British Columbia can ill spare such front as the man most capable of piloting of municipal adolescence; and his bril-Oppenheimer's genius for management; Terminal City, under the guidance of Mr. Oppenheimer, have been well and by his enterprise and his determination, and no man in the province surpassed him in those excellent qualities. He had a broad mind and was actuated by admirable sentiments; he devoted his talents to the upbuilding of the city of his adoption; nor did he spare himself in the rank as a modern city. There was not a more popular man in Vancouver; no citio zen of the Terminal City has had so many proofs of good-will and high esteem from his fellow-citizens, and none has deserved them better than the gentleman whose recent death is looked upon as little less than a public calamity in Vanconver. The News-Advertiser sums up its feeling tribute to his memory in these words, which we cordially endorse:

"Take him, all in all, David Oppenheimer was a man of broad views and and but few enemies; who did much for Vancouver, and whose passing away at a time when he might have heped to enjoy for many more years the fruits of an active and industrious life, will be heard with regret by the many in all parts to whom he was known.

Our exposure of its chicanery has silencconnotes a somewhat vicious taste in matters literary; for we are ready to admit that the total disappearance of that sort of thing would be a great blessing. Still, when we read those editorials, laugh over their ludicrous Hibernisms. and their delicious Mrs. Malapropisms, or, rather, Sairey Gampishnesses, and note the writer's evident unconsciousness of the fact that they are intensely funny, we regret the passing of so amusing a style. We can forgive the poverty of diction for the sake of the comical blunders; we can ignore the coarseness and obscenity of the personalities and allusions for the sake of the eccentricity,

VANCOUVER.

Vancouver, Jan. 3.-Twenty-seven Mounted Police left by the Rosalie this afternoon. There are many people bound for the Klondike in Vancouver waiting for the next steamer from here. The New York Sun dispatch to the effect that in the event of war in China a Canadian battalion would be dispatched from Vancouver to Hongkong has been read with special interest here, being by some taken literally as referring to a Vancouver battalion rather than one from anywhere in Canada to be dispatched via Vancouver. The officers of the Fifth Regiment here, dis assing the matter, think it quite likely that the Imperial authorities may give Canada a chance, seeing that it is the nearest to the scene of action. The Vancouver men, they say, would be willing and eager to go at the call of duty, and indeed would be obliged to embark when ordered by the home office, as the regulations distinctly say that they are to serve when called upon in Canada or elsewhere. The Vancouver and New Westminster companies can be ready in twenty-four hours if called upon. The Whitewater mine and adjoining claims in the Slocan, have been sold to

the London and British Columbia Gold Fields Company, Limited, for \$200,000. Vancouver, Jan. 4.-E. Galloway sent some homing pigeons to the Klondike about three months ago. ROSSLAND.

Rossland, Jan. 3.-F. A. Heinze has thrown up his bond on the Columbia and Kootenay mine, after spending upwards of \$100,000 on the property. SALMON PACK OF THE COAST. There Has Been Substantial Increase Over Tast Year

San Francisco, Jan. 1.-The Herald of Frade and Finance prints the following review of the Pacific coast salmon pack for the season just closed:

The total pack of canned salmon on this coast is not so large as late estimates make it, but it comes up to the early estimates. While the Alaska pack is not up to last year's those of British Columbia, Puget Sound, Columbia river and Sacramento river are larger, but those of the outside streams and bays in Oregon are not up to 1896. The Alaska pack is somewhat of a surprise, for it has been claimed with considerable confidence that it would aggregate fully 1,000,000 cases. It is stated that the run of fish did not come up to expectations. This also explains why the British Columbia pack fell below estimates before the season opened. While the runs on Fraser river were fairly large, there were light runs on northern rivers and inlets. The Puget Sound pack of sockeye came fully up to expectations, but the run of silver sides, a little later, was a disappointment, and cut the estimated pack quite materially. The Columbia river pack, it was thought, would be not over 400,000 cases, but the exceptional sizes of the Chinook' salmon made a much larger pack than had been esitmated even during the fishing season. It is rather singular that the pack of this river was in 1883 and 1884 over 800,000 cases, and 325,590 cases to 479,000, with one year, state hatcheries have proven a success

The very low prices that ruled for salmon this year must have caused outside packers to reduce their output, for by no other reason can so large a falling off be accounted for. The pack in the Sacramento river was largely in excess of last year, notwithstanding a strike of fisher men lessened the total pack. The total cases for the Pacific coast is
