Bond's - 90 King Street

The Man In The Street

Now look out for March winds. The legislature will open in Fredericton this week.

With Germany becoming hard pressed for food, the Prussian Diet is none too safe.

The Unemployed Problem
Today's despatches tell of Sir Max Aitken and J. J. Carrick, Canada's "eye-witness," starting for France to take up their "jobs." By way of an explanatory note something should have been added about a "night-seeing" tour.

Speaking of "jobs," did you ever consider what a soft time the captains of German merchant ships, interned in New York, must be having?

To say nothing of the officers and men of the German navy in the Kiel Canal.

Pardon This One
News despatches: "Flour in Austria jumped to \$50 a barrel because of war," and another, "Austrians seeking information of the enemy offers \$25 for every Russian captured." Hardly likely they're doing a Russian business in either line.

No doubt you've heard something like this before, but we felt we really had to say something about it.

"What's In A Name?"
When the sign was first printed on the door of a dealer in North End it read: "Marriage Licenses," but in some way a few of the letters in the last word have become erased so that it now runs "Marriage Liens." Of course, fellows, you can get 'em just the same—the distinction is merely technical.

Of course they need guards while the legislature is in session; 't's crowd might walk off with the parliament buildings if no one was watching.

Germany's latest ally already is looking more like a goose than a Turkey.

And an alderman in Hamilton, Ont., comes to bat with the suggestion that the common council should wear evening clothes at their monthly meetings, coats of their course of lectures, and systems in St. Louis a coded hat and per E. E. Lewis.

Special This Week

15c. Bottle Lee's Mustard Pickles 12c.
25c. Bottle Lee's Cranberry Sauce 15c.

ADDRESS FILLED WITH VERY SOUND ADVICE

Dr. J. V. Anglin Speaks Before Fairville Brotherhood

A profitable and interesting address was last night delivered before the members of the Fairville Brotherhood by Dr. J. V. Anglin, of the Provincial Hospital, on "The Human Skin, Its Uses, and How to Care for It." The lecture was keenly enjoyed by a large audience, and at the close they showed their appreciation in a hearty vote of thanks moved by David Linton, Jr., seconded by G. W. Macaulay, and tendered by the chairman, Stephen Shaw.

Dr. Anglin dwelt upon the remarkable profits to be derived from the skins of animals, much of the prosperity of Canada today being due to the activities of pioneer settlers in the establishment of trading posts where the skins of fur-bearing animals were bartered for with the Indians. The human skin, while affording no profit like this in a financial sense, was especially when in a healthy state, an asset for which the owner might well be thankful. The speaker then showed by diagrams the formation of the skin, and explained its uses to the body. He followed this by some sound advice as to its care.

The removal of hair was then dealt with. Baldness, said the speaker, was the bane of mankind. In some cases it was due to heredity, but in other cases the falling out of the hair was from natural causes. Brushing, shampooing and massaging were the chief helps to healthy growth. The speaker gave much appreciated practical advice to those present as to questions of hygiene and his address in its entirety was particularly well received.

FOR PROHIBITION IN CANADA WHILE THE WAR GOES ON

ALLIANCE COMMITTEE IN OTTAWA FOR MEETING WITH THE GOVERNMENT TODAY

Ottawa, March 10—On Monday Venerable Archbishop Lloyd, of Saskatoon; Rev. H. R. Grant, of New Glasgow, N. S.; and Mr. H. H. Stevens, of Norton, N. B., arrived in the city as a special committee from the Dominion Temperance Alliance Council to make arrangements for a meeting with the members of the government at which matters relating to prohibition would be discussed. The meeting was to be held at noon today. A written invitation was sent to the various members of the commons and of the senate. The Dominion Alliance Council will make three requests:

1—That a law be placed on the statute books making it a criminal offence for any outside party or company to ship into the province or to any company within any province or territory where any law prohibiting the sale of intoxicating liquors is in force.

2—That an order-in-council be passed forbidding during the present year the destruction of the 150,000 gallons of grain which is annually destroyed in Canada for the manufacture of intoxicating liquors.

3—That the sale of intoxicating liquors for beverage purposes be prohibited during the war.

AN EXCITING MATCH

Finals For Estey Trophies on Thistle Ice Very Interesting

By a score of 15 to 10, the Lingley rink routed the Ledingham rink last night—or rather this morning—in the final game for the Estey trophies on Thistle ice. Despite the luteness of the hour, some enthusiasts remained until the last stone had been played, and they were well rewarded for their patience by drawing a port, cutting Ledingham out of an almost certain six end, and converting it into a point for himself.

The play started well for the Ledingham rink, as they secured three points on the first end. At the end of the seventh end Lingley's rink had forged ahead, and the score stood 7 to 4. Good shooting by Currie and Estey tied the score at the conclusion of the eighth end. At this period the excitement ran high, and there was considerable speculation. Lingley's rink then took the lead with three points, but had the margin cut down immediately after, when their opponents scored two. From that on the Lingley rink crept ahead, and soon had six points lead. The match finally ended 15 to 10. Their victory entitles them to the trophies donated by A. W. Estey. The winners were heartily congratulated for their plucky finish as they were forced to win three straight games to clinch the championship of the series. The rinks and the scores were:

H. Stubbs G. L. Warwick
D. Currie Harry Warwick
A. W. Estey T. A. Armouh
T. C. Ledingham L. T. Lingley
Skip 10.

The ice was excellent for this time of year, and became better as the morning approached.

RETURNED HOME
H. C. Groat, superintendent of the C. P. R. Atlantic division, accompanied by his wife and family, returned to St. John today in his private "Home-Mercer," attached to the Atlantic express, from Montreal. Mrs. Groat has been in Cowansville, Que., where she went to join in the celebration of the 40th wedding anniversary of her parents, Mr. and Mrs. R. Curley, of that place. Her mother, Mrs. Curley, accompanied her here today, and will have passed for a time.

MONEY WAS IN GOAT LINING

James Hanlon I.C.R. News Agent Fully Cleared

PASSENGER RECOVERS IT

Caddigan Reports That it Slipped Through His Pocket—Young German American is Questioned—Mencton School Bonds

Moncton, March 10—James Hanlon, a news agent on the I.C.R., who was arrested on a charge of stealing money from James Caddigan, of Buctouche, a passenger on No. 15 express for St. John on last Saturday, has been honorably discharged. Yesterday Caddigan belonged to the news company.

A young German-American giving the name of Eugene Schlutz, caused a stir about the I.C.R. shops and was obliged to answer a series of questions yesterday in the local police station. He was suspected of being a German spy. He told the police that he was born in Nebraska, of German descent and, being a machinist by trade, was interested in looking through the railway shops. When he made enquiries about securing a pass to go through the shops, suspicions were aroused. He gave no explanation as to his business in this part of the country, except that he was a "victim" of the "sanderfoot" and expected some day to settle down.

He was very well dressed and spoke excellent English. Before being released by the police, he discussed the war, and declared that he did not believe in war, and he had a friendly feeling towards Canada.

Sunny Bras will soon vote upon the question of incorporation of a petition to Sheriff Willett for a plebiscite is granted. It is proposed to have three wards with two aldermen representing each.

At a meeting of the Moncton School Board last evening tentative plans for the new Aberdeen school, prepared by Architect Brodie of St. John were submitted. It was decided not to deal finally with the plans until a full meeting of the board could be held. The board decided to issue \$48,000 four per cent bonds, maturing on March 1, 1920.

WANT J. N. HARVEY FOR MAYORALTY

Moncton Man Brings Home This Report From Vancouver

A Moncton despatch says that J. Newton Harvey, who some years ago conducted a clothing business in St. John, and who later established a business in Vancouver, is doing well in the western city, and is being urged by friends to be a candidate for the mayorship in Vancouver. A. E. Peters, of Moncton, who has just returned from the western provinces, brings this word. Mr. Peters said that after he left New Brunswick he noticed depression and conditions grew steadily worse until he reached the Pacific coast.

OF INTEREST HERE

(Toronto Mail and Empire)

A new market for Canadian fish, flour, potatoes, etc., may be found in the Dutch Packet Company, operating between Canadian Atlantic ports and ports in the British West Indies, under the trade treaty between Canada and the Indies. A disagreeable incident occurred last night when some one cut down numerous banners which were strung across the street. The police are investigating.

YOUTHFUL PATRIOTISM
A patriotic incident occurred in Waterloo street, opposite St. Mary's church, as the 26th Battalion was returning after their route march yesterday afternoon. Five small boys, the oldest not more than seven years of age, were standing in the middle of the street and one held a large Union Jack and waved it as the battalion passed by. Colonel McAvity saluted the flag, and the men cheered the lad as each company passed by. The little chaps thought a great deal of the colonel's salute.

Sealing Steamers Escape
St. John, N.B., March 10—The sealing steamer Nascope, which took a cargo of seals from Halifax to England returned yesterday from Liverpool, coal laden, and is going to undertake the seal fishery on next Saturday.

Four wooden steamers were caught in the ice near Cape Spear, and almost driven ashore, but ultimately escaped.
