MADE STAND AT MOUNT CARMEL

(Continued from page 1)
Among the prisoners is a German major who wanted to leave Halifax with other German troops on the day previous to our entry into the town, but was compelled by the Turks to take part in the fighting. He spoke of German mechanics working at Nazareth who might have escaped but preferred to be taken prisoner rather than continue serving with the Turks.

Everything is orderly in Haifa. The administration was taken over without the slightest hitch. The disposal of the thousands of prisoners is a real problem. The number is constantly swelling and fugitives are coming in from everywhere to surrender. The body is inestimable and includes a lorry filled with cases of Turkish treasury notes, which is a serious loss to the enemy, though useless to us.

Among the prisoners were ninety-five Italians who were captured in the Ismao drive and had been enrolled for forced labor.

The difficulties of the Turks retreating north of Maan have been increased by the destruction of the railway near Deraa. Our airmen are also concentrating their attention on their line of retreat.
