WHY DON'T HE COME. Why don't he come? he promised me He surely would be here; And Pa and Ma are out to tea— For once the coast is clear.

I wonder what he wants to say!
When last his leave he took
He asked me twice, at home to stay
I wonder how I look!

Oh why! I'm almost out of breath Suppose he asks? what then? Suppose he asks? what then a l'll certainly be scar'd to death, I'm so afraid of men—

Oh, here he comes—his step I hear, And now he'll soon begin! I would not for the world appear In haste to let him in!

THE LAND OF GOLD. "Faster come, faster come, faster and faster, Come vassal, page and groom, tenant and master. Gold hunters come like the Nimrods of old, Come to the land of the purest of gold.
"Leave the deer, leave the steer, leave nets and

Leave wife and children dear, leave all such

Come like the Chamois o'er mountain crags bound-

Come with a crowbar, a pickaxe and shovel.

Canaan was a land flowing with milk and honey
—California is a land overflowing with pure and
solid gold. Notwithstanding that Gold is the root
of all evil, it is considered by most people a desideratum, and by many the summum bonum of life.
We cannot positively say whether the present age
is the golden age or the age of brass, but we must
say that as yet we have met more people with brass
in their faces than gold in their pockets. The
true Eldorado, the real land of gold, has been,
had bathed in the Sacremento of California, as well
as in the Pactolus of Lydia, as its waves literally
roll over sands of gold. Gold! yes gold, pure as
the gold of Ophir, and more plenteous than the
Silver of Potosi, may be had for the picking or the
digging 'mid the rocks and crage of the Sierra Nevada.—Nova Scotium.

A RIVER ON FIRE.—Some clever Scotchmen have succeeded in setting on fire the river Tay. The Glasgow Examiner thus particularizes:—

"One of them trimmed a large naphtha lamp which gives light to a work-shop, but,on lighting it, the wick being much too small, the vapour ignited, blew off the top of the lamp, and sent up a flare of flame which fairly perplexed all who beheld it.—All the attempts which were made to extinguish it were unavailing. At length it was suspended on a crow-bar and carried to the river, in the waters of which it was immersed; but the vapour of the naphtha, spreading over the liquid sheet, flamed more extensively than ever, and the poor fellows began to fear that the entire stream would be kindled from source to sea, sending the fish on shore ready cooked. At the suggestion of a passerby the lamp was withdrawn from the stream and a wet sack was put over it as an extinguisher, when, to the wonder of the wise workmen the flame disappeared.

A contemporary gives the following beautiful truth:—"No snow falls lighter than the snow of age; but none is heavier, for it never melts."

The quantity of Tobacco produced in the United States during the past year was 220,164,000 pounds, which it is presumed will keep chewers, smokers, and snufftakers going for some time to come.

A Yankee down east has invented a machine that will reap, thrash and grind, also spin cotton, scrape potatoes, rock the cradle, darn stockings, whittle skingles, whistle Yankee Doodle, play checkers, and puff itself in the newspapers.

Great cure of Liver complaint of Ten Years standing!

Ten Years standing!

New York, Jan. 9, 1016.

Dr. Harsey-Dear Sir: Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years—and, having adhered closely to the directions which accompany the medicines. I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissuaded from taking your excellent medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what pity it is, that the deception used by others should be the means of dissoading many laboring under disease from making trial and being cured by your excellent remedies.

CURE OF A DESPERATE CASE OF ERVSIPELAS.

Copy of a Letter from Mr. Joseph Gildon, Jun., a
Farmer, East Kent, near Spilsby, Lincolnshire,
8th April, 1846.

To Professor Holloway.

Sir,—I have the gratification to announce to
you a most wonderful cure wrought upon myself,
by the use of your Ontment and Pills. I had a
severe attack of Erysipelas in my right foot, which
extended along my ancle, and was attended with
swelling and inflammation to an alarming degree,
insomuch that I was unable to move without the
use of crudeles. I consulted a very eminent Physician, besides other Medical men, but to no purpose. At last I tried your Ontment and Pills,
when, strange to say, in less than two weeks the
swelling and inflammation subsided to such a degree that I was enabled to pursue my daily avocation, to the utter surprise and amazement of
those who were acquainted with my case, seeing
that I was cured so quickly. I and my family are
well known here, as my father holds his farm under
the Rev. J. Spence, Rector of our Parish.

Amputation of Two Legs Prevented.

Extract of a Letter dated Roscommon, February
20th, 1847, from the highly respectable Propretor of the Roscommon Journal.

To Professor Holloway.

Sir.—Mr. Ryan, the well known proprietor of
the Hotel next door to me, had two very Bad Legs,
one with eight ulcers on it, the other with three,
they were in such a fearful state that the effluvia
from them was very great. Some time since he
made a journey to Dublin for the purpose of consulting some of the most eminent professional men,
but returned home to his family with the choice of
two alternatives—to have both Legs amputated, or
die!—On his way home he met a gentleman in
the Coach who recommended the use of Holloway.
