

FOR WOMEN

AMUSEMENTS

"7 Day Wonder Sale"

You all know that song we heard years ago, from one of the popular musical comedies with its chorus of, "Hello People, People Hello," and how everyone seemed to echo those words for days after the show left town. Well, I am afraid I shall have to bring them to life again, for I want to say exactly what the song said, "Hello People, People Hello." So please say it to me too, every Saturday. When I write my weekly letters, for I am going to write you about all sorts of things; from the small set safety pin on the notion counter to the very latest—well, never mind, I'll tell you all about "them" some other time. Here's to our next meeting—Chatterbox.

The "Clean-up" time of all surplus Spring stocks of Women's Ready-to-wear Coats, Suits, Dresses.

The sale commences today and will continue until Saturday next, June 4th.

It is a definite clearaway of surplus stocks of women's apparel to make room for mid-summer goods now coming to hand.

Some thousands of dollars worth of seasonable merchandise is offered at phenomenally low prices.

Come and get your share.

Some Real Facts On Anti-Tuberculosis

The patients of the St. John Anti-Tuberculosis Society are gradually finding their new headquarters, which are located in the former rooms of the provincial executive on Prince William street. The quarters while neither as spacious or satisfactory as those the society were forced to vacate in the water works building are serving the purpose.

Interesting charts are hung about illustrating the society's work, and the ravages of the great white plague it is fighting. One of much interest reads as follows: "In 1909 tuberculosis killed 27 persons over 10,000 in St. John. In 1915 it killed 13 per 10,000; 1925 depends on you."

DISTINGUISHES HIMSELF IN BACTERIOLOGY

The name of Frederick Edwin Coster of Hampton appears in the past list of the fourth year medical students at Dalhousie University. Mr. Coster passed in all the subjects of his year and with distinction in bacteriology. "Ted" distinguished himself not only in the lecture room but on the Dal campus as well, making his place on the football, basketball and track teams and acquiring himself brilliantly on all.

Donald Munro arrived in the city yesterday from Montreal to visit his parents, Mr. and Mrs. W. A. Munro, 134 Paradise Row.

IN THE PUBLIC EYE

R. H. BLUMENTHAL.

R. H. Blumenthal, vice-president and general manager of J. H. Blumenthal & Sons, Ltd., whose untiring efforts with the co-operation of Alderman Lyon W. Jacobs, K. C., has secured the recommendation of the Montreal City Council for the establishment of a municipal golf course. Mr. Blumenthal is a director of the Baron de Hirsch Institute and a governor of the Western and Verdun Hospital. He is also a member of the Reform, Montefiore and Canadian National clubs.

"Purify the Blood"

THIS is the doctor's advice to most people whose blood he analyzes at this season of the year.

Overeating of artificial foods, combined with too little outdoor exercise, leaves the human system clogged with poisonous impurities.

The liver is torpid, the bowels constipated and the kidneys so overworked that they become ineffective as filters of the blood.

The most rational treatment is Dr. Chase's Kidney-Liver Pills because of their

combined action in arousing these filtering and excretory organs to healthful activity.

Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used doctors' medicine previous to this, without any good result. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved. I shall always praise Dr. Chase's Kidney-Liver Pills, and tell my friends about the benefit they have been to me."

Dr. Chase's Kidney-Liver Pills, 25 cts. a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Says Trouble With World Is Spiritual

Dr. Pallen of New York Says Christian Principles of Early Days Forgotten.

Portland, Me., May 21.—That the people of today have wandered away from the moral and spiritual ideals enunciated more than 2,000 years ago upon which our Christian civilization is based was the statement of Dr. Conde Beloit Pallen, L.L.D., of New York, in an address before a large audience at the Catholic Institute.

"Troubles afflicting the world are spiritual troubles," said Dr. Pallen, "and the great World War was but one of the many symptoms."

The assembly hall at the Institute was filled to capacity when Dr. Pallen was introduced by Fred D. Harvey, this city, master of the Fourth Degree of Maine, Knights of Columbus, under whose auspices the meeting was held.

"We have strayed away from those moral precepts enunciated more than 2,000 years ago from an obscure province of the Roman Empire and which 300 years later rent the great fabric of that empire and the system of absolute despotism. The world will not be cured until we return to the high road of Christian principles," said Dr. Pallen.

"We are told that the great war is the cause of the troubles that beset the world, but this is not so. Our troubles antedate the war a long time and the great struggle was only a terrible and aggravated symptom of the profound disorder in modern humanity—and that disorder is spiritual. We have left behind the moral and spiritual ideals upon which our Christian civilization is based and have descended into the jungles of materialism. Our democracy, our equality, our freedom were founded for us more than 2,000 years ago and built into the structure we know as Christendom and unless we carry on this civilization to our descendants we are receding to our ruin."

MARINE AGREEMENT

Washington, May 27.—An agreement on wages and working conditions was reached tonight between representatives of the Marine Engineers' Beneficial Association and Chairman Benson, of the Shipping Board in the controversy which has threatened to tie up American shipping. The terms will be submitted to the various local unions Sunday for ratification.

GRAIN PRICE PROBE

Carleton Place, Ont., May 27.—The fact stood out plainly in evidence given before the Royal Grain enquiry commission today that grain buying in Carleton Place last season was mostly on the basis of track prices for grain by both wagon and carload. That was due to active competition at this point led by one big buyer and had the effect of closing up the farmers' elevator rented by the United Grain Growers.

PRISON BILL POSTPONED

Ottawa, May 27.—The Minister of Justice has dropped for the present session the bill to amend the Penitentiaries Act. In making the motion for the withdrawal of this bill, Mr. Doherty explained that after further consideration he had decided that the more important matters should be left over.

Delegates For The National Council

Sympathy Expressed on Death of Lady Tilley—Greetings to Calgary Convention.

Appointments of delegates for the National Council meeting at Calgary were made at yesterday afternoon's meeting of the St. John Council of Women. The meeting was held at 3.45, in order to allow members to attend the funeral of Lady Tilley.

Letter of Sympathy

Before taking up the regular business of the meeting, Miss Grace Leavitt spoke of Lady Tilley's great influence in the organization of the Local Council. Her memory is one that will last. Her loss is a great one to the city in general. Miss Leavitt moved that a letter of deep sympathy be sent from the council to Mr. and Mrs. Leonard Tilley. With a few words of sorrow and of appreciation, Mrs. David McLellan, seconded this motion, which was passed by standing vote.

After reading of minutes by Mrs. C. C. Poole, Mrs. Richard Hooper gave notice of motion stating that at the next regular meeting, with the President, Mrs. Atherton Smith, in the chair, Mrs. Hooper intends to reopen the matter of the acceptance of the affiliation fee from the Women's Institute.

Mrs. Willard Smith and Mrs. W. H. Roberts were added to the list of those attending the National meeting at Calgary early in June. Mrs. Edmund Raymond is leaving on Thursday, and Mrs. E. A. Young will go.

The Mayor's Letter

A letter was read from Mayor Schofield conveying greetings from the City of St. John to the Mayor of Calgary. The letter was as follows:

Mayor's Office, St. John, N. B., Can.

25th May, 1921.

His Worship, the Mayor,

Calgary, Alta.

Dear Sir:—I understand that a delegation of our National Council of Women is leaving here shortly to attend a conference in your city, and I am writing that they may take this message along with them to send you greetings from the east to the west and to express the hope that as the years go by the east may be nearer to the west, both in thought, word and deed.

Having passed through such a tremendous war as we have in the past five years in the history of this country, as well as in the history of the world, and having stood shoulder to shoulder with the east in the west of Canada, let us hope that this thought may be continued in the years to come and that we may have a national unity from coast to coast working for the betterment of Canada as a whole, especially in that those of us who were spared through the recent conflict may always be a credit to those who were lost.

I extend to you, and through you to the people of Calgary and the west, our very heartiest greeting for the

DR. J. A. MORISON TO EXTEND GREETINGS

The Rev. Dr. J. A. Morison, of the First Presbyterian church, Carleton Place and Kingston, to convey the greetings of the Presbytery to the Rev. Gordon Pringle and his congregation there. The occasion is the twenty-fifth anniversary of the beginning of Mr. Pringle's ministry on that field. Dr. Morison will preach at three services Sunday.

PUBLIC BAND CONCERT.

Asked last night if the St. John citizens were to be favored with public band concerts this summer, Commissioner Pringle stated that he thought the bands would be performing shortly. The custom had been one of fifteen years standing, and was greatly appreciated by all classes of citizens. He saw no reason why it should not be continued this year. Last evening was an ideal one for a band concert, King square was crowded as it was, but had the band been in attendance, the crowd would have been a record breaker.

NO ARRESTS

For the first time this week a clear sheet will be handed to the police magistrate, as no arrests have been made by the police during the past 24 hours.

general prosperity of Canada as a nation.

Yours truly,

E. A. SCHOFIELD.

Are Sending Gifts

W. K. Gannon, of the Corona Company, is sending to the meeting a gift box of confectionery tied with the council colors. T. S. Simms will send pictures of work of vocational classes and a gift from the factory. Various affiliated societies and organizations are supplying the delegates with information as to their work.

A letter was read from Brigadier Moore of the Salvation Army, regretting overlapping of collections on Rose Day and asking for loan of bands for the Salvation Army Tag Day. Miss Lovitt, of Yarmouth, wrote expressing thanks for sympathy, as did Mrs. Macklin, secretary of the London, Ont. council, thanking the Local Council for sympathy at the death of Mrs. Boomer.

Treasurer's Report

Miss Alice Ester, treasurer, reported the milk fund at present overdrawn with \$150 promised; \$42 was contributed during the week. The sum of \$13, extra expenses, was voted to H. A. Powell in connection with legal services. A balance of \$47.50 from the Fountain Fund was merged into the General Fund of the Council. The delegates attending the National Council at Calgary were furnished with credentials and instructions for voting. It was suggested that two members from the east be elected on the committee of limitation. On motion, the Salvation Army will be loaned boxes belonging to the council for their tag day.

Psychology Tests Urged For Students

This is Remedy for Condition Complained of by Edison it is Claimed.

New York, May 11.—Dr. Samuel Heckman, psychologist of the College of the City of New York, who commented yesterday on Thos. A. Edison's experience with "amazingly ignorant" college graduates who applied for jobs at the Edison plant, said that students in grammar schools should be submitted to psychology tests to ascertain what educational channels they should be guided into. "Many students are simply wasting their time in lines of work for which they were not mentally endowed," said Prof. Heckman. "It is possible to classify boys and girls into general groups while they are still quite young. Much time can be saved, for example, if it is discovered that a student who has planned to go in for law is much better fitted for mechanics, or vice versa."

"We have had such a clinic at the City College since 1913. It is now utilized by the various welfare societies of the city. The public schools are turning more and more to the employment of psychological tests, but the practice is not as general as it should be. The Bureau of Attendance is now utilizing psychological tests for children that present special prob-

DEMAND REGENT'S RESIGNATION

London, May 27.—A despatch to the Daily Herald, the Labor organ, from Vienna, says the Supreme Council has notified the Hungarian Government that when the Reparations Commission arrives in Budapest at the end of June it will assume control of the country both politically and economically. It also will demand the resignation of a provisional government, composed of members of all parties. This new government will immediately hold new elections under international supervision. The existing National Assembly the despatch adds, will first be required formally to denounce the Hapsburgs.

Dartmouth, N. S., May 27.—Fire today destroyed several hundred acres of woodland a few miles north of this town, and for some time threatened the cottages of the summer colony at Burnside. Residents of Tut's Cove and Dartmouth successfully fought the flames.

Iena. An examination soon establishes the child in the division to which he or she belongs mentally. "This classification will show who are equipped for the professions or for success in a large way in business; who probably will not be skilled as trade workers. While no psychological test is claimed to be 100 per cent. accurate, it is much better than the hit and miss procedure that has been in the schools for years."

Last year 1,100 children took the psychology tests at the City College,

Essex Advantages Revealed In Long Hard Service

ESSEX gets its long wearing endurance in performance and smooth operation from a special design and the way it is built.

For instance, everyone knows how squeaking springs and body rattles destroy riding enjoyment. Light cars have not alone been at fault in that respect.

"Drove 20,354 Miles In 7 Months"

Gas consumption averaged 19 miles to the gallon. Twenty-five gallons of oil were used. No repairs whatever were made during this period, and the engine was not cleaned until approximately 12,000 miles had been covered.

"I have driven cars for the last 6 or 7 years. Cars with me have to do exceptionally heavy service, and this year will be the first I have ever used the same car for the second season, as I am doing with my Essex."

"My work as a traveling salesman, necessitates covering four Canadian provinces. Part of my way lies through the Metopedia Valley; the roads are so narrow that it is necessary before starting to remove the windshield and top and to bandage the body and mud-guards with heavy cotton in order to keep the finish from being destroyed by the branches and bushes at sides of the roads."

"Naturally it would be hard to sell me anything but an Essex in the future—not only for its endurance, but for get-away, 'pop' and all around performance."

P. E. GUAY,

Sherrbrooke, Quebec

But Essex has minimized squeaking bodies by a frame so designed that it does not weave. It has a load capacity that with one exception is greater than that of any other car.

That is why an Essex rides over rutty roads, and cobble stones with a smoothness and freedom from noise entirely unexpected in a car of its size and price.

It is why Essex gives a feeling of rigid solidity to the passenger at any speed and over any road surface.

Throughout the Essex you will find other details not so apparent in casual observation. Their advantages are not noted when comparison is made with new cars. But when Essex has had a season's use and the advantages of its design and construction become more evident owners grow more and more enthusiastic. Time serves to show many superiorities in the Essex. It is then that its difference as a moderate priced light car becomes so notable. Choose your car for what it will be after a year's service.

A Regular S Weekly

Dear Young Folks:—

You must all remember a few weeks ago in which I had a letter from a lady suggesting that I should group of girls, who met for others in need.

The work recommended was for the Province of Ontario for Children and I hinted that many good workers might be found in your province to work there. The reason for that institution was because of the fact that all the little folks would be getting ready for the summer. I had from all parts of N. B. a lot of clothing which little folks would be getting ready for the summer. I had from all parts of N. B. a lot of clothing which little folks would be getting ready for the summer. I had from all parts of N. B. a lot of clothing which little folks would be getting ready for the summer.

Well, it is a real book conducted if enough has been given, so here is your chance. And proud to announce that many of are how formed into pictures already at the time you will see in the Home idea of naming the Children has met with great success. They are both very good and as they ready they will send Standard Office, Prince St. John. Each packet tents will be acknowledged. C. page and then the forwarded to the Home. able to think of various money wish while any new goods required taken at each meeting. fine, etc. are all people and when you discover write about it so others your experience. The be some more flower the near future. Have leader. Choose your among the girls' year secretary and a treasurer you are ready for a new fun to have real meetings. Ask do? "Hear that?" the report from the time will learn a lot, too, and it will fit you for making which may come the days to come. I much of the accounts they reach me as possible. nations of course will vate, but whatever is other workers was printed. With the best all and hopes for more formed.

As ever your pal,

Birthday G

"Many happy returns to the wish of the C. C. Club having a birthday coming week. On our loving:
