fall fruit to Liverpool.

CHICAGO, Oct. 10.-The competition today for the somewhat small supply of cattle was so great that prices were easily advanced 10c to 15c; enough steers, \$5 30 to \$5 75; median, \$4 70 to \$4 90: feed steers, \$4 to \$4 65; stockers and feeders, \$3 to \$4 70; bulls, \$2 25 to \$4 25; cows and heifers, \$3 50 to \$4 25; calves, \$3 to \$7 25; western rangers, \$2 75 to \$4 60. Hogs-Packers were paying higher prices for pigs, but the run was so light that sellers were in a position to take an independent stand, and the prices showed a gain of 5c to 10c; fair to choice, \$3 721/2 to \$3 90; packing lots, \$3 40 to \$3 70; butchers, \$3 50 to \$3 921/2; light, \$3 50 to \$3 90; mixed, \$3 55 to \$3 90; pigs, \$2 75 to \$3 70. There a vigorous demand for sheep lambs, and the prices advanced 10c; common to choice muttons, \$3 to \$4 50; yearlings, \$4 45 to \$4 75; ewes, \$3 50 to \$4 10; feeders, \$3 80 to \$4 25; common to choice lambs, \$4 to \$6 25. 23,000 and sheep 17,000. MONTREAL, Oct. 10. - There were about 700 head of butchers' cattle, 30 calves, and 700 sheep and lambs offered for sale at the east end abattoir today. Butchers were out strong. Trade in cattle glower; prices remain about the same as on Thursday, excepting that there were not so many thin cattle on the market. Mr. Martel bought the four best cattle on the market at 41/2c per lb, less \$1 per head. Other sales of good cattle were made at from 41/8c to 41/4c per lb. Pretty good cattle sold from 34e to 4e, and common stock at 2½c to 3c per lb. A lot of 17 bulls were sold at 2½c per lb. Calves sold from \$3 to \$8 each, or from 3c to 5c per lb. Shippers pay from 34c to 31/2c per lb for good large sheep. The prices of lambs were higher today, from 4c to 4%c per lb. Fat hogs are not plentiful, and sell from 41/4c to 41/2c

EAST BUFFALO, Oct. 10.—Cattle-The market was in good condition to-day; 195 loads on sale; fairly active demand, and a general advance of 10c to 15c in the prices; the offerings included 70 loads of Canada stockers, and a large proportion of coarse and common cattle; export cattle, good me-dium and handy-weight butcher cattle were readily salable at the advance, but the under grades were just steady; stockers were in good demand, and being in comparatively smaller supply than last week, sold stronger; at the close all the offerings were sold and the market closed steady at the best prices of the day; good to best smooth

Over 800 Officers and Privates Under Arrest-Many Had To Be Clubbed Into Submission.

Lexington, Ky., Oct. 11.-When the 7:30 Louisville train started for town last night, a crowd of 300 members of the Twelfth (New York) Regiment were at the depot to meet it. They were armed, and were coming to town to try to get Albie Kitchen from jail and shoot him. Kitchen is the provost guard who shot and instantly killed Pte. Henry Nygren, company B,

Twelfth New York, last night. The operator at the station wired to the division headquarters in camp, and Gen. Wiley wired back instructing the train to be held. He sent a battalion to the scene of the trouble urder Capt. Holbrook, adjutant-general on Gen. Wiley's staff. Capt. Holbrook ordered all peaceful soldiers to return to the camp. A corporal spoke up and

said: "All who do are cowards." Capt. Holbrook asked him to what regiment he belonged, and he answered "The Big Four." Capt. Holbrook told him that was no way to speak to

an officer. The soldier tore away, leaving his ccat-sleeve in the captain's hand, and, drawing a gun, shot at Holbrook. The bullet missed the captain. The corporal then climbed under a car. Lieut. Langlen followed him and was shot

at twice. The soldier escaped.

Many of the Twelfth Regiment had to be clubbed into submission. A guard of 50 men were placed around the jail, and the jailer, sheriff and deputies, armed with Winchesters, are protecting the prisoner. Kitchen is badly scared and fears he will yet be lynch-

Over 300 soldiers and officers were arrested and taken to Loudon Park. Officers say Kitchen will unquestionably get the death sentence. When he shot Nygren he was under orders not even to have his gun loaded.

HARVEST HOME

Annual Tea and Entertainme at at the Colborne Street Methodist Church.

The annual harvest home festival and entertainment of the Colborne Street Methodist Church was held last night. The edifice was beautifully deccrated with flowers and foliage. The body of the church was filled to overflowing, and the programme rendered was greatly appreciated by the big audience. The Ladies' Aid, of which Mrs. Wm. Wyatt is president, was a most important factor in arranging for the annual event, and the ladies have reason to be proud of the success that attended their efforts. The tea served was of a very substantial na-ture and heartily partaken of. The lecture room was filled with tables, and these were spread three times with an abundance of choice eatables. After supper an adjournment was made to the church, where Rev. Geo. Jackson, who occupied the chair, made a neat speech, complimenting the Ladies' Aid and welcoming all. The programme was ably carried out under the supervision of Mr. H. Ruthven McDonald. It was as follows: Anthem, the choir; solo, Mr. A. Carpenter; ad- Big sale now on at Cole's Cdress, Rev. Alex. VISIT TO THE **PORK FACTORY**

Prominent Citizens Entertained by Mr. J. H. Ginge

To Lunch After Inspecting the Factory at Pottersburg.

An Important Industry-The Concern's Late of Six a Minute.

About one thousand hogs grunted and wallowed in the Canadian Pork Packing Company's yards this morning at Pottersburg enjoying life to the full. By night they will all have been killed, singed, scraped, dressed and hung in the cooling rooms ready for the process of curing. Their four thousand feet will have been cleaned ready for the shop counters. The lard which they yield will have been rendered, the heads prepared for shipment, and the refuse carted away. Some great improvements have just been completed at the factory. New buildings have been erected, and new machinery put in, greatly increasing the capacity for killing and treating the

Three hogs every two minutes was the speed at which they were handled a short time ago, but with the improved facilities six squealing animals can be stuck and started on a trip towards the cooling room each minute. The trip occupies six minutes, and about two dozen men handle the porker en route.

It is a gruesome sight to watch the men at work. From the pene where the pigs are kept when unloaded from the cars, they are driven up a slight incline leading to the place of slaughter. Then one by one they are suspended by the hind leg from a chain and pulley attached to a horizontal rod. A man with a deft, sure hand, and a very sharp knife, speedily puts an end to the animal's squeals. The carcass then gets a hot bath, and is carried further along the rod and thrown on to a table in front of a big machine with a great many rods meeting in the center, like the rods in a typewriting machine, and at the end of each rod is a steel blade. One end of a hook is stuck into the pig's throat and the other catches a line in an iron belt. In this way the body is drawn through the scraper. Then another stage along sloping rods is made to the base of a large pipe about three feet in diameter and fifteen feet high. Soldiers Endeavor to Lynch an Obnoxious Provost Guard.

Through the center of the pipe, which is filled with flames, runs a chain belt, and by hooking the dead pig on to one of the links of the chain it is carried through the flames and singed. After completing the belt, the blackened carcass is rolled into a vat of cold water, then lifted out by machinery and again suspended from a pulley running along an iron rod close to the ceiling. Several men are at work in a row along the course of this rod, and the carcass goes through a rapid evolution as it

for the English markets. The rapidity with which all the work is done is astoniehing, but not less so is the cleanliness of the place. Very lit-tle of the animal is discarded, and what refuse there is is immediately carted

The building is lighted by electricity, and everywhere cleanliness is the keynote. The grounds, too, are kept as neat and clean as possible.

A very fine refrigerator plant has just been put in by the Vilter Manufacturing Company, of Milwaukee, in connection with which there is 7,000

feet of piping. These improvements are important to Londoners, because it means the continued employment of a large number of men. The Canadian Packing Company's pay roll amounts to about \$2,000 a week, and will be sure to increase. The factory's full capacity is 4,000 hogs a week, and at present only half this number is handled.

Hog-raising is bound to increase in favor in this vicinity with such a splendid market, and Mr. Ginge's establishment has already proved a great benefit to many Middlesex farm. ers. Of course the hogs are purchased all over the country and shipped in by train, but the encouragement is more particularly for farmers of the immediae vicinity. More attention will be paid to the proper feeding of hogs, and the present popularity of Canadian pork in the old country will increase. England is the market. Over 95 per cent of the output of the factory is shipped to Manchester and Old Lon-

for the trip in the rain. After spending a couple of hours going through the factory, the party was entertained at lunch by Mr. Ginge at the London Club, where the health of Mr. Ginge was proposed by Dr. Bucke and seconded by Sir John Carling in interesting and commendatory speeches. Mr. Ginge replied suitably.

This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc.,

Corset Fit

Intimate anatomical knowledge and the exercise of great skill are absolutely necessary, not only in the cutting, but in the boning of a pair of corsets, if durability, at and com-

fort are to be attained.

In the celebrated French P. D. Corsets each bone or steel has its calculated width and thickness and each its correct position, according to the special service it is called

upon to perform. Rigidity will be found where it is necessary, flexibility of greater or lesser degree, being provided in accordance with the demands of other positions, the aim being to supply with the minimum of weight a perfeet fitting, thoroughly comfortable, yet durable corset. The tailor cut, hand-sewed, French Corset, the

A DINNER PILL. — Many persons

suffer excruciating agony after par-taking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment, it becomes a polson to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medi-cine to take if troubled with indiges-
