Forest fires have already done much damage in this province. One which broke out in North Tryon a few days ago swept out the buildings of James Dawson, whose net loss will be about \$1,500. It then crossed the highway and for a time it was thought that the residence of Henry Dawson was also doomed. But passing beyond it to the woods, on the western side of the road. it quickly destroyed over \$1,000 worth of lumber belonging to William and Robert Muirhead. This fire is still

burning. Another one broke out in the

amination for holy orders recently held in Toronto by the board of examiners. He is a son of Editor Cotton of the Ex-

aminer and is a graduate of Kings College, Windsor,

### A NOBLE BEQUEST.

HALIFAX, N. S., May 25 .- The will of the late ex-Mayor Hamilton pro-vides that his estate, estimated at \$50,000, shall go to his mother during her life, and at her death it provides that the bulk of it shall go to form an endowment for the Halifax Dispens-

ary, a charity of great importance to the poor of the city. His funeral to-day was one of the largest ever seen ation of the prohibition law and has in Halifax.

Mile Creek, and Mr. McRae's building narrowly escaped destruction. The cinders were carried over three miles by the high wind, and it is almost miraculous that more damage was not effected. Several other fires have also swept out large areas of forest. Wm. McNeill of Dorchester, N. B., is

T. B. Woodman and Mrs. Woodman of Alberton have returned from a trip to Chicago and Niagara Falls. A special effort is being made by the

executive of the Y. M. C. A. to place that institution on a thoroughly sound basis. The business men to the num-ber of 100 are being asked to donate \$10 per year as a sustaining member ship fee to be counted upon each year. As the institution can be conducted in

good shape for \$2,000 per year it is considered an easy matter, with the above amount guaranteed, to raise the additional one thousand from other sources.

A. W. Henderson teller of the Royal Bank of Canada, has been ordered to Montreal. He will be succeeded by W. J. Little of Sackville. A. E. Hopgood of Summerside goes to Sackville. Adele McLeod, daughter of Judge McLeod of Summerside, is visiting in

John Condon of Paumeral Island, was seriously hurt this week. He was rolling a piece of grain, when the horse ran away, causing the accident. Fred Prowse of Murray Harbor has gone to Sackville for the closing exercises. His sister, Edith Prowse, is

### COLLEGE COMPLEXIONS. Can be Ruined by Coffee.

Nothing so surely mars a woman's complexion as coffee drinking. A young college girl of Hyattsville, Md., says, "I never drank coffee up to the time I went to college, and as long as you are not going to publish my name will admit that I was proud of my pink and white complexion, but for reason I began drinking coffee at school and when vacation came I looked like a wreck. Was extremely nervous and my face hollow and sallow. All my friends said college life had

been too much for me. After ques-Walter M. Scott, C. She said she had been steadily giving me Postum Food Coffee and I did not know it.

My color came back, much to my delight and I was fully restored to health. I will return to college without the slightest fear of losing ground for I know exactly where the trouble lies. Mother says the first time she had Postum made no one would drink it for

it was pale and watery, but the next day she did not trust to the cook but examined the directions and made it herself. She found the cook had just let it come to the boiling point and

then served it. and it was tasteless, but the beverage made according to directions, by proper boiling, is delicious and has a remarkable "taste for more." One cup is seldom enough for Father now. I have a young lady friend who suf-

fered several years from neuralgia and headache, obtaining only temporary re-lief from medicines. Her sister finally persuaded her to leave off coffee and use Postum. She is now yery pronounced in her views as to coffee. Says it was the one thing responsible for ner condition, fr she is now well and the headaches and neuralgia are things of the nast.
