MARKET PICKED UP LIVELY

(McDougall and Cowans.)
New York, Aug. 9.—The President's
reference to recent extreme demands
of labor were generally approved in
the street. These have already
brought from the Railroad brother-
hoods a disavowal of any intention to
strike in support of the Plumb plan.
Hesitation of the stock market in the
second hour, after the first quick re-
covery on the shorts, was natural in
view of the fact that the President
outlined a long programme against
prices, not only of foods, but of other
necessities. It is likely that this will
involve more than merely cutting out
of the profiteering of middlemen and
will extend toward a lower price level
in the primary markets. Profits of
many industrial corporations are like-
ly to be affected, especially as the re-
adjustment of wages to the new gen-
eral level of prices is pretty sure to
lag behind. On both sides, however,
it will doubtless be a long drawn out
process. Sales 620,100.
