### ANSIT STRIKE HALTS ELEVATORS IN FIFTY STOREYS

New York, Sept. 9.—Alpenstocks came suddenly into great demand here this morning and mountain climbing became a painful necessity rather than an exciting sport. The cause of it all was another transit strike, in which there was no chance for the jolting jitney nor was there any motor truck to figure as the road agents of relief.

All the firemen who supply power for the fifty-four elevators of the fifty storey Metropolitan Life Building, walked out this morning, and the ten thousand tenants and employees walked upstairs. Not quite all had to walk, as power enough for the "lift" to the tower was ticked out, but this gave only infinitesimal relief, as shown by the fact that the ten thousand regular tenants who begin using the elevators around eight or nine o'clock constitute only a fraction of the other thousands of daily business callers at the second tallest sky toucher in the world.

From eight o'clock to nine o'clock the rush resembled one of the old Brooklyn bridge rushes of pre-subway memory, and when short-winded and shorter tempered bosses began to tramp the treadmill, it became still worse. Men whose knees are only used to subway stairs and wine cellar ladder navigation, found their lack of goose step technique a genuine handicap, and many a case of inept indignation was nipped in the bud.

The palms of the race went to the girl stenographers and office assistants who proved the best mountain climbers of Madison Square's new Alps. Many of the youngsters took six or eight floors at a lap, and liked it, while others, possibly in match races, or in competition with time, took two or three dozen flights without pausing.

The striking firemen have been getting \$4 a day and demanded \$5. The idle elevator men were put into service as traffic directors to show the crowds to the stairs.

**ES FOR \$100,000 FOR BREACH OF PROMISE.**

Boston, Sept. 9.—A suit for \$100,000 alleging breach of promise has been entered in the Suffolk superior court by Ella Peters of Boston against William J. Campbell of Washington Court House, N. J., who, according to her allegation, is now stopping in this city.

A suit for \$25,000 was filed in the superior court by George R. Tracy against John D. Roberts for the alleged alienation of the affections of his wife, Maud I. Tracy. He alleges defendant enticed his wife to leave him.

**FATHER OF LABOR LEADER SAMUEL GOMPERS DEAD.**

Boston, Sept. 9.—Solomon Gompers, father of Samuel Gompers, president of the American Federation of Labor, died at his home in the Dorchester district last night.

### DAUGHTER OF GOVERNOR BRINGS DIVORCE SUIT

Rutland, Vt., Sept. 9.—Anna Clement Knowles, youngest daughter of Governor Percival W. Clement of Vermont, has brought suit for divorce in Rutland county court against Captain John A. Knowles of Boston. Wilful desertion is claimed in the libel. Attorney W. B. C. Stickney of this city is counsel for the libellant.

Captain Knowles is in the infantry service. He is a member of a wealthy family, being before the war connected with the St. Croix Paper Company of Maine, which has a Boston office. The petition sets up that he has real and personal property valued at \$200,000.

They were married by the Rev. Joseph Reynolds at Trinity Episcopal church in this city Oct. 23, 1906. According to the libel, they lived together at various times at Calais, Me., and at Dedham and Dover, Mass., until June 1, 1916, when the husband is alleged to have left his family.

Mr. and Mrs. Knowles have two children, John Appleton, Jr., aged ten years, and Robert Clement, nine. The petitioner asks for the custody of these children and for alimony.

Governor Clement is a millionaire railroad man and banker.

**HE LEFT \$5,000,000.**

The will of Charles Frederick Hoffman of New York, referred to on Monday, which disposes of an estate of more than \$5,000,000. The only public bequests were \$10,000 to All Angels Protestant Episcopal church, and \$5,000 each to the building fund of the Cathedral of St. John the Divine and Columbia University. Fourteen household servants got \$100 each and a like amount went to three employees of the Hoffman Estates, Inc.

Mr. Hoffman directed his executors to devote \$50,000 a year to the education and maintenance of his daughter, Miss Marian Krumbhaar Hoffman, now seventeen years old, out of the share received by him from the estate of his father, the Rev. Dr. Charles Frederick Hoffman, known as Dean Hoffman, who left many parcels of valuable Manhattan real estate, "in order that Marian may keep up the state of life which is suitable to one in her station."

The residuary estate, with the decedent's Newport home, Armistea Hall, with all personal effects, goes to the widow, Zelia Krumbhaar Hoffman, the home and its contents absolutely and the residuary estate for life. She has the privilege of asking the payment of \$15,000 twice a year if she wishes it. Upon her death the residuary estate goes to her daughter.

**DEATH ACCIDENTAL**

Montreal, Sept. 9.—Accidental death was the verdict returned yesterday in the case of Napoleon Clearmont, twenty five years old, who was shot and killed by his sweetheart, Blanche Beaubien early on Sunday morning. The coroner's jury found that the girl could not be held responsible for killing the man. The girl was released by the detectives.

### THE BIRD'S SAY WE HAVE HARD WINTER COMING

Cedar Grove, N. J., Sept. 9.—It will be a long and hard winter says Albert Payson Terhune. Leaseways, Mr. Terhune, informs the Cedar Grove Board of Poultry Trade that his infallible prophets, the peacock, Caruso, and the pea hen, Melba, tell him so.

Here is part of his letter to the Board from his home, "Sunnybank," Prompton Lakes:—

"The earliest frost in fourteen years is indicated by the early growth of iridescent underfeathers. A long winter and much snow (Mr. Terhune underlines "much") and a heavy ice crop are prophesied by the withdrawal of British scales on the peacock's feet and lower legs.

"As you know, a peacock always insists on roosting outdoors, even in a blizzard, and this thickening prevents their feet from freezing. Last fall, for instance, the black scales remained as thin as in summer, and it will be remembered we had a summery winter."

Members of the Poultry Trade Board recalled that Mr. Terhune's birds have accurately foretold the weather for the last five or six winters.

### APPEAL TO HAVE THE BRITISH TROOPS KEPT AT ARCHANGEL

London, Sept. 8.—The Archbishop of Canterbury has received a despatch from Archangel signed by the bishop and clergy, appealing to British Christians against the withdrawal of British troops, which they assert would leave Archangel to the horrors of Bolshevik rule.

### GETS \$500 FOR HONESTY

Providence, Sept. 8.—C. C. Gross, aged eighteen, who is harvesting on his father's farm near Chepachet, has \$500 in cash as a result of his honesty in returning a bag worth \$9,000 to Mrs. Greenville Brown of 87 Williams street, this city.

Mrs. Brown left the city by motor to visit at Pomfret, Conn. She took the leather grip with her. Going through Chepachet the bag bounded out of the machine. None of the occupants noticed its loss until the car arrived at Pomfret.

Gross saw the bag when it fell from the machine and picked it up. The owner's name being inside, he tried to reach her by telephone, but she did not answer. He found her later.

### DIG UP BODY OF TWELVE-FOOT MAN

Discovery Made By Michigan Policeman in Vegetable Garden—Body Well Preserved.

Jackson, Mich., Sept. 9.—While digging at the rear of his home in North street this afternoon, Oren Nieman, a city policeman, struck what he supposed to be a stick of wood about two feet below the surface, and as he continued the excavation he was startled to find that he had uncovered a huge human hand.

He hastily piled the dirt back into the hole, but later decided to continue the excavation.

As a result he uncovered the well-preserved body of a man twelve feet seven inches in height. News of the discovery spread rapidly, and so great was the crowd that gathered that the police were called out to hold the people back.

The body is intact in every detail and apparently is petrified, although the skin was broken by a shovel when the digger first struck it.

The legs are of great length, measuring approximately six feet from the thigh to the sole of the huge feet. Even the finger nails are still in place, and the ribs and bones are of a parchment-like skin. The features are well preserved. The nose is small and rather broad, and protruding from the mouth are large teeth. The hair on the head is black and rather scant.

Among those who viewed the body after it had been excavated this afternoon was Dr. H. B. Neagle, city health officer. As yet no theory is offered to account either for the size of the body or for the location where it was found.
