THE NEW ASSESSMENT ACT.

The most important subject with which may parliament has to deal is the question of taxation, and last session the One are sessment Act into the Legislature. It as not an ameniment to the present ct, but a substitute for it. The old act as passed about fifty years ago, and sough it has been frequently amended to exactifial features and general princles are the same as when originally latted. The new act is a slight advance—the old one to the extent of the present cut, but a substitute for it. The old act is case the women's organization called the manufacturers into court. They had to show their books, and to make good every statement as to their profits and the wages their women were earning. While the debate was proceeding in the regretted, however, that rulway francises are only to be threef and first terms at secure in their factories, light. Residence: 54 St. Mary St. be regretted, however that railway franchises are only to be taxed upon their full value after ten years, instead of immediately, as is the case where ichividual instead of corporate interests are involved. Another and even more serious omission is the fact that there is no provision is the fact that there is no provision made for allowing progressive municaplities to exempt buildings or industry from taxation, even though the people were unanimously in favor of such action. It is only by allowing latitude in matters of this kind and enabling communities to past to practical tests new theories of taxation that any material tests of taxation that any material tests new theories.
