A number of patients have been brought to the city. Of these, many are suffering from fractured skulls caused by the stones thrown from the volcano and the majority of them were burned by the lava thrown up with the vapor. Towards evening yesterday there was

a small convulsion, followed by a small discharge of smoke but this caused no adarm. The weather is fine, and the excitement is abating. The bed of lava in the Windward district is still hot. The abyss, 900 feet deep, and 200 feet wide, which existed between Langley Park and Rabacci is filled with lava and the physide are, apparently more beautiful than
