College

The nearness of the College to Toronto affords students the opportunity of hearing the best talent that comes to the city; and yet located in a quiet collegiate town, away from much distraction outside the school life; the personal capabilities of students are more generally called into action, and the broader and fuller development assured. Personal power comes from a process of evolution from within, not of accretion from without, and the real factor in school life determining what a student is going to be or to do is not so much what she may see or hear outside college walls as the kind of instruction imparted in the school room, the bracing intellectual atmosphere of the various college societies, and the high ideal of life and conduct that has been breathed into the school and has become the ruling purpose of both teachers and students.

College will reopen Sept. 7. Send for Calendar, or apply at once for room to REV. J. J. HARE, Ph.D., Principal.
